ACCREDITED COLLEGES

Standards for Accrediting Colleges for Teachers' Certificates in Accordance with Sections 2634-f, 2634-fl, and 2634-g, Supplement to the Code of 1913.

1. The number of class hours for the heads of departments and students shall not exceed twenty a week.

2. A faculty properly qualified shall consist of persons who have taken a master's degree in course in a recognized graduate school or have pursued graduate work in residence at least two years.

3. The library shall consist of at least seventy-five hundred volumes selected with

reference to college subjects and exclusive of public documents.

4. The laboratory equipment shall be adequate for doing work in a scientific way in the courses announced in the catalog in botany, zoology, chemistry, physics, home economics and agriculture.

5. The means of support is defined as requiring a permanent endowment of not less than \$200,000 or a fixed assured income or its equivalent, exclusive of tuition, of at least \$10,000.

6. The college must maintain at least seven separate departments or chairs, and in case the pedagogical work of the institution is to be accepted without examination the college must maintain at least eight chairs, one of which shall be devoted exclusively to education or at most to philosophy, including psychology and education. The heads of at least five of these departments shall in no case devote less than three-fourths of their class hours to college work.

7. The graduates must in addition to the four year college course show the completion of a four year high school course according to the standards adopted by the Department of Public Instruction for an approved high school. The standing and character of the institution and the nature of its equipment and work must be such as to entitle its graduates to admission to the graduate college of the State University of Iowa.

STATE UNIVERSITY OF IOWA

Walter Albert Jessup, Ph.D., LL.D...	President
William Herbert Bates.....	Secretary
Herbert Clifford Dorcas, M. A.....	Registrar

The State University of Iowa was established by the First General Assembly on February 25, 1847, in pursuance of a provision of the Constitution in 1846, but not actually opened until March, 1855. By the Constitution in 1857, the University was permanently

established at Iowa City, "without branch at any other place."

The University is organized and administered through the following colleges and schools: The Graduate College, the College of Liberal Arts, the College of Law, the College of Medicine, the College of Dentistry, the College of Pharmacy, the College of Engineering, the College of Education, the College of Commerce, the School of Music, the School of Journalism, the School of Religion, the Summer Session, the Iowa Child Welfare Research Station, the Extension Division, and the Division of Maternity and Infant Hygiene.

IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS, AMES

Raymond M. Hughes.....	President
Herman Knapp.....	Business Mgr. and Treasurer
C. F. Curtiss.....	Dean of Agriculture
Anson Marston.....	Dean of Engineering
Genevieve Fisher.....	Dean of Home Economics
S. W. Beyer.....	Dean of Industrial Science
C. H. Stange.....	Dean of Veterinary Medicine
R. E. Buchanan.....	Dean of Graduate College

This institution was established by the Iowa legislature in 1858, and endowed by the National Land Grant Act of Congress in 1862. In accepting the grant of the national government the Iowa General Assembly defined the object of the College as follows: "There shall be adopted and taught in the State Agricultural College, a broad, liberal and practical course of study, in which the leading branches of learning shall relate to agriculture and the mechanic arts, and which shall also embrace such other branches of learning as will most practically and liberally educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics."

Work is conducted along five major lines, namely: Agriculture, engineering, home economics, industrial science, veterinary medicine.

Graduate work, collegiate work, and investigations are conducted along each of these

major lines. Degrees are awarded upon completion of four-year courses, five-year courses, six-year courses, and graduate study.

IOWA STATE TEACHERS COLLEGE, CEDAR FALLS, IOWA

Homer H. Seerley.....President
Charles S. Cory.....Registrar and Examiner
Anna R. Wild.....Executive Secretary
Benjamin Boardman.....College Secretary

The Iowa State Normal School was established at Cedar Falls in 1876. The 33d General Assembly changed the name to Iowa State Teachers College. It offers a great variety of courses leading to the degree of Bachelor of Arts in Education, preparing teachers for the widest field of usefulness in the public schools and various diploma courses for specialization in all grades of public school work.

