

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Fiscal Year Ended June 30, 2003

GOVERNOR: Thomas J. Vilsack

PREPARED BY:

The Iowa Department of Administrative Services-State Accounting Enterprise

About the Cover: by Brian Bemisdarfer

"Judicial Building"

The newest building for Iowa government is the Judicial Building. This building on the capital grounds is a showcase of polished brass and exotic stone interior adorned with allegorical murals and lavish landscaping. The building was dedicated May of 2003. The building provides interior workspace to promote increased performance, efficiency, comfort and overall quality of life.

I N T R O D U C T O R Y S E C T I O N

Mollie K. Anderson, Director

December 12, 2003

TO THE CITIZENS, GOVERNOR AND MEMBERS OF THE IOWA GENERAL ASSEMBLY

In accordance with Iowa Code Section 421.31(5), we are pleased to submit the Comprehensive Annual Financial Report (CAFR) for the State of Iowa for the fiscal year ended June 30, 2003.

The report is presented in three sections as follows:

- The **Introductory Section** includes this transmittal letter, the Government Finance Officers Association (GFOA) Certificate of Achievement for the fiscal year 2002 CAFR, an organizational chart of State government, and a list of principal State officials.
- The **Financial Section** contains the independent auditor's report on the Basic Financial Statements, Management's Discussion and Analysis (MD&A), the Basic Financial Statements, and Notes to the Basic Financial Statements. The Financial Section also contains Required Supplementary Information (RSI), other than the MD&A, and supplementary information in the form of combining financial statements and schedules. This letter is intended to be read in conjunction with the MD&A.
- The **Statistical Section** highlights selected financial and demographic information, generally presented on a multi-year basis.

The Department of Administrative Services is responsible for both the accuracy of the presented data, and the completeness and fairness of the presentation. We believe the information presented is accurate in all material respects and the necessary disclosures have been made which enable the reader to obtain an understanding of the State's financial activity.

This report has been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for governments as promulgated by the Governmental Accounting Standards Board (GASB).

As a part of the statewide accounting system upgrade during fiscal year 2000, the implementation team performed a comprehensive review of the adequacy of internal controls and budgetary controls of the system. The team determined that internal controls continue to be in place to provide reasonable, but not absolute, assurance that assets are safeguarded against unauthorized use or disposition, and that financial records from all appropriate sources are reliable for preparing financial statements and maintaining accountability. The concept of reasonable assurance recognizes the cost of internal controls should not exceed the benefits likely to be derived from their use. To monitor the adequacy of internal controls, the Auditor of State reviews internal control procedures as an integral part of departmental audits.

The Auditor of State is required by Chapter 11 of the Code of Iowa to audit annually all departments of the State. The accompanying basic financial statements of the State of Iowa have been audited by the Auditor of State in accordance with U.S. generally accepted auditing standards, Chapter 11 of the Code of Iowa, and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. His report appears elsewhere herein.

In addition, the Auditor of State conducts a single audit under the requirements set forth in the Single Audit Act of 1984, the Single Audit Amendments of 1996, and OMB Circular A-133, <u>Audits of States, Local Governments and Non-Profit Organizations</u>. This report is issued separately.

PROFILE OF THE GOVERNMENT

All activities that would generally be considered part of the State of Iowa are included in this report. These activities provide a range of services including education, health and human services, transportation, agriculture and natural resources, law enforcement, public safety, economic development, legislative, judicial, and administrative services.

This report includes all of the fund types, departments and agencies of the State, as well as boards, commissions, authorities, and universities for which the State's executive, legislative, and judicial branches are financially accountable. The criterion considered in establishing financial accountability, as set forth by the GASB include: appointing a voting majority of the organization's governing body, and either (1) the ability to impose its will on the organization or (2) the potential for the organization to provide specific financial benefits to, or impose financial burdens on the State. It also includes component units where the nature and significance of their relationship with the State are such that their exclusion would cause the financial statements to be misleading or incomplete. The reader is directed to Note 1.B in the Notes to the Financial Statements for a more complete description of the factors used to define the reporting entity.

State Budget and Budgetary Controls. The State's budget is prepared by the Governor on an annual basis and is required to be submitted along with proposed appropriation bills to the General Assembly by the first of February prior to the new fiscal year. When both houses of the General Assembly pass an appropriation bill, the bill is enrolled and sent to the Governor. The Governor may sign it into law or veto it in whole or in part on a line item basis. Funds may be disbursed only after the Department of Management, subject to the review of the Governor, has allotted appropriations, with the exception of standing unlimiteds and certain receipts that the Departments are authorized to expend. Appropriations are allotted for expenditure on a quarterly basis.

Departments may request revisions to quarterly allotments, appropriations transfers, or supplemental appropriations. The Department of Management approves revised allotments within an appropriation, subject to the Governor's review. The Governor and the Department of Management approve all appropriation transfers. The General Assembly and the Governor act on supplemental appropriation bills in a manner similar to original appropriations. General fund supplemental appropriations totaled \$62,337,310 for fiscal year 2003. Appropriations lapse at fiscal year-end and all unencumbered or unobligated balances revert to the state treasury, unless otherwise provided.

