IOWA BUREAU OF LABOR BIENNIAL REPORT 1979 - 1980

IOWA BUREAU OF LABOR BIENNIAL REPORT 1979 - 1980

Robert D. Ray, Governor

Allen J. Meier, Labor Commissioner

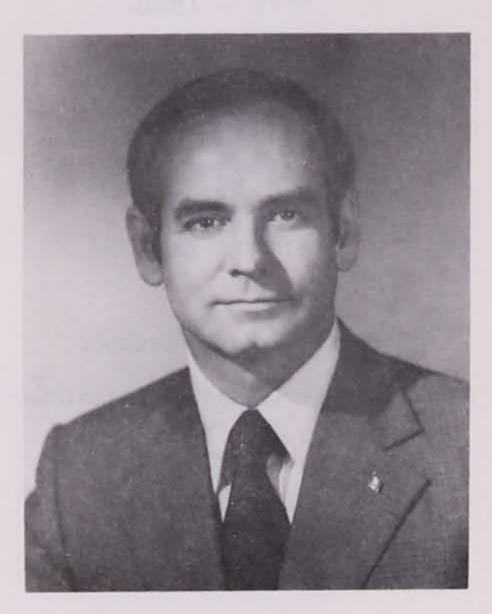

Compiled by the

Research and Statistics Division 307 East 7th Street Des Moines, Iowa 50319 (515) 281-3606

November, 1981

STATE LIBRARY OF IOWA Historical Building DES MOINES, IOWA 50319

ACKNOWLEDGEMENT

Robert D. Ray Governor of Iowa

The Bureau of Labor wishes to acknowledge the support that Governor Robert D. Ray has given to the many programs administered by our Department. Governor Ray has always considered the health and safety and Iowa's workers and citizens to be of high priority. With new and existing programs competing for the limited public funding available, the Bureau of Labor could not have achieved the performance goals reflected in this report without the support of his office and staff.

INTRODUCTION

The Bureau of Labor's Biennial Report for 1979 and 1980 contains descriptions and statistical summaries of its varied activities and services to the workers and employers of the State of Iowa. The following is a brief summary of each of the laws and programs administered by the Bureau of Labor. In addition to the specific activities outlined below, the Bureau of Labor offers educational programs in the area of occupational safety and health to both employers and employees. Also, the Bureau of Labor serves as an information or referral service to workers and employers for questions pertaining to conditions of employment or for problems arising out of and in the course of one's employment. If you have any questions relating to the activities or services of the Iowa Bureau of Labor, please contact our office.

Occupational Safety and Health

The purpose of the Iowa Occupational Safety and Health Act is to assure every working man and woman in this state safe and healthful working conditions and to preserve human resources. The Act authorizes the Labor Commissioner to set safety and health standards, provides for research in the safety and health areas, and sets up an inspection and enforcement program. The coverage of this Act extends to all employers in the state with one or more employees. Excluded are mining operations and Federal government installations. Safety and health coverage provided by the Bureau of Labor affects a total of 1,127,400 workers.

Wage Payment Collection

The purpose of the Iowa Wage Payment Collection Law is to insure that an employer pays all wages due its employees, less any lawful deductions, on regular paydays which are at consistent intervals from each other and which are designated in advance by the employer. It is the duty of the Labor Commissioner to administer and enforce the provisions of the Law, to investigate charges, and if necessary commence a civil action to recover any unpaid wages due the employee.

Child Labor

The Iowa Child Labor Law prescribes hours and conditions of work that are permissible for the employment of youth. Although persons over 16 years of age may be employed legally in most occupations, the Law sets an 18 years of age minimum for employment in certain particularly hazardous jobs in order to protect young workers from industrial injury. Under the Iowa Child Labor Law, employers are required to obtain work permits or certificates of age before they employ minors of certain ages. These permits show that the minor has met the minimum age and other requirements of State law. It is the duty of the Labor Commissioner to enforce the provisions of the Law.

Boiler Inspection

It is the duty of the Labor Commissioner to inspect or cause to be inspected at least once every twelve months steam and hot water boilers used for heating and other such equipment covered by the Iowa Boiler Inspection Law. The purpose of the inspection is to determine whether the equipment is in safe and satisfactory condition and properly constructed and maintained for the purpose for which it is used.

Elevator Inspection

The purpose of the State Elevator Code is to provide for the public safety and to protect the public welfare of persons using any elevator, dumbwaiter, escalator, moving walk, or manlift subject to the Code. It is the function of the Bureau of Labor to adopt rules governing maintenance, construction, alteration, and installation of facilities, and the inspection and testing of new and existing installations.