For catalogue and other information address The Registrar, Cedar Falls, Iowa.

IOWA SCHOOL FOR THE DEAF, COUNCIL BLUFFS

O. L. McIntire.....Superintendent

A free school for Iowa deaf children of suitable age and capacity, as well as those who are too deaf to secure an education elsewhere. There is no charge for board, tuition or books, parents provide for transportation and furnish the necessary clothing, and in cases where they are unable to meet these expenditures the superintendent is authorized by law to provide same and charge to the county from whence the pupil comes.

Correspondence is solicited by the superintendent.—O. L. McIntire.

IOWA COLLEGE FOR THE BLIND, VINTON

Francis Eber Palmer.....Superintendent
J. E. Luckey, M. D.....Physician
Dr. C. S. O'Brien Dean, M. D.....
.....Visiting Ophthalmic Surgeon

The aim and purpose of this institution is purely educational. The literary work covers a period of thirteen years in outline similar

to that of the public school, being a fully accredited high school. The department of music is supplied with a number of pianos, pipe organ and a number of stringed instruments. All students who have any talent in music are given a thorough course of training in this department.

All students are required to do work in the industrial department. The girls are taught knitting, crocheting, fancy-work, hand and machine sewing, basket weaving, plain and art weaving and domestic science. The boys are taught netting, weaving, broom making, basket making, cane seating, manual training, plain and art weaving, basket weaving, and piano tuning. Both are taught typewriting and dictaphone operation.

These advantages are free to all blind children of school age. Those who have vision so defective as to prevent them from attending the public schools are also admitted providing they are mentally normal.

IOWA TRAINING SCHOOL FOR BOYS, ELDORA

O. S. Von Krog.....Superintendent

This school is situated on a farm of eight hundred and seventy acres, within the city limits of Eldora, Hardin county. The training school is one of Iowa's worthy educational institutions. It is a school of learning and discipline where unfortunate and wayward boys are brought under the influence of competent and experienced teachers and instructors, and are taught by example, as well as precept, the better ways of life.

After-care for boys leaving the training school was provided for by the legislature of 1907. The state agents look into the early surroundings of each boy and supply valuable information for their care. When they are graduated they secure suitable employment, usually at the trade for which they were trained in school, arrange for their schooling and in general are friends to them, ready to help them solve their problems and adjust their difficulties.

By actual count, 80 per cent of the boys conduct themselves satisfactorily after leaving the school.

IOWA TRAINING SCHOOL FOR GIRLS, MITCHELLVILLE

Ray M. Hanchett.....Superintendent

The Iowa Training School for Girls is located at Mitchellville, eighteen miles north and east of Des Moines.

The institution is on the cottage or family plan. There are five cottages for girls, one cottage for the superintendent, a hospital and receiving cottage, and office building, a chapel and school building, power house, barns, implement house, laundry, etc.

The best of medical attention is given to every girl. Where we do not have the proper equipment or the counsel of a specialist is needed, the girls are sent to the University Hospital at Iowa City.

Regular hours for work, play, and sleep, the wholesome, cleanly living conditions, the well defined program of industrial and academic work that the school offers, together with the responsibility given to each girl for her part, all serve as preparation and training for her later life in the community, and the responsibility she must assume in the betterment of the community.

IOWA SOLDIERS' ORPHANS' HOME, DAVENPORT

R. E. Zerwekh.....Superintendent

Ella Wetzel.....Principal of Schools

The institution is under the management of the Board of Control of State Institutions. There were 508 children in the home (August 1, 1927). 450 of whom were enrolled in the grades. The work offered in the school embraces only the first eight grades, but upon graduation a child enters the Davenport public high schools,

INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD

George Mogridge, M. D.....Superintendent

The purpose of the institution is to provide special methods of training for that class of children deficient in mind, or marked with such peculiarities as to deprive them of the school benefits and privileges provided for children with normal faculties.