Budgetary controls are incorporated into State accounting systems. The annual budget of the State is established through separate appropriations to individual departments for specific purposes, special outlays and/or operating expenditures. Budgetary control is essentially maintained at the departmental level except for certain grant and aid programs where control is maintained at the program level.

The statewide accounting system performs various edits to assure appropriation authorizations are not exceeded. In addition to these centralized controls, each department director is required by statute to maintain expenditures within appropriated limits.

Extensive use is made of on-line tables and reports, updated on a daily basis, to provide detailed and management level reports to State departments, budget authorities, and the State Legislature. Departments also have the ability to extract selected information and prepare customized reports as needed. Detailed monthly reports are prepared to assure expenditures are being executed according to plan, deviations are identified and budget or spending modifications are made on a continuing basis.

ECONOMIC CONDITION AND OUTLOOK

Personal Income. The University of Iowa Institute for Economic Research's latest outlook is for personal income in Iowa to grow by 4.2% in 2003, 4.1% in 2004, and 4.2% in 2005. Even as the economy in Iowa and the nation as a whole struggles with economic recovery, Iowa's personal income is rebounding better than the nation as a whole. In the last two quarters of this fiscal year, Iowa's personal income, not seasonally adjusted, grew at a rate of 3.6% and 4.1% respectively; this was above the nation as a whole, which had personal income growth of 3.2% and 2.8%.

Personal income for calendar year 2002 was also higher in Iowa than in the nation as a whole. Iowa's personal income grew by 4.0%, which was the 12^{th} largest percentage growth among the states. For the nation as a whole, personal income grew by just 2.8%. Iowa's per capita personal income growth was even more impressive, at 3.8%, it was the fourth highest in the nation. Per capita personal income for the nation as a whole grew by 1.2% in 2002.

Improving income in the farm sector was a major contributor to personal income growth in 2002. Farm income within personal income grew by 55.7%. Other sectors registering significant gains were Finance, Insurance and Real Estate (6.3%); Services (4.0%); and Construction (4.0%). By contrast, the Durable Goods Manufacturing sector posted a decline (-2.9%).

Farmland Values. The most recent survey of area bankers indicates that farmland values are rising. The Federal Reserve Bank of Chicago surveys farm bankers in the area four times a year to determine their best estimates of farmland values. In their July 2003 survey, Iowa farmland values had risen 7% compared to the 2002 survey. Gains were registered throughout each region in the State, with the North Central region growing the most (12%), and the South East region showing the smallest increase (2%). In their July 2002 survey, Iowa farmland values had risen 7% compared to the July 2001 survey. The July 2001 survey showed a 2% increase over 2000. The July 2000 survey estimated that Iowa farmland values increased 4% over 1999. The 1999 survey had shown a 3% decline in values compared to 1998.

Employment. Iowa continues to have an average unemployment rate below the rate of the nation as a whole. Throughout most of the decade, Iowa's unemployment rate has been between one and two percentage points below the national average. The U.S. unemployment rate for September 2003 was 6.0%, compared to 5.7% in September 2002. The seasonally adjusted percent unemployed for the State in September 2003 was 4.6%, which was unchanged from the August 2003 rate. The Iowa unemployment rate for September 2002 was 4.2%. In September 2003, Iowa had the thirteenth lowest unemployment rate among the 50 states.

In September 2003, there were 1,547,500 employed Iowans. This compares with the record level of 1,630,500 employed Iowans in September 2002.

Iowa has a greater percentage of labor force employed compared to the nation as a whole and also has a larger percentage of its population actively participating in the labor force. While Iowa's personal income lags that of the nation, its high levels of employment help maintain median household income at a level near the national average. In 2002, Iowa's median household income was \$41,338, slightly below the national average of \$42,400.

Exports. The rise in exporting industries has been an important factor in Iowa economic growth since the 1990's. Growth in exports of industrial machinery, instruments and measurement devices, electronics, specialized transportation equipment, chemicals and pharmaceuticals, and processed food products have helped diversify Iowa's economy. When combined with traditional farm commodities and livestock, total exports from Iowa increased by 22%, 11% and 13% in the years 1995 through 1997. A variety of factors led to declines of 3% and 16% in 1998 and 1999. A general weakness in the economies of the Pacific Rim nations significantly reduced trade opportunities. At the same time, strong harvests worldwide led to an oversupply of agricultural commodities. The strong U.S. dollar also made it more challenging for U.S. products to be competitive in international markets.

Iowa commodity exports had been growing throughout the period from 1999 through the second quarter of 2001; however, the worldwide slowdown led to declines in both the third and fourth quarters of 2001. Exports rebounded in the first and second quarters of 2002 but declined in the final two quarters. Strong growth in the first three quarters of 2003 has pushed exports to record levels.

Iowa's record level of exports has been fueled by large percentage increases in machinery (11.5% growth), electrical machinery (15.2%), cereals (125.5%), milling (530.6%), and organic chemicals (30.2%). Overall, exports are up 8.0% compared to 2002.

