

November 30, 2001

The Honorable Thomas J. Vilsack Governor, State of Iowa State Capitol Des Moines, Iowa

Governor Vilsack:

I am once again pleased to submit the Annual Report of the Iowa Department of Revenue and Finance to you, the General Assembly and the taxpayers of Iowa. This report details the department's activities and accomplishments while administering Iowa's tax laws and Iowa's financial management operations during the fiscal year ended June 30, 2001. Although this summary includes a brief discussion of the Iowa Lottery and its fundamental aims, a separate report prepared by the Lottery Division provides comprehensive information on that organization's fiscal activities.

The Department of Revenue and Finance continues to work toward the realization of many varied goals. The most important of these goals are to encourage voluntary compliance through continued taxpayer education and assistance; to enhance revenue collections from all sources; to promote and improve the financial management of state government; to increase the productivity of all operational phases; and to facilitate the professional growth of a dedicated staff.

As the director of the department, I remain committed to the equitable administration of Iowa's tax laws and the efficient collection of state tax revenues.

Sincerely,

G. D. Bair, Director

Iowa Department of Revenue and Finance

10-Year Comparison

FY 01 Property Tax Levied By Type of Taxing Authority

Local Government Services

FY 01 Assistance Programs

PROGRAM FY 01 Payments	DESCRIPTION	ELIGIBILITY	FILINGREQUIREMENTS
Homestead Credit \$114,648,949.86	Originally adopted to encourage home ownership through property tax relief. The current credit is equal to the actual tax levy on the first \$4,850 of actual value.	Must own and occupy the property as a homestead on July 1 of each year, declare residency in Iowa for income tax purposes and occupy the property for at least six months each year. Persons in the military or nursing homes who do not occupy the home are also eligible.	Claim must be filed on or before July 1. Claim is allowed for successive years without further filing as long as eligible.
Disabled and Senior Citizens Property Tax Credit/Rent Reimbursement \$9,794,916.81	Incorporated into the Homestead Tax Law to provide property tax or rent relief to elderly homeowners and homeowners with disabilities.	Must be 65 or older or totally disabled, and have household income of less than \$16,863.	A property owner must file a claim with the county treasurer by June 1 preceding the fiscal year in which the property taxes are due. Renters must file with the Department of Revenue and Finance by June 1 to claim reimbursement for rent paid in the prior calendar year. The director or county treasurer may grant extensions of time to file.
Mobile Home Reduced Tax Rate \$107,210.85	Enacted as a supplement to the Disabled and Senior Citizens Property Tax Credit. The objective is to provide mobile home owners with equivalent aid.	Must be an Iowa resident, 23 or older. Household income must be less than \$16,683.	On or before June 1 of each year, each mobile home owner eligible for a reduced tax rate must file a claim with the county treasurer. The county treasurer or the director may grant an extension of time to file.
Special Assessment Credit \$48,449.62	Established in conjunction with the Disabled and Senior Citizens Property Tax Credit. The credit gives 100 percent assistance to qualified homeowners who are required to pay special	Requirements parallel those for the disabled and senior citizens property tax credit. Household income cannot exceed \$8,687.	The claimant must file a claim with the county treasurer by September 30 of each year.

Integrated Revenue Information System (IRIS)

Report of FY 2001 Activity

The department's efforts to improve the service provided to both our internal and external customers were the cornerstone of the FY 2001 automation efforts. The key to many of these efforts was the recognition that regardless of the form in which the service was delivered, the creation and support of a stable and secure infrastructure was a requirement. Within this context the efforts continued to include additional tax systems within the agency's Integrated Revenue Information System. Additionally, by partnering with the state's Information Technology Department, the agency was able to achieve efficiencies in operations and support of necessary infrastructure while introducing several new electronic services.

E-Service Delivery – Prior to this fiscal year, the department invested time and effort in strategic planning of the agency's interactive Web applications. Having achieved great success with information distribution efforts (such as the department's home page and Iowa Tax Research Library) and the State Electronic Income Tax Return Filing program, the agency chose to begin transactional processing for other taxes via the Internet. As a result, the agency now offers customers with the capability to:

- file income tax via the Internet and telephone
- register for tax permits
- request electronic funds transfers to satisfy payment obligations
- verify sales tax permits issued to other taxpayers
- review history of tax payments
- order bulk shipments of tax forms

Nearly 50,000 transactions were completed by department customers in the last six months of the fiscal year as these applications were implemented. In addition, the use of the federal/state electronic filing program increased by 24 percent. As a result, one-third of the income tax returns are filed electronically. This compares to less than 15 percent just 3 years ago.

Business Tax Redesign – Another large step toward having all major tax transaction components in IRIS was nearly completed, as Business Tax Redesign development moved forward during the last eight months of the fiscal year. Business taxes include sales tax, retailers use tax, consumers use tax, hotel/motel, auto rental, and both regular and school infrastructure local option taxes. Detailed design for these taxes began in November 2000, with all design aspects completed by the end of the fiscal year. Most development was completed during the fiscal year, with a timely completion date of October 2001. This application will bring close to another million transactions per year into IRIS.