Inspection of Amusement Parks/Rides

The purpose of the Iowa Amusement Ride Safety Inspection Law is to minimize in so far as possible injury or death that may result from the operation of amusement devices or carnivals. It is the function of the Bureau of Labor to determine if an amusement ride, amusement device, concession booth, or any related electrical equipment is in compliance with safety rules and will provide protection to the public using such ride, device, booth or related electrical equipment.

On-Site Consultation

The Iowa Bureau of Labor offers a free on-site safety and health consultation service to employers who request it. In providing this service, highest priority is given to smaller businesses and to work-places where a high degree of hazard is known to exist. The consultation is used to inform the employer of conditions and practices in his establishment which may not be in compliance with the law, standards or rules and regulations. It is a means of explaining job safety and health regulations and informing the employer how to comply with them. The on-site consultation service is an integral part of the Bureau of Labor's occupational safety and health program and is available to both private sector and public sector employers.

Inspection of Temporary Labor Camps

The Iowa Bureau of Labor inspects temporary labor camps to insure that they are environmentally safe and that the site, shelter, water supply, toilet facilities, sewage disposal facilities, laundry, handwashing and bathing facilities and lighting are adequate. Such temporary labor camps are occupied by migrant workers. The inspections are performed as a part of the Bureau of Labor's occupational safety and health program.

License for Employment Agencies

Employment agencies are required to obtain licenses from the Employment Agency License Commission before they conduct their business and to file a schedule of fees charged. The Labor Commissioner is a member of the Commission; it is his duty to administer the law relating to employment agencies and to investigate complaints under it. Fees chargeable by employment agencies may not exceed 25 percent of the first month's pay for employment paying less than \$250 per month and no charge for furnishing or procurement of employment shall exceed 8 percent of the annual gross earnings. However, if fees are charged solely to the employer there is no restriction on the amount that can be charged.

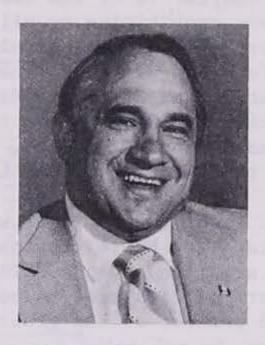

Railway Employees Sanitation and Shelter

The Iowa Railway Employees Sanitation and Shelter Act requires that railway companies within the State provide adequate sanitation and shelter for all railway employees. The Iowa Bureau of Labor has adopted regulations and conducts inspections to insure that the water supply, toilets, eating places and sleeping accommodations of railway workers are safe and meet required specifications.

Research and Statistics

The Iowa Occupational Safety and Health Act requires the Labor Commissioner to develop and maintain an effective program of collection, compilation and analysis of occupational safety and health statistics. The Research and Statistics Division has implemented and maintains statistical programs that are uniform with those of the U. S. Department of Labor and of other states. These programs provide reliable measures for evaluating the incidence, nature, and causes of injuries and illnesses in the work place in order to aid the Labor Commissioner in reducing occupational fatalities, injuries, and illnesses in Iowa. The statistical data are also made available to employers, employees, researchers, and safety and health professionals to create an awareness of the seriousness and the nature of unsafe and unhealthful working conditions. The data identify problem areas specific to the industries and safety priorities of Iowa and advance accident and illness prevention efforts.

LABOR COMMISSIONER

Allen J. Meier Labor Commissioner

Marjorie Connors Confidential Secretary

Deputy Labor Commissioner

Walter H. Johnson Edward E. Estkowski Special Advisor to the Commissioner

The office of Labor Commissioner was created by the 20th Iowa General Assembly in 1884. The Bureau of Labor, under the control of the Commissioner, is responsible for the enforcement of laws relating to occupational safety and health, child labor, passenger and freight elevators, installation and inspection of fired and unfired pressure vessels, private employment agencies, reporting of work injuries and illnesses, the inspection and regulation of amusement rides, wage collection/payment, and railroad sanitation laws. Under the provisions of law, the Labor Commissioner is a member of the Employment Agency License Commission and chairman of the Committe on Child Labor.

The Employment Agency License Commission investigates and licenses all applicants for private employment agency licenses. The Commission has the authority to adopt regulations necessary for the proper enforcement and administration of Chapters 94 and 95 of the Code of Iowa. Commission members include Secretary of State Mary Jane O'Dell, Industrial Commissioner Robert C. Landess, and Labor Commissioner Allen J. Meier.

The Committee on Child Labor holds public hearings, formulates rules more specifically defining the occupations and equipment permitted or prohibited by Chapter 92 of the Code of Iowa, and issues general and special orders prohibiting or allowing the employment of persons under eighteen years of age in any place of employment hazardous to their health, safety and welfare. The Committee members are Giles J. Smith, representing the Superintendent of Public Instruction; John S. Spear, representing the Director of the Iowa Department of Job Service; Penny Binger and Earnest A. Comito, appointed by Governor Robert D. Ray as public representatives and Labor Commissioner Allen J. Meier.