Gross State Product. In 2001, Iowa's gross state product was \$90.9 billion, which reflected 1.4% growth over the previous year. The largest shares of the Iowa gross state product were manufacturing (22%), services (18%), and finance, insurance, and real estate (16%). Agriculture accounted for just 4% of Iowa's gross state product. The gross state product is the U.S. Commerce Department's measure of the value of all goods and services produced in the State each year. The nation's gross domestic product (\$10.1 trillion) grew by 2.5% between 2000 and 2001.

MAJOR INITIATIVES AND ISSUES

Grow Iowa Values Fund. During the 2003 session, the Legislature adopted Governor's Vilsack's recommendation that the State make a significant new investment in economic development. The Grow Iowa Values Fund was created to invest \$503 million in five key areas with the goal of creating 50,000 quality, good paying jobs in the next four years. These investments will be made in four key areas: business development and assistance, university research and development, workforce training, and quality of life.

The Legislature appropriated \$59 million in fiscal year 2004 and \$41 million in fiscal year 2005 to the Grow Iowa Values Fund. These were made from the entirety of the State of Iowa's allocation of federal flexible spending grant money appropriated by Congress in June 2003. The Legislature also made contingent appropriations of \$5.0 million in FY 2004, \$23.0 million in FY 2005, and \$75.0 million a year in FY 2006 through FY 2010. These appropriations are contingent on sales and use tax receipts growing by more than 2.0% in each of the respective fiscal years.

To date, the Grow Iowa Values Board has awarded \$20.3 million to four companies to create 2,499 jobs and retain an additional 3,320 jobs. It is estimated that this will, over a ten year period, increase Iowans' income by \$1.4 billion. The largest funded project, involving Wells Fargo Home and Consumer Finance Group, will involve a \$250 million, 900,000 square foot expansion creating 2,000 new jobs and retaining 3,300 existing jobs.

Vision Iowa Fund. To enhance local recreational, cultural, and entertainment opportunities, a Vision Iowa Fund was established. The Fund provides grants or loans to communities to assist with construction of new facilities. To capitalize the fund, on November 1, 2001, the State issued bonds backed by gaming receipts. A total of \$215 million was originally made available for allocation to projects from the sale. The bonds are being repaid from gaming receipts over a twenty year period. To date, 10 projects have received allocations from the bond proceeds totaling \$217.8 million. These projects have leveraged over \$1 billion in other investment in the projects.

Community Attraction and Tourism Development Fund. Iowa's quality of life is augmented by an abundance of natural resources, community attractions, and events. To help advance and sustain those opportunities, a \$12.5 million fund was established during the 1999 legislative session, and the fund was extended for an additional 5 years in the 2000 session. The fund assists local communities in the development and creation of multiple purpose attraction and tourism facilities. To date, 116 projects have received \$40.9 million in funding from the program.

Class Size Reduction and Intervention. During fiscal year 2003, \$30 million was appropriated to local school districts to reduce class sizes in kindergarten through the third grade, with the goal of achieving average class sizes of 17 students per teacher. This flexible initiative also allows school districts to use funding to support other proven methods to improve reading and other basic skills for elementary school students.

These and other educational efforts have allowed Iowa to reverse a decade-long decline in student test scores. Reading proficiency improved at the 4^{th} , 8^{th} , and 11^{th} grade levels, and math proficiency improved at the 4^{th} and 11^{th} grade levels.

Teachers Compensation. During a previous legislative session, a bill was passed and signed by the Governor establishing the Student Achievement and Teacher Quality Program. This multi-year program includes statewide mentoring, a new career path compensation strategy, a pilot variable pay program, redesigned professional development and new Iowa Teaching Standards which begin to define good teaching for purposes of evaluation and professional development. \$40 million was appropriated for Fiscal Year 2002 to start this program. In Fiscal Year 2003, \$16.1 million was appropriated from the General Fund and \$23.9 million from other funds to continue this program.

Local Early Childhood Initiatives. Early learning is critical to success in school, and Iowa's community empowerment initiative allows local governments and service providers a flexible method to tailor local services to meet local needs. Originally funded in fiscal year 1998 at \$5.4 million, the level of funding has increased, and in fiscal year 2003, the funding from the General Fund and other funds totaled \$21.2 million. The additional funding is targeted at children from birth to age 5 and to parent education initiatives.

Tobacco Settlement Funding for Health Initiatives. During a previous legislative session, the Tobacco Settlement Authority (TSA) was established to develop a financial plan based on the payments from the Master Settlement Agreement (MSA) between the states and the major tobacco companies. The TSA developed a financial plan in February 2001 to provide for a secure and stable source of revenue for the ongoing appropriations for health care, substance abuse treatment and prevention, tobacco use prevention and control, and other related purposes, made from the payments. In various bills passed during the 2001 legislative session and signed by the Governor, the financial plan was approved. In October 2001, over \$644.2 million in bonds backed by the payments from the MSA were sold to implement the financial plan. This sale allowed the establishment of an "Endowment for Iowa's Health Account" to provide for a source of revenue for the ongoing appropriations.

Clean Water Initiative. To help ensure safe drinking water and clean lakes, rivers and streams, \$3.2 million was appropriated from gaming receipts in fiscal year 2003. The initiative restores and constructs wetlands to reduce nutrient flow into rivers and streams, provides water quality monitoring, and encourages land owners to implement buffer strips.