Tax Gap – The department continued its partnership with previously selected vendors to improve compliance with the state's tax laws. This effort, operating under the program name of the Tax Gap Project, has resulted in the creation of a comprehensive set of data, which is now available in an information warehouse. During the past year, the agency and its partners have developed numerous programs to identify potential leads and to assess individuals and businesses for the liability found to be due. These efforts include the development of numerous program sets that can be re-used in the future to generate new leads once additional data has been provided. In addition, design and most programming was completed of interfaces required between the Audit Component being created by our partners and the department's Integrated Revenue Information System. With additional programming efforts to be completed during fiscal 2002, it is anticipated that the development of nearly the entire Audit Component will be completed

Collection Support – The department's emphasis on e-services continued in the collection area with steps taken to allow taxpayers to pay past-due debt with credit cards or to have payments automatically debited from their bank accounts through an electronic funds transfer (EFT) process. Collection efforts were also enhanced through improvements to the department's accounts receivable and collections systems. For example, additional billing and tracking functionality was added to these systems. Improvements were made in the process used to identify delinquent taxpayers requiring bonding in order to ensure uniform criteria is applied to all delinquent taxpayers. Other enhancements and process changes were made to provide the customer with accurate billings and to ensure the effectiveness of the department as a principal source of debt collection within Iowa state government.

Compliance Report

FY 00/01

In an effort to improve compliance on the part of taxpayers, the department has continued to stress technology and accessibility to information by the taxpayers of the State of Iowa, so that lack of knowledge by taxpayers is not a deterrent to compliance.

Education, 24-hour access, available information and improved systems for detection of non-compliance has either been accomplished or is in the process of implementation. The department continues to develop and provide self-help options to taxpayers, so those who truly need to discuss their tax issues with a department employee will have better access to our employees.

From an education/taxpayer service perspective, personnel responded to 155,000 phone calls; and 618,334 visits were made to the agency's Web site, which is an increase of almost 400,000 from the previous year. Almost 9,000 people attended education presentations made by agency staff. In addition, staff responded to 7,700 e-mails. More and more taxpayers are using the agency's Web site, which is available on a 24/7 basis.

Four hundred seventy-five thousand tax returns were received electronically. The impact can be seen in a reduction in forms orders, refund calls and calls for error resolution assistance.

Agency compliance programs range from discovering non-filers for individual and corporate income tax to auditing large multi-state corporations doing business in Iowa for corporate income and sales and use taxes.

These programs generated a total of \$61.4 million in collections and refund reductions. Of this, office examination programs generated \$34.0 million in collections. In-state field auditing of Iowa businesses generated \$10.8 million in collections. Out-of-state field auditing of multi-state businesses generated \$4.3 million in collections. The balance is a reduction in refunds claimed as a result of an office exam or field audit.

In addition, the agency has implemented a data warehousing system to enhance its capabilities of detecting non-compliance. This system generated over \$4 million in additional revenue in its first year

Other non-compliance programs exist for delinquent accounts, business tax non-filers, special events such as fairs, carnivals, flea markets and drug tax enforcement. These activities generated \$36.3 million in FY 01.

Individual Income Tax Abatements

Calendar 2000

The director of the Department of Revenue and Finance is provided with the statutory authority "to abate any portion of tax, interest or penalties which he determines are excessive in amount, or erroneously or illegally assessed." Abatements apply to those cases in which the initial protest occurs after the 60-day appeal period has expired and in which the taxpayer produces records substantiating the claim to reduced tax liability.

The table below summarizes the individual income tax abatements allowed in calendar 2000:

1,602	\$2,158,035.25	\$279,313.56	\$886,286.54	\$3,323,635.35
Number of Returns	TAX	FEES and PENALTY	INTEREST	TOTAL

HISTORY OF IOWA TAX RATES

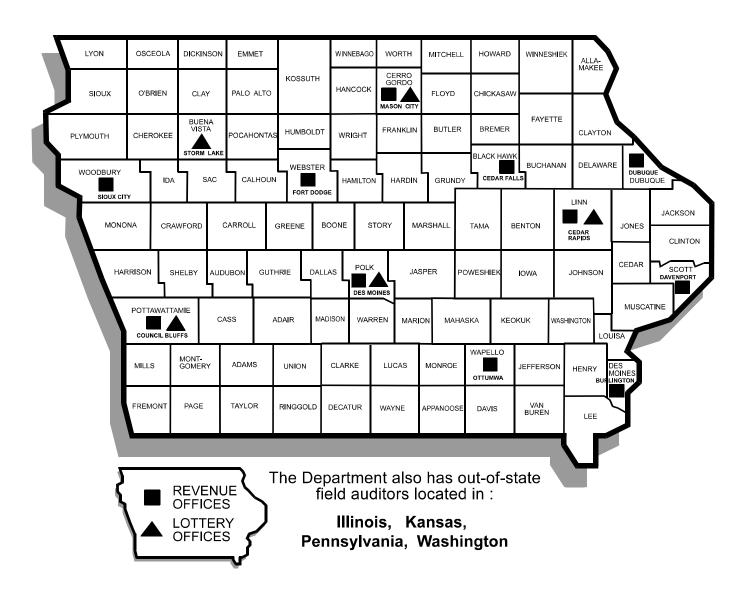

The first major state tax in Iowa was created in 1921 when the state passed a 2ϕ per package tax on cigarettes. In 1934 the sales and income taxes were created as property tax relief measures. Since that time several significant changes have occurred, both in the tax base and in the tax rates of Iowa's major revenue sources.

While certain changes in a particular tax base may be of equal or greater importance than changes in the tax rate, the history of the key developments in a particular tax may often be identified through an examination of tax rate changes. Additional information regarding these changes may be obtained by contacting the Tax Research and Program Analysis Section of the Director's Office.