In August 1979, the Labor Commissioner was named Iowa Commissioner of Athletics. In that capacity he is responsible for regulating all professional boxing and wrestling events held in Iowa. Under the law each promoter in the State of Iowa must be bonded and each event must be licensed. A fee of 5 percent of the gross receipts, after deducting any federal admission tax, is collected for each event. Receipts are deposited in the State General Fund.

Members of the Athletic Commissioner's Ad Hoc Advisory Committee are: Al (Babe) Bisignano, Des Moines; Calvin Crook, Newton; Clayton Johnson, Sioux City; Harold Schrader, Cedar Rapids; and Judd E. Truax, Cedar Falls.

Odella Daniels Secretary I

Jesse Aspedon

Charles Harris

Harold McLamb Boiler Inspector Boiler Inspector Boiler Inspector

The Boiler Division maintains records of steam boilers and other equipment in the State subject to the Boiler Inspection Law, Chapter 89 of the Code of Iowa. Each record contains a full description of the equipment, including the name of the owner or user, its location, type, dimensions, age, condition, amount of pressure allowed, and the date last inspected. It is the function of the Chief Inspector and the three Deputy Inspectors from the Bureau of Labor, assisted by numerous Special Inspectors which work for insurance carriers but hold a commission from the Labor Commissioner, to determine whether such equipment is in safe and satisfactory condition and properly constructed and maintained for the purpose for which it is used.

- 1/ July 1, 1978 through June 30, 1979 and July 1, 1979 through June 30, 1980.
- 2/ State inspections are made by the State Boiler Inspector and his Deputies from the Bureau of Labor. Insured inspections are made by insurance company inspectors deputized by the Bureau of Labor.
- 3/ Shop surveys and special inspections conducted at the request or convenience of the owner.
- During Fiscal Years 1979 and 1980, a fee of \$5.00 was collected by the Bureau of Labor for the issuance of a certificate to insurance inspected equipment. Rates of charges for State inspected equipment are determined under Chapter 89.7, Code of Iowa. Expenses for travel and subsistence are charged to the owner as fees whenever special inspections are requested.
- 5/ Commissions granted by the Labor Commissioner to Special Inspectors who work for insurance carriers. The fee for issuance of a commission is \$10.00.

EDUCATION AND PUBLIC SECTOR CONSULTATION DIVISION

Hewitt Judkins Director

Marita Moir Clerk Typist II

The Bureau of Labor offers a free on-site safety and health consultation service to public sector employers upon request. The public sector encompasses the state and its political subdivisions. Included are cities, towns, counties, state agencies, schools, etc. In providing this service, highest priority is given to the smaller workplaces or to workplaces that have a known high degree of existing hazards. The on-site consultation is used to inform the employer of conditions and practices in his establishment that may not be in compliance with the law, standards, or other rules and regulations. The consultation visit provides the means for explaining job safety and health regulations and informing the employer how to comply with these regulations.

Educational activities consist of providing pamphlets, films, slides, and training modules to employers and employees or the holding of seminars for and giving speeches to such groups. There is no charge for these services. A catalog listing all films, slides, and training modules available at the Bureau of Labor will be sent to employers and employees upon request. Presentations on the IOSH Act are available and any of two to forty-hour safety seminars on subjects and codes that pertain specifically to the industry or group requesting them may be arranged.

The Bureau of Labor will do its utmost to advise the public of all new developments, rules and regulations under the Occupational Safety and Health Act and how to comply with them.

ELEVATOR SAFETY AND AMUSEMENT PARK/RIDE DIVISION

Harold Holmgaard Director

Marcia Bradford Secretary I

Harold Angstrom Field Safety Technician

Charles R. Lyon Field Safety Technician

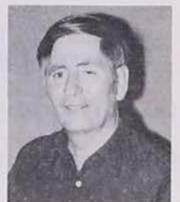

Richard Myers Lead Elevator Inspector

Richard Osborn Elevator Inspector

Malcom Paine Elevator Inspector

Myron Spragg Elevator Inspector

The Amusement Park/Ride Section is responsible for the safety inspection of amusement rides, devices, concessions, and associated electrical wiring used at carnivals or fairs within the State. Two field safety technicians and the safety inspection supervisor inspect about 60 carnival operators and 70 fairs each year. Approximately 4,000,000 persons are exposed to potential hazards from 500 rides and 800 concessions annually. Amusement park/ride inspections, including preliminary, annual, and recheck inspections, are performed during a seven-month period. During the five-month winter season, the two field safety technicians and the secretary are involved in elevator inspection activities.