Accountable Government Act. The Accountable Government Act was passed during a previous legislative session. The Act builds upon previous years' progress to achieve a sound governance system that is accountable to Iowans and taxpayers. The Act represents a new approach to governing using data-based decisions rather than decisions based primarily on anecdotes and politics. The key elements of this comprehensive and integrated system will include:

- Strategic and Operational Planning
- Planning-Budgeting Linkages
- Performance Measures and Audits
- Performance Reporting
- Performance-Based Service Contracts
- Return on Investment

The Act is being implemented over a 5-year period and will be reviewed for effectiveness at that time. To date, work teams have written and distributed an Accountable Government Act guidebook to help cover implementation topics, including enterprise and agency strategic planning, performance planning and performance measures, and service contracting.

During fiscal year 2003, all agencies and departments worked together to create the State's first enterprise strategic plan. This includes leadership agenda goals and each agency and department's strategies to achieve the goals. As part of a redesign of the State budget system, a results-based budgeting component has been developed, and performance measures have been created for all budget items within the new budget system. It is expected that this will allow the budget process to be better driven by goals and performance rather than incremental change in funding levels.

State Government Organization. The Department of Administrative Services ("DAS") became the newest agency in Iowa state government on July 1, 2003, combining the former Departments of Personnel, Information Technology, General Services, and Revenue and Finance's Accounting Bureau (now known as the State Accounting Enterprise). Governor Tom Vilsack defined DAS goals to save money, streamline, improve services to customers, and apply its resources in a more flexible way.

DAS employees share a common priority: To improve services to DAS customers, the state agencies that directly serve the citizens, so that those agencies are, in turn, empowered to provide better service to the citizens of Iowa.

The Director of the DAS is appointed by and serves at the pleasure of the Governor. The functions and responsibilities of the State Accounting Enterprise, a division of DAS, include reviewing claims for expenditures; issuing warrants or electronic fund transfers for payment of claims; accounting for State revenues and expenditures; and preparation of a comprehensive annual financial report.

Venture Capital. During the 2002 legislative session, two bills aiming to provide greater access to venture capital for Iowa-based firms were approved. The "Angel Investor" bill creates a tax credit for investments in qualifying businesses and community-based seed capital funds. This bill allows a tax credit of 20% of the amount of an investment made in the form of cash to purchase equity in a qualifying business or community-based seed capital fund. Tax credits

may be used against personal and corporate income taxes, financial institutions franchise taxes, insurance premium taxes, or the credit union moneys and credits tax. An individual investor can claim up to \$250,000 in a single year (5 individual investments in 5 separate qualifying businesses). The maximum amount of tax credits authorized under the legislation is \$10 million.

The "Iowa Fund of Funds" bill creates the Iowa Capital Investment Board (ICIB), in order to mobilize venture equity capital in Iowa. The Board will determine tax credit eligibility and develop a system for registration and authorization of the tax credits. The bill also creates the Iowa Capital Investment Corporation (ICIC), which will conduct a national solicitation for investment plan proposals from qualified venture capital investment fund allocation managers. The focus will be on businesses that are within Iowa and who are committed to maintaining a physical presence in Iowa. The Iowa Fund of Funds will provide loan guarantees and other related credit enhancements on loans to rural and small business borrowers within the state of Iowa. In fiscal year 2003, the ICIB had received ten applications, with two from funds requesting certification as community-based seed funds and eight applicants seeking to be designated as a qualifying business. At its February 2003 meeting, the ICIB certified 2 funds and 7 businesses, which will result in approximately \$500,000 of tax credits.

FINANCIAL INFORMATION

Cash Management. The cash management function is the responsibility of the State Treasurer. Funds of State agencies, which are temporarily available for investment, are pooled together and invested in certificates of deposit, U.S. Treasury bills and notes, U.S. Government Agency and instrumentality obligations, repurchase agreements, and corporate debt instruments as allowed by law and the Treasurer's investment policy. The three goals of the investment policy, in order of importance, are 1) safety of funds; 2) liquidity; and 3) return. A custodial bank is utilized to safekeep investments and to provide payment and collection services for investment transactions. All investment transactions occur on a payment versus delivery basis. It is the policy of the Treasurer's Office that all deposits under its control are insured or collateralized in accordance with Chapter 12C of the Iowa Code.

Presented below is comparative data for the State's investment pool for the last four fiscal years. Interest Earnings do not include any unrealized gains or losses on investments. The Annual Rates of Return shown are calculated by dividing Interest Earnings by the Pool Average Daily Investment Balance. The amounts below are expressed in thousands:

	FY03	FY02	FY01	FY00
Interest Earnings *	\$38,834	\$74,444	\$88,637	\$87,224
Aveage Daily Investment Balance	\$1,373,979	\$1,500,726	\$1,413,190	\$1,490,267
Annual Rate of Return	2.83%	4.96%	6.27%	5.85%

Debt Administration. The Constitution of the State of Iowa prohibits the State from exceeding a maximum of \$250 thousand in general obligation debt without voter approval. However, State law authorizes the issuance of Tax and Revenue Anticipation Notes (TRANS), provided that the total issuance does not exceed anticipated revenue receipts for the fiscal year and that the total issuance mature during the fiscal year. The State issued and repaid Primary Road Fund Revenue Anticipation Notes of \$99.4 million during fiscal year 2003.

