Introduction

Iowa's 13 Area Agencies on Aging are responsible for tracking and reporting on services provided to aging citizens of Iowa funded through Federal and State programs. After collecting detailed information on the services provided, the recipients of the services, the providers of the services, and the associated costs, DEA is responsible for filing an annual State Performance Report (SPR) with the Administration of Aging and an Iowa Senior Living Program Report. There were a total of **99,913** unduplicated clients reported to INAPIS.

This report shows the number of older Iowans and units of service by service category from Title III funding of the Older Americans Act, through the Administration on Aging (AoA), the Iowa Senior Living Trust Fund and limited state general fund dollars.

DEA hopes that this document and the information contained within can be a useful tool for making informed planning decisions. The information provided in this report is the result of hard work and dedication from the Iowa Aging Network who work as a team with the Iowa Department of Elder Affairs toward it's mission: "To provide advocacy, educational, and prevention services to older Iowans so they can find Iowa a healthy, safe, productive, and enjoyable place to live and work.