The Elevator Safety Section is responsible for the safety inspections of elevators, dumbwaiters, escalators, and moving walks. The Division is headed by the safety inspection supervisor and is staffed by a lead elevator inspector, a secretary and three full time elevator inspectors.

OCCUPATIONAL SAFETY AND HEALTH DIVISION

Mary L. Bryant IOSH Administrator

Jerome M. Skeers Labor Safety Officer

David Trott Labor Safety Officer

Phyllis Kelley Discrimination Investigator

Majorie Hines Word Processor II

Donna Phillips Secretary I

The Iowa Occupational Safety and Health Act was promulgated to assure, as far as possible, that every working man and woman in the State of Iowa is provided with safe and healthful working conditions and that no employee will suffer diminished health, functional capacity or shorter life expectancy due to his or her work experience. The Act

covers every employer who is engaged in a business, trade, commerce or industrial activity in the State who has one or more employees and also includes State and local governments.

The Iowa Occupational Safety and Health Division is responsible for enforcing compliance with the standards and regulations adopted under the Act. The Division is made up of the IOSH Administrator, Labor Safety Officers, Compliance Safety and Health Officers, Industrial Hygienists and clerical support staff. The Compliance Safety and Health Officers are organized into groups which specialize in either construction, transportation and public utilities, and public sector enforcement; in general industry, retail trade, wholesale trade, and service industry enforcement; or in discrimination investigations. The Labor Safety Officers are responsible for providing technical expertise to the Compliance Safety and Health Officers, to the Industrial Hygienists and to employers and employees in the State.

Unannounced inspections are conducted by the Compliance Safety and Health Officer or Industrial Hygienist to determine compliance with the standards and regulations. Fatalities and/or catastrophes and employee complaints are investigated. And, since the Act provides that it is unlawful for an employer to discharge or in any way discriminate against an employee for exercising any of his or her rights under the Act, such discrimination allegations are also investigated.

Limited to discrimination allegations by an employee against an employer for discharge or other discrimination for exercising his or her rights under the Iowa Occupational Safety and Health Act.

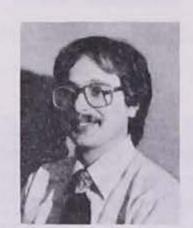

PRIVATE SECTOR SAFETY AND HEALTH CONSULTATION DIVISION

William B. Maddex Director

Robert Chesher Labor Safety Officer

Philip Mercuris Labor Safety and Health Consultant

Donald Sutton Labor Safety and Health Consultant

Mary Finn Labor Safety Officer

Cynthia Baldwin Industrial Hygienist

Margaret Myers Secretary I

The Iowa Job Safety and Health Consultation Program helps private sector employers, particularly those with smaller businesses, to maintain a safe workplace by assisting them in understanding and complying with occupational safety and health regulations. The goal of the program is to aid employers in identifying and correcting potential hazards through voluntary compliance with IOSHA regulations before illnesses or injuries can occur. The program is cost-free and penalty-free to the employer. Upon receipt of a written request for this service, qualified consultants from the Bureau of Labor visit a business or work-site for the purpose of identifying safety and health hazards. Results of the on-site consultation visit are treated in strictest confidence, with the findings and any deviations from the standards being communicated to the employer in a written report.

RESEARCH AND STATISTICS DIVISION

John G. Patramanis Director

Suzanne M. Hill Statistical Assistant II

Dianna L. Lowe Secretary I

Barbara A. Smith Statistical Research Analyst I

Yvonne J. Smith Statistical Assistant II

The ultimate goal of the Iowa Occupational Safety and Health Act is to reduce the incidence of injuries and illnesses in Iowa's work-places. Statistics are needed to identify problem areas, as a basis for state and national decisionmaking, and to monitor program effectiveness.

The IOSH Act directs the Labor Commissioner to "develop and maintain an effective program of collection, compilation, and analysis of occupational safety and health statistics." The Research and Statistics Division, in cooperation with the U. S. Bureau of Labor Statistics, has the responsibility for collecting data to assist IOSHA and OSHA in setting standards and seeking compliance, and to provide a resource for education, research, and other prevention efforts. To these ends, the Research and Statistics Division has conducted an annual survey of establishment injury and illness experience every year since 1971. The annual survey provides estimates of the numbers and rates of incidence of occupational injuries and illnesses by industry. These indicators are used and recognized as reliable measures of occupational injuries and illnesses. A detailed report of the results of the survey is published annually and is available upon request from the Bureau of Labor.