Revenue bonds issued by various authorities of the State totaled \$2,475.2 million outstanding at fiscal year-end. This amount consisted of \$822.3 million of component unit – proprietary funds revenue bonds (housing and higher education), \$640.5 million in revenue bonds issued by the three State universities (for facilities), \$629.0 million in revenue bonds issued by the Tobacco Settlement Authority and \$383.4 million in various bonds issued by the Iowa Finance Authority for the Vision Iowa Program, the School Infrastructure Loan Program, the Underground Storage Tank Program and the Department of Corrections. These bonds are backed by the revenues of the issuing program or authority.

Certificates of Participation (COPS), issued by the State and outstanding at fiscal year-end, amounted to \$50.1 million. COPS represent an ownership interest of the certificate holder in a lease purchase agreement. Other financing arrangements payable, excluding COPS, totaled \$20.0 million at June 30, 2003.

State agencies have also entered into capital leases and installment purchase agreements for various purposes. Total long-term capital leases and installment purchases outstanding on June 30, 2003, was \$107.0 million.

Pension Trust Funds. The latest actuarial valuations of the separately funded and independent pension plans disclose the following information: the Iowa Public Employees Retirement System (IPERS) has an Unfunded Actuarial Accrued Liability (UAAL) of \$1,866.9 million which represents a funding ratio of 89.62%; the Peace Officers' Accident and Disability System (PORS) has an UAAL of \$59.7 million which represents a funded ratio of 80.51%; and the Judicial Retirement System (JRS) has a UAAL of \$23.5 million which represents a funded ratio of 74.84%. Schedules of Funding Progress for PORS and JRS are presented in the Required Supplemental Information Section. The funding policies of the Pension Trust funds are discussed in detail in the Notes to the Financial Statements (NOTE 18 - PENSION PLANS).

Risk Management. It is the policy of the State not to purchase commercial insurance, with the exception of limited third-party coverage for specific potential losses, for the risks of losses to which it is exposed. Instead, the State's management believes that it is more economical to manage its risks internally and set aside assets for claim settlement in its internal service funds or to pay claims from the General Fund. The State is self-insured for risks related to property and casualty, workers' compensation, and general liability. For further information refer to the Notes to the Financial Statements (NOTE 22 – RISK MANAGEMENT).

OTHER INFORMATION

Certificate of Achievement – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a "Certificate of Achievement for Excellence in Financial Reporting" to the State of Iowa for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such reports must satisfy both U.S. generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. This is the tenth consecutive year the State of Iowa has received this award. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to the GFOA. We are committed to continue this effort, and we intend to maintain a highly qualified and professional staff to make this certification possible.

Acknowledgment. The preparation of this report on a timely basis requires the collective efforts of numerous finance personnel throughout the State and is made possible only with the cooperation and support of the Executive, Legislative, and Judicial branch agencies, universities, and component units of the State.

The report could not have been accomplished without the professionalism and dedication of the staff in the Department of Management, the State Accounting Enterprise within Administrative Services, the Auditor of State's Office, and the financial and management personnel throughout State government.

This report, issued for the fifteenth consecutive year, continues our commitment to the citizens of the State of Iowa, the Governor, the Legislature, and the financial community, to maintain our financial statements in conformance with the highest standards of financial accountability.

Respectfully submitted,

Mollie K. Anderson, Director Department of Administrative Services Cynthia P. Eisenhauer, Director Department of Management