IOWA JUVENILE HOME, TOLEDO

A. E. Kepford.....Superintendent

This institution is located at Toledo, Iowa, and occupies the site of old Leander Clark College. There are 122 acres of land in connection, forty-two of which include a large campus, orchard and dairy barn.

The Home is for dependent, neglected, destitute or homeless children, who may or may not be border-line delinquents. The institution maintains a ten-grade school, including equipment for teaching domestic science and arts, and manual training.

The policy pursued at this institution is to incorporate the right principles of living and the basic elements of democracy. The children are taught the value of labor, and the dignity of self-support, with the result that many former residents are now living in private homes and enjoying an independent social life.

The motto of this Home is: "Prevention is better than cure."

CONSOLIDATED SCHOOLS REPORT FOR SCHOOL YEAR 1926-1927

Number of Consolidated schools in operation 369

Number of consolidated schools maintaining Smith-Hughes Vocational Agriculture..	59

VOCATIONAL EDUCATION

The work in vocational education includes educational service in the following enterprises:

1. Agriculture.
2. Home Making.
3. Trades and Industries.
4. Rehabilitation.

AGRICULTURE

Vocational Agriculture offers a program of work and study that is adapted to the needs of rural pupils and one that will fit the curriculum of the average high school.

In the Day School classes Farm Shop is offered in the ninth grade, Farm Crops and Animal Husbandry are offered to the tenth and eleventh grade pupils, while Farm Management and Marketing courses may be offered in the eleventh and twelfth grades if the enrollment is sufficient to provide for a fourth year of vocational work.

Part Time work is provided for boys of fourteen years or over who are not regularly enrolled in school. Unit courses in Evening School work are provided for adult farmers during the dull seasons of the year.

To secure the federal aid that is being reimbursed to the district when the above lines of work are taught, the district employs a man especially trained for the teaching of Vocational Agriculture. The amount of reimbursement is one-half of the salary of the instructor for the time spent on the agriculture work.

VOCATIONAL HOME MAKING EDUCATION

The Federal and State Governments have provided for Vocational Home Making Education for girls and women in the Day, Part Time and Evening Schools, believing that women should be trained for their job as home makers as men and women are trained for any other profession.

Day School. A survey of the Day School situation in Iowa shows that the ideal course of study is a two-year program. In this type of program science related to the home is correlated with home economics the first year and art related to the home is correlated with home economics the second year. Subject matter for the course is worked up into short units. Girls complete the work of one unit before going on to the next.

Vocational home making work calls for the closest co-operation between the school and the home, since part of the work is done in the home as a laboratory and the parent as the teacher. Home work is required as well as Home Project work. Project work builds upon the information received in class and requires additional information for completion, which is secured by the pupil herself. This type of work is designed to meet the needs of girls fourteen years of age or over.

Part Time School. Part Time school work is carried on during the regular hours of employment. Class members return to school from industry for certain hours during the week. This type of work is also given in short units so as to meet the particular needs of the class members. In this type of school pupils are continually being enrolled as they

drop out of the regular day school classes. This makes a continually changing group whose needs must be known and met by the teacher.

Evening School. This type of work is not necessarily given in the evening but during the time of leisure of the class members. The course of study is adapted to local conditions and the special needs of the group enrolled. The work is given in short units, making it possible for pupils to enter for the unit or units they desire.

TRADES AND INDUSTRIES

In the trades and industries of Iowa, vocational training is given under five different heading, Evening Trade Extension, Part Time General Continuation, Part Time Trade Extension, Unit Trade Day Schools, and Teacher Training.

EVENING SCHOOLS

The Evening School program is the large unit in the trade and industrial vocational field which reaches the most people. Some of the courses offered in this type of work are for the training of foremen, machinists, railroad apprentices, carpenters, plumbers, electricians, sheet metal workers, printers, painters, decorators, radio technicians, auto mechanics, milliners, dressmakers and tailors. These classes are conducted throughout the state with the idea in mind of providing trade extension instruction for the improvement of persons along the lines in which they are employed.