Detailed information about the causes of work-related disabilities is compiled from work injury reports submitted by Iowa's employers. The Thirty-Fifth General Assembly of Iowa, appreciating the need for more accurate data on accidents, enacted the first work injury reporting law. That act required employers, as of July 4, 1913, to report to the

Labor Commissioner any accidents occurring to an employee, while at work for the employer, when such accidents resulted in death or disability of the employee. This same requirement was reiterated in the Iowa Occupational Safety and Health Act of 1972 and has now, therefore, been in effect continuously for 68 years.

There are three types of information collected, coded and tabulated from employers' first reports of injury by the Research and Statistics Division. The first identifies the employer and permits classification of the case by industry and geographic location. The second lists the employee's age, sex, salary, and occupation. A third type provides an analysis of the injury or illness, answering questions with regard to the employee's activity at the time of injury, listing any objects or substances involved, and providing a description of the accident and injury or illness.

Because such data supplement information gathered in the annual survey and also further define problem areas identified from the survey, the program of compilation and tabulation is known as the Supplementary Data System (SDS). SDS data help direct a broad range of activities to reduce the incidence of occupational injuries and illnesses. In high incidence rate industries, the SDS data identify the major sources of injuries and illnesses and the most frequent types of accidents or exposures that are producing them. The data also identify the occupations of workers most frequently associated with the injuries or illnesses. In addition, the listing of sources of injuries or illnesses may indicate that new or improved safety and health standards are needed. Knowledge about the kinds of accidents is useful in directing IOSHA and OSHA compliance efforts. And, specific information about the part of the body affected may identify the need for personal protective equipment or expose the inadequancy of existing equipment. Furthermore, the data is a basis for developing educational and training materials for IOSHA and OSHA, employers, and employees.

The information in the tables that follow is compiled from work injury reports submitted by employers during the 1979-1980 biennium. The data are summarized at the industry division level. More detailed information about specific industries or injury or illness characteristics is available at the Bureau of Labor.

The Appendix contains a listing of each employee fatality that occurred in Iowa in 1979 and 1980. Included with each is a brief summary of the events leading to the death, the cause of death, the workers age and occupation, and the industry in which he or she was employed. The information is provided to illustrate the continued need for emphasis on job safety and health by both employers and employees.

- Annual average employment for nonfarm industries is based on the establishment survey conducted by the Iowa Department of Job Service in cooperation with the U. S. Department of Labor, Bureau of Labor Statistics. Annual average employment for the agriculture, forestry and fishing division is a composit of estimates from the establishment survey and estimates provided by the U. S. Department of Agriculture.
- 2/ Reported cases which occurred during the year.
- 3/ State and local government; excludes federal government.
- 4/ Reported cases received during the year.

Annual average employment for nonfarm industries is based on the establishment survey conducted by the Iowa Department of Job Service in cooperation with the U. S. Department of Labor, Bureau of Labor Statistics. Annual average employment for the agriculture, forestry and fishing division is a composit of estimates from the establishment survey and estimates provided by the U. S. Department of Agriculture.

Technical Notes

Reporting Requirements

Regulations issued under the Iowa Occupational Safety and Health Act require employers to report certain occupational injuries and occupational illnesses.

In 1979, employers were required to report directly to the Iowa Bureau of Labor all work injuries or illnesses that resulted in two or more lost workdays. State of Iowa Form No. L-1/WC-1 was to be used, and was to be filed with the Bureau of Labor as early as practicable but no later than six working days after receiving information that an occupational injury or illness would result in two or more lost workdays. Copies of the Supplementary Record of Occupational Injuries and Illness were acceptable reports.

Beginning in 1980, employers are required to report in writing to the Iowa Industrial Commissioner any occupational injury or illness which temporarily disables an employee for more than three days or which results in permanent total disability, permanent partial disability, or death. State of Iowa Form No. L-1/WC-1 is to be used, and is to be filed with the Iowa Industrial Commissioner within four days from the event when the injury or illness is alleged by the worker to have been sustained in the course of his or her employment. A report to the Industrial Commissioner is considered to be a report to the Iowa Bureau of Labor. The Iowa Industrial Commissioner forwards all such reports to the Iowa Bureau of Labor.

In addition, employers must report directly to the Iowa Labor Commissioner within 48 hours each accident or health hazard that results in one or more fatalities or hospitalization of five or more employees.

Scope of the Data

The tables for 1979 include all occupational injuries and illnesses which occurred during the year and which involved two or more lost work-days excluding the day of injury, or which resulted in death.

The tables for 1980 include all cases which were received during the year involving death, permanent disability, or more than three calendar days of disability beyond the day of injury.