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of Iowa

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2002

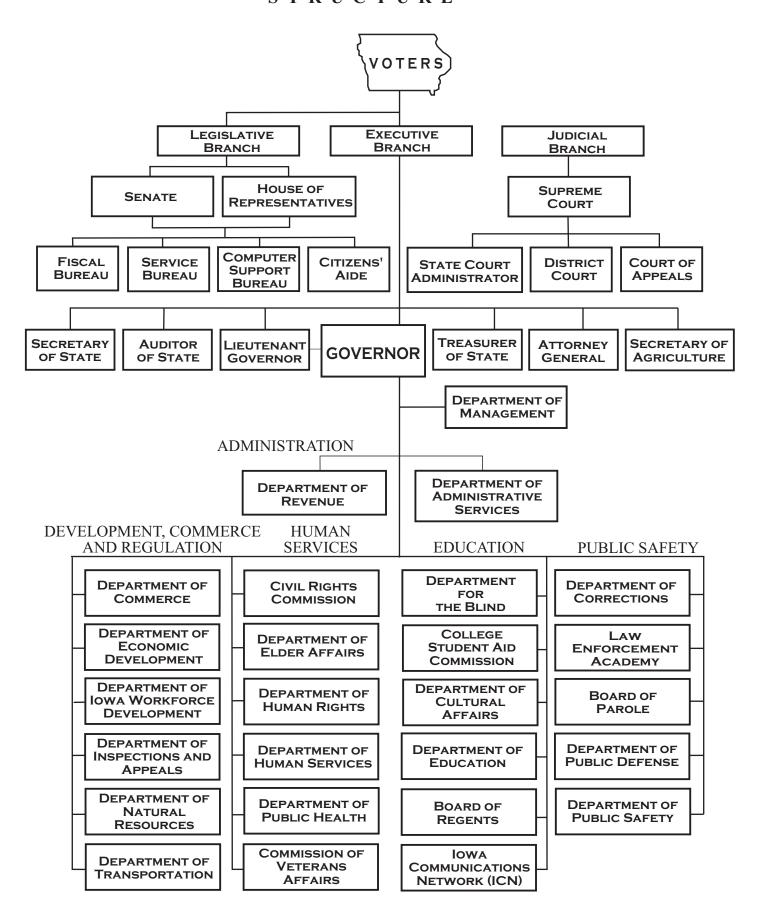

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Independent Auditor's Report

To the Governor and Members of the General Assembly:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Iowa as of and for the year ended June 30, 2003, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Tobacco Settlement Authority, a major fund in the business-type activities. We also did not audit the financial statements of certain discretely presented component units, which statements reflect 96% of assets and 89% of revenues of the discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion insofar as it relates to the amounts included for the Tobacco Settlement Authority and these discretely presented component units is based on the reports of the other auditors.

We conducted our audit in accordance with U.S. generally accepted auditing standards, Chapter 11 of the Code of Iowa, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Iowa Public Television Foundation and the Iowa Finance Authority, component units of the State of Iowa, were not audited in accordance with Government Auditing Standards. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Iowa as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

For the year ended June 30, 2003, appropriations of \$29,294,004 were made from the Rebuild Iowa Infrastructure Fund for items which are inconsistent with the fund's legislatively established purpose that it be used for public vertical infrastructure-related expenditures. These items included, but were not limited to, natural resources and conservation programs, support of various technology programs and routine maintenance of state buildings. Expenditures for these items during the year ended June 30, 2003 totaled \$29,228,867 of which \$594,636 was funded from previous years' appropriations from the Rebuild Iowa Infrastructure Fund. These items have been reported as expenditures in the General Fund in the basic financial statements.

Management's Discussion and Analysis, Budgetary Comparison Information and Schedules of Funding Progress on pages 4 through 12 and 68 through 76 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Iowa's basic financial statements. The combining and individual nonmajor fund financial statements, supplementary information and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and supplementary information have been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with <u>Government Auditing Standards</u>, our report on the State of Iowa's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants will be issued under separate cover in the Single Audit Report.

DAVID A. VAUDT, CPA Auditor of State WARREN G. JENKINS, CPA Chief Deputy Auditor of State

December 12, 2003

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis of the State of Iowa's Comprehensive Annual Financial Report (CAFR) presents a discussion and analysis of the State's financial performance during the fiscal year that ended on June 30, 2003. Readers are encouraged to consider this information in conjunction with the letter of transmittal located at the front of the CAFR, and the State's financial statements, which follow this part of the CAFR.

FINANCIAL HIGHLIGHTS - PRIMARY GOVERNMENT

Government-wide Highlights

- The assets of the State of Iowa exceeded its liabilities at the close of fiscal year 2003 by \$9,924.1 million (net assets). Of this amount \$526.6 million (unrestricted net assets) is available to be used to meet the State's ongoing obligations to citizens and creditors.
- The State's total net assets increased by \$262.5 million in the fiscal year ended June 30, 2003. Net assets of governmental activities increased by \$112.1 million or 1.6 percent, while net assets of business-type activities increased by \$150.4 million or 5.5 percent.
- In the State's governmental activities, revenues decreased 0.4 percent to \$9,959.0 million while expenses increased 0.1 percent to \$9,959.4 million.
- In the State's business-type activities, revenues increased 0.8 percent to \$3,460.6 million while expenses increased 1.1 percent to \$3,197.7 million.

Fund Highlights

- The State's governmental funds reported a combined ending fund balance of \$2,139.8 million, a \$155.4 million decrease from the prior year. Of this amount, \$256.7 million represents unreserved fund balance and the remaining \$1,882.7 million is reserved for specific purposes.
- The General Fund total fund balance decreased \$67.6 million to \$1,658.9 million and the unreserved fund balance decreased \$136.0 million to \$180.8 million at June 30, 2003. The Tobacco Tax-Exempt Bond Proceeds Fund, a major special revenue fund, total fund balance decreased \$ 142.5 million to \$326.0 million at June 30, 2003.
- The proprietary funds reported net assets at year-end of \$2,905.2 million, an increase of \$169.7 million.

Long-term Debt

• The State's total long-term debt increased by \$2.4 million to \$1,703.0 million during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Section of the CAFR consists of four parts—management's discussion and analysis (this section), the basic financial statements, required supplementary information, and an optional section that presents other supplementary information.

Basic Financial Statements

The basic financial statements include the government-wide financial statements, the fund financial statements, and the notes to the financial statements.