PART TIME GENERAL CONTINUATION SCHOOLS

The Part Time General Continuation Schools are organized to provide instruction that will increase the civic or vocational intelligence of persons between the ages of fourteen and sixteen who are already employed in some type of industrial work.

This type of work is carried on in eleven cities providing eight hours per week of instruction for employed minors between the ages of fourteen and sixteen. This work is of a trade preparatory or general continuation nature.

PART TIME TRADE EXTENSION CLASSES

The Part Time Trade Extension classes are organized to improve the qualification of em-

ployed workers and to prepare them definitely for promotion in the occupations which they are already following.

This work is carried on in eight cities having classes organized for painters and decorators, cabinet makers, carpenters, machinists, draftsmen, etc., also in related subjects.

THE UNIT DAY TRADE SCHOOLS

The Unit Day Trade Schools are organized in the larger centers of Iowa. The main purpose is to fit persons for useful employment who are preparing for a trade or an industrial pursuit. This work is conducted in five cities in the state. In these classes there must be offered as a minimum a six hour day, at least three hours of shop work on a useful or productive basis and in addition three hours of instruction in related subjects which shall include Science, English, Mathematics and Drawing.

This related work is based on concrete demonstration and experience by the use of material objects. Theory and reason are so associated with concrete instruction as to make an intelligent and thoughtful workman rather a mere mechanical manipulator.

TEACHER TRAINING AND FOREMANSHIP

The Teached Training and Foremanship classes are carried on in fourteen cities by the Engineering Extension Department of the Iowa State College for the training of Trade and Industrial teachers in shop and related subjects and for the purpose of upgrading teachers already engaged in the teaching field.

All of the Teacher Training work carried on in the Trade and Industrial Education field is under the direct supervision of the State Board for Vocational Education.

REHABILITATION SERVICE FOR DISABLED PERSONS

The state of Iowa, in co-operation with the federal government, has provided a service which assists persons with a physical handicap to become self-supporting. This service is free. It is not an act of charity nor a form of public relief. In their struggle to earn a living, this service helps disabled persons to overcome some of their difficulties caused by their impairment. Rehabilitation service is an effort on the part of the state and nation to adjust disabled persons to employment. The purpose of the law is two-fold. First, to conserve for society the remaining possible contributions which citizens might make who have lost, through disease or accident, some of their physical powers. Second, to prevent such persons from becoming a burden to society because of lack of adjustment of their impaired powers to the conditions of employment and self-support as they find them.

Who is entitled to this service? Any resident of Iowa of employable age who is not suitably employed because of physical defect or infirmity. This includes women as well as men. The lower age limit in Iowa is 16 years, with no upper age limit. Since the training offered must be directly vocational, children will be encouraged to remain in regular school work as long as possible. Generally the advantages of this service to elderly persons will be in assisting them to employment when this is possible. While this service is limited to the person who has a physical defect, it does not follow that all disabled persons are eligible. The defect must be of such nature that it is the primary cause of the person's unemployment or employment in an unsuitable job. Training can be provided

either in school or by individual instruction. No general education is offered, but instruction which will help the afflicted person to definite employment. The training that disabled persons receive is for the purpose of making them enough more proficient to offset the disadvantage under which they seek employment. It will not be possible to consider new applicants for training of college grade for some time to come.

The end of any successful program for the rehabilitation of an individual is suitable employment. There are all kinds of persons disabled and many kinds of jobs will be needed. Unless the public generally, and especially the employers, are willing to accept the principle that a disabled person, properly located, is as capable and efficient as a whole person, rehabilitation cannot become generally successful. No one can be expected to continue to employ a person who is not returning profit to the employer. On the other hand, it is perfectly reasonable to expect every employer to exert himself to discover opportunities to profitably employ disabled persons.