Industrial Classification

Industrial classification conforms to the definitions included in the <u>Standard Industrial Classification Manual</u> (SIC), 1972 Edition, prepared by the Statistical Policy Division of the Office of Management and Budget.

Coding of Injury or Illness Characteristics

Occupational injuries and illnesses reported to the Iowa Bureau of Labor are coded for their characteristics according to the American National Standards Institute Z16.2 (1962) Method of Recording Basic Facts Relating to the Nature and Occurrence of Work Injuries, as modified by BLS.

Federal-State Cooperation

Work injury and illness data are collected, coded, and tabulated by the Iowa Bureau of Labor in cooperation with the U. S. Department of Labor, Bureau of Labor Statistics as part of the Supplementary Data System. The Supplementary Data System provides a means of securing information about the factors associated with accidents and exposures in the workplace. Such information is useful in helping direct measures to reduce the incidence of occupational injuries and illnesses.

Table 15 MATERIALS AVAILABLE FROM THE RESEARCH AND STATISTICS DIVISION OF THE IOWA BUREAU OF LABOR

The following recordkeeping and reporting forms and aids are available at no charge upon request from the Iowa Bureau of Labor.

The staff of the Research and Statistics Division and of the Education Division have made themselves available for conducting seminars on the recordkeeping and reporting requirements for both employer and employee groups. Requests for such sessions should be made in writing to the Iowa Bureau of Labor, allowing sufficient time for scheduling of the meetings.

WAGE AND WORKPLACE STANDARDS DIVISION

Michael J. Burdette Director

Olga Duran Administrative Assistant II

Michael B. Hassett Arlene Kockler Hearings Compliance Officer I

Secretary I

The Wage and Workplace Standards Division is responsible for administering and enforcing six laws affecting the employment conditions of individuals within the State. Under the provisions of the Iowa Wage Payment Collection Law, Chapter 91A, Code of Iowa, the Division investigates complaints for unpaid wages received from employees, and if a determination is made that the claim is enforceable, the Division attempts to settle the matter with the aggrieved employee and employer. If a settlement is not effected, suit is filed against the employer to effect collection and enforce the provisions of the statute.

Under the provisions of the Iowa Child Labor Law, Chapter 92, Code of Iowa, the Division investigates complaints and reported work-related injuries involving the employment of children under eighteen years of age. The Division also advises and assists child labor work permit issuing officers with the local schools and Job Service of Iowa offices in properly issuing work permits to children within the scope and limitations of the Child Labor Law.

Pursuant to Chapters 94 and 95, Code of Iowa, Iowa's Private Employment Agency Licensing Laws, the Division assists the State Employment Agency License Commission in licensing and regulating private employment agencies operating within the State of Iowa. The Division insures that each agency complies with the statutes and administrative rules, and investigates and resolves complaints from affected employees and employers against private employment agencies.

The Division is also responsible for inspecting temporary labor camps located within the State for compliance with the regulations adopted under the Iowa Occupational Safety and Health Act, Chapter 88, Code of Iowa. Each camp is inspected to insure that occupants are receiving adequate living and sanitary facilities.

Under Section 327F.37, <u>Code of Iowa</u>, the Division inspects the temporary living and sanitary facilities provided by railroads for their employees who must travel and work in the State.

No. Date Industry

Occupation

Age Cause of Death

Truck Driver

The employee was standing beside his disabled truck well off the traveled portion of the highway when he was struck by a passing car. He died of massive head and internal injuries.

- The employee fell 35 feet to the ground as he was descending on a ladder from a billboard he was helping to erect. He had been two feet from a 7,200 volt power line at the point where he fell. An autopsy later indicated that he had been electrocuted.
- 28. 4-10-79 General Building Contractor Superintendent 46 Heart Attack

 The employee was walking from his vehicle to the building when he suffered a heart attack.
- 29. 4-11-79 Wholesale Trade-Durables Warehouse Worker 18 Crushed The employee died of neck injuries when the forklift he was operating overturned on him as he turned a corner.
- 30. 4-14-79 Eating & Drinking Places Bartender & Hostess 30 Assault

 The employee died of head injuries after being beaten during a robbery.
- 31. 4-16-79 Wholesale Trade-Nondurables Warehouseperson 18 Crushed The employee died of crushing injuries after a forklift overturned on him when he turned it too sharply.
- 32. 4-17-79 Local Government Town Electrician 21 Electrocution

 The employee was hanging a transformer using a wrench to remove a primary wire when he came in contact with a "hot" wire.

No. Date Industry Occupation Age Cause of Death

33. 4-23-79 Heavy Construction Contractor Crew Leader 25 Fall

The employee fell 200 feet to his death as he was removing a steel member from a microwave tower. Apparently a loosened nut let go allowing the steel member to pivot away from the tower. The employee had the safety lanyard wrapped around this member and the lanyard slipped off the end allowing him to fall.