Government-wide Financial Statements

The government-wide financial statements are intended to provide a broad view of the State's financial activity. These statements are prepared using the accrual basis of accounting and the economic resources measurement focus, in a manner similar to private-sector business.

- The Statement of Net Assets presents all of the State's assets and liabilities, with the difference between the two reported as "net assets." Over time, increases or decreases in the State's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- The Statement of Activities presents information about the change in the State's net assets. This statement is formatted to report direct expenses, program revenues and the net revenue or expense for each of the State's governmental functions and business-type activities. This format identifies the extent to which each function is self-financed or is supported by the general revenues of the State.

The government-wide financial statements of the State are divided into three categories:

- *Governmental activities*—Most services generally associated with State government, such as administration & regulation, education, health & human rights, human services, justice & public defense, economic development, transportation, and agriculture & natural resources, are included in this category.
- *Business-type activities*—State operations such as the Universities, Unemployment Insurance, and the Tobacco Settlement Authority, that charge fees to external customers and function similarly to private business are included here.
- *Component units*—These are operations that are legally separate from the State, but for which the State is financially accountable. The State's discretely presented component units are:
 - Iowa Finance Authority (Business-type)
 - Iowa Higher Education Loan Authority (Business-type)
 - Iowa Agricultural Development Authority (Business-type)
 - Iowa State Fair Authority (Business-type)

Additional information about the State's component units is presented in NOTE 1-B of the Notes to the Financial Statements.

Fund Financial Statements

The fund financial statements provide more detailed information about the State's most significant funds. The State has three kinds of funds:

• Governmental funds—Most of the basic services provided by the State are accounted for in governmental funds. Governmental funds use the modified accrual basis of accounting and the flow of current financial resources measurement focus. Modified accrual accounting is used to show the flow of financial assets of the funds and the balances available for spending at year-end. These statements provide a detailed *short-term* view that assists in determining whether there are adequate financial resources available to meet the current needs of the State. Because this information does not encompass the long-term focus of the government-wide statements, reconciliation schedules accompany the governmental funds statements. The General Fund and the Tobacco Tax-Exempt Bond Proceeds fund are the State's major governmental funds. Nonmajor governmental funds are reported by fund type in the Combining Financial Statements – Non-major funds.

- *Proprietary funds*—Services for which the State charges customers a fee are generally reported in proprietary funds. Proprietary funds use the accrual basis of accounting and, like the government-wide statements, provide both long- and short-term financial information.
 - The State's enterprise funds (one type of proprietary fund) are used to report activities, such
 as universities, that are presented as business-type activities in the government-wide
 statements.
 - The State's internal service funds (the other kind of proprietary fund) are used to account for activities that provide supplies and services for other State programs and activities—such as the Workers' Compensation Fund.
- Fiduciary Funds These funds are used to show assets held by the State as trustee or agent for others outside the State, such as the Iowa Public Employees' Retirement System and the Iowa Educational Savings Plan Trust. Similar to proprietary funds, these funds use the accrual basis of accounting. Because the State can not use these assets to finance its operations, fiduciary funds are not included in the government-wide financial statements discussed above.

Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the State's funds do not currently contain capital assets, although they can							
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid							

Notes to the Financial Statements

The notes provide additional information that is essential to fully understanding the government-wide and fund financial statements. The notes also explain some of the information contained in the financial statements and present more detail than is practical in the financial statements.

Required Supplementary Information

In addition to this Management's Discussion and Analysis, Required Supplementary Information (RSI) includes the Budgetary Comparison Schedule. This schedule presents both the original and final appropriated budget of major funds. The Budgetary Comparison Schedule is accompanied by a budget to GAAP Reconciliation and by Notes to RSI. Schedules of funding progress for the Iowa Judicial Retirement System and the Peace Officers' Retirement, Accident and Disability System are also presented.

Other Supplementary Information

The Other Supplementary Information includes combining financial statements for non-major governmental funds, non-major enterprise funds, internal service funds and fiduciary funds, which are added together and presented in single columns in the basic financial statements.

FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

Net Assets

The State's combined net assets (government and business-type activities) totaled \$9,924.1 million at the end of 2003, compared to \$9,651.3 million at the end of the previous year, as indicated in Table 2.

Table 2 Net Assets (In Millions)													
		Govern Acti	nmen <u>vities</u>			Busine Acti	ess-tv vities			To	otal		Total Percentage
		2003		2002		2003		2002		2003		2002	Change 2002-2003
Current and other assets Capital assets	\$	3,061.8 5,458.8	\$	3,180.1 5,225.1	\$	2,827.5 2,214.0	\$	2,803.0 1,993.9	\$	5,889.3 7,672.8	\$	5,983.1 7,219.0	-1.6% 6.3%

Net of related debt		5,371.0		5,127.8		1,528.9		1,324.4		6,899.9		6,452.2	6.9%
Restricted		1,373.9		1,255.5		1,123.7		1,212.4		2,497.6		2,467.9	1.2%
Unrestricted		282.6		532.1		244.0		199.1		526.6		731.2	-28.0%
Total net assets	\$	7,027.5	\$	6,915.4	\$	2,896.6	\$	2,735.9	\$	9,924.1	\$	9,651.3	2.8%

Net assets of the State's governmental activities increased 1.6 percent to \$7,027.5 million. The largest component (76.4%) of the State's net assets is invested in capital assets (e.g. land, buildings, equipment, infrastructure, and others), net of related outstanding debt that was used to acquire or construct the assets. Restricted net assets is the next largest component (19.6%). These represent resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used. Unrestricted net assets is the remaining portion (4.0%) and may be used at the State's discretion, but often have limitations on use based on State statutes. The \$282.6 million unrestricted net asset balance is a decrease of \$249.5 million (46.9%) from the prior year.