- 34. 4-25-79 Wholesale Trade-Nondurables Truck Driver 71 Vehicle Accident
 The employee failed to make a curve as he was driving his truck and drove into a ditch.
- 35. 4-25-79 General Building Contractor Light Oper.-Iron 29 Fall

 The employee died of massive head injuries when he fell 35 feet to a concrete floor below. The employee had been working on a catwalk and jumped 4 feet to the roof below. The roof gave way allowing him to fall to the concrete floor.
- 36. 5-05-79 Heavy Construction Contractor Pipefitter Foreman 30 Fall

 The employee was attempting to board an overhead crane when he became trapped between the crane cab railing and the stationary platform railing as the crane moved forward. The crane moved away and the employee fell 17 feet to the concrete floor below incurring head injuries. The accident occurred on 4-16-79 and the employee died on 5-5-79.
- 37. 5-09-79 Special Trade Contractor Apprentice Lineman 29 Electrocution

 The employee was electrocuted when the boom of the digger truck he was operating came in contact with a 7.6 KV line. He had been working with a crew leaning existing poles out of the way in order to dig pole holes for a new power line.
- 38. 5-12-79 Trucking & Warehousing Truck Driver 33 Vehicle Accident
 The employee died of burns suffered when his semi-truck collided head-on with
 a pick-up truck.
- 39. 5-14-79 Machinery Exc. Electrical Production Worker 21 Struck By

 The employee was aligning a punch and die on a punch press. Apparently the
 die was misaligned and when the press was activated a half-inch piece of
 steel broke off and struck the employee in the neck severing a main artery.

No. Date Industry Occupation Age Cause of Death Nonmetallic Metals, Exc. Fuel 40. 5-21-79 Truck Driver 19 Suffocation The employee was operating an endloader when the brakes failed and the endloader rolled down a 150 foot embankment. The employee jumped from the vehicle and was buried by a rockslide. 5-23-79 Special Trade Contractor 41. Sheet Metal Worker 24 Fall. The employee was working with a crew of men cutting a hole in roof decking to install a new ventilation system. He attempted to kick the metal out and fell through the hole 65 feet to the floor below.

- 42. 5-27-79 Miscellaneous Services Architect 40 Vehicle Accident
 The employee was involved in a single car accident as he was returning from an open house.
- 43. 5-31-79 Heavy Construction Contractor Cat Operator 46 Crushed

 The employee was changing the fuel filter on a bulldozer when the loader fell, pinning his head between the hydraulic arm and the bulldozer.
- 44. 6-07-79 Wholesale Trade-Nondurables Salesman 66 Fall

 The employee fell off a loading dock and struck his head. He was injured on 4-26-79 and died on 6-7-79.
- 45. 6-11-79 Heavy Construction Contractor Laborer 20 Electrocution

 The employee was helping erect a pole building when he came in contact with a power line.
- 46. 6-11-79 Special Trade Contractor App. Plumber 26 Drowned

 The employee was attempting to find an air leak in a pipe connected to a swimming pool filter. His body was found later at the bottom of the pool.
- 47. 6-12-79 General Building Contractor Carpenter 68 Heart Attack
 The employee was sitting down resting when he suffered a heart attack.

 55. 7-11-79 General Building Contractor Laborer 18 Electrocution

 The employee was using an impact wrench to tighten bolts on a steel bin when he was electrocuted.
- 56. 7-19-79 Electric, Gas & Sanitary Svcs. Elect. Con. Lineman 56 Electrocution

 The employee was standing on a stepladder tying back conductors to allow room
 for installing a new relay when he came in contact with a 440 volt bus bar.
- 57. 8-10-79 Heavy Construction Contractor Apprentice Carpenter 28 Fall

 The employee was working on a bridge end when he fell down onto the bridge end slope area. He died of a fractured skull. The accident occurred on 8-8-79 and the employee died on 8-10-79.
- 58. 8-15-79 Machinery Exc. Electrical Plant Manager 45 Crushed

 The employee was directing a crane which was moving a 5-ton sheet metal brake into the basement of the building. The brake tipped pinning the employee against the wall. The employee died of internal injuries.
- 59. 8-20-79 Trucking & Warehousing Truck Driver 34 Vehicle Accident
 The employee was killed when his vehicle went into a ditch and overturned.
- 60. 8-21-79 Auto Repair Svcs. & Garages Truck Driver 56 Vehicle Accident
 The employee was driving a truck which swerved into the median, struck a dirt
 bank and overturned.
- 61. 8-23-79 Local Government Asst. Head Custodian 56 Heart Attack

 The employee was pushing a two wheel hand truck loaded with boxes of school books when he suffered a heart attack. The heart attack occurred on 8-20-79 and he died on 8-23-79.
- 62. 8-24-79 Amusement & Recreation Svcs. Rodeo Clown 21 Vehicle Accident
 The employee was involved in a vehicle accident while driving a company truck.

 71. 9-11-79 Wholesale Trade-Nondurables Feed Salesman 41 Vehicle Accident

 The employee died of a broken neck suffered in a vehicle accident.
- 72. 9-12-79 Heavy Construction Contractor Salesman 21 Vehicle Accident
 The employee was killed when his car struck a truck broadside at an intersection.
- 73. 9-13-79 Heavy Construction Contractor Scraper Operator 47 Heart Attack
 The employee was running a scraper when he suffered a heart attack.
- 74. 9-19-79 Heavy Construction Contractor Equipment Operator 21 Crushed

 The employee was operating a bulldozer which went over the edge of a stockpile
 and fell 18 feet to the ground. The employee was crushed when the machine
 rolled over on him.
- 75. 9-21-79 General Building Contractor Truck Driver 27 Vehicle Accident
 The employee died of head injuries suffered when his vehicle was involved in a
 collision with another vehicle.
- 76. 9-25-79 Auto Dealers & Svc. Stations NA 23 Struck By

 The employee died of internal injuries after being struck in the abdomen by
 the rim of a farm tire. The tire had blown out while he was mounting it.
- 77. 9-26-79 Social Services Sheltered Wrkshp. Emp. 50 Strangulation

 The employee was eating a roll between work assignments when the roll became lodged in her throat. First aid efforts failed to revive her.
- 78. 9-26-79 Auto Dealers & Svc. Stations NA 20 Burns

 Three employees were scrubbing the floor with gasoline when the gasoline ignited.

 One employee died in the subsequent fire and the two others were severely burned.

No.	Date Industry Occupation Age Cause of Death
79.	9-30-79 Local Government Policeman 33 Vehicle Accident
	The employee's patrol car was struck head-on by an automobile that was drag racing.
80.	10-02-79 Ag. Production - Crops Farm Hand 60 Caught In
	The employee was walking along a combine header when he slipped and fell into the machine's auger. He died of multiple injuries.
81.	10-06-79 Stone, Clay & Glass Prod. Laborer 28 Fall
	The employee was in an endloader replacing a pin in a dust chamber room. The bucket moved due to a malfunction of the neutral switch and the employee fell 28 feet to the concrete floor. The accident occurred on 9-28-79 and the employee died of internal injuries on 10-6-79.
82.	10-06-79 Primary Metal Industries Maintenance Spvr. 59 Caught In
	The employee was inside a sand muller replacing a plow blade when the operator turned the machine on. The safety switch failed to operate and the employee was caught by the big wheels that do the mixing. He died of crushing injuries.
83.	10-07-79 Trucking & Warehousing Truck Driver 48 Vehicle Accident
	The employee's truck struck a parked car and caught fire. The employee died of burns.
84.	10-09-79 Local Government Maintenance Worker 62 Heart Attack
	The employee suffered a heart attack while washing windows.
85.	10-12-79 Heavy Construction Contractor Teamster 47 Electrocution
	The employee backed a truck into a power pole guide wire causing the top of the pole to snap off and fall into the street. The employee, knowing that the pole had been deactivated, went to move it out of the street. While moving the pole, the guide wire came in contact with an energized power line and the employee was electrocuted.

110. 12-10-79 Stone, Clay & Glass Prod. Truck Driver 58 Vehicle Accident

The brakes on the employee's truck failed as he tried to stop at an intersection causing the truck to overturn in a ditch. The employee died of head injuries when he was pinned in the cab.

Electrician

36 Fall

The employee was standing on an aluminum ladder while working on a flashing light on the railroad tracks. A rope that had been used to extend the ladder had been left dangling. The rope was caught by a gust of wind and became entangled in the door mirror of a passing vehicle. The ladder and the employee were pulled 18 feet to the ground. The employee died 6 hours later of massive head injuries.

12-11-79 Railroad Transportation

111.

- 112. 12-13-79 Building Materials Truck Driver 29 Vehicle Accident
 The employee was fatally injured when his truck overturned on a county road.
- The employee was replacing the radiator hood on a tractor after a hydraulic hose had been repaired. The hydraulic bucket, which had been held up by a 2x4, fell and crushed him between the tractor and the bucket brace.
- 114. 12-27-79 Printing & Publishing Asst. Circ. Mgr. 63 Vehicle Accident
 The employee was involved in a one-car accident while delivering paper bundles.