The net assets of business-type activities increased by 5.5 percent to \$2,896.6 million. The State generally can only use these net assets to finance the continuing operations of the universities, unemployment insurance, the Tobacco Settlement Authority, and other business-type activities.

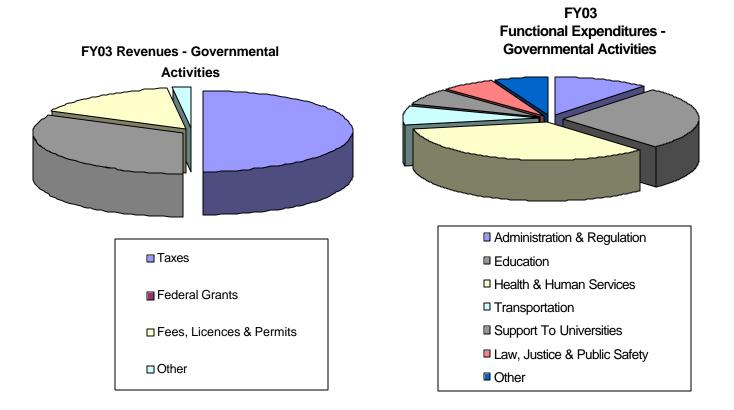

Changes in Net Assets

The State's total net assets increased by \$262.5 million during the year, as indicated in Table 3.

Governmental Activities

Expenses and Program Revenues - Government Activities(In Millions)

The cost of all governmental activities this year was \$9,959.4 million.

- However, the amount that taxpayers paid for these activities through State taxes was \$4,980.2 million. Some of the cost was paid by:
 - Those who directly benefited from the programs (\$1,574.5 million), or
 - Other governments and organizations that subsidized certain programs with operating and capital grants and contributions (\$3,202.5 million).

Business-type Activities

- Universities had \$2,424.3 million in expenses and \$1,841.4 million in program revenues for net expenses for \$582.9 million.
- Unemployment Insurance had \$445.0 million in expense and \$337.6 million in program revenue for net expenses of \$107.4 million.
- Tobacco Settlement Authority had \$36.9 million in expenses and \$49.8 million in program revenues for net revenue of \$12.9 million.

In total, business-type activities had net expense of \$593.8 million with \$744.2 million in net general revenues and transfers for a negative change in net assets of \$150.4 million to end with net assets of \$2,896.6 million.

Capital Grants and Contributions increased \$27.1 million in fiscal year 2003 due primarily to the University funds receiving contributions of \$16.4 million from a major corporation and approximately \$6.0 million from their foundations.

Unemployment Insurance benefit payments in fiscal year 2003 increased \$52.7 million due to a 1.09 % increase in the State's unemployment rate, while the Tobacco Settlement Authority interest expense increased approximately \$12 million, as fiscal year 2003 is the first full year of interest expense.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

The governmental funds reported total fund balances of \$2,139.4 million, with \$256.7 million of unreserved fund balance. Net revenues totaled \$9,961.7 million with expenditures of \$10,231.6 million.

General Fund

The General Fund is the chief operating fund of the State. At the end of the year, the total fund balance was \$1,658.9 million and the unreserved fund balance was \$180.8 million. The unreserved fund balance included \$210.6 million of "rainy day" funds. The net change in fund balance was a decrease of \$67.6 million. Expenditures exceeded revenues by \$264.7 million, while other financing sources exceeded uses by \$197.1 million.

Tobacco Tax-Exempt Bond Proceeds Fund

Fund balance at June 30, 2003, totaled \$326.0 million, which is reserved for specific purposes. Revenues were \$22.5 million, expenditures were \$134.7 million, and net other financing uses of \$30.3 million.

General Fund Budgetary Highlights

Over the course of the year, the State revised the budget several times. These budget amendments fall into three categories:

- Supplemental appropriations \$62,337,310
- Spending reductions \$33,457,196 in appropriation reductions
- Adjustments to standing appropriations \$4,720,667

The originally enacted General Fund budget of \$4,570.1 million was predicated on -2.0% decline in General Fund revenues, as projected by the State's revenue estimating conference (REC) on February 21, 2002. On May 7, 2002, the REC made adjustment to the estimate that reduced General Fund resources by \$218.7 million.

Citing the reduced REC estimates, Governor Vilsack item vetoed \$1,419.2 million from the legislatively enacted budget, noting that after the REC action, the enacted budget would result in a General Fund deficit of more than \$200 million.

On May 28, 2002, the legislature met in special session. Among their actions, they revised the General Fund budget to \$4,502.2 million and required additional reductions of \$33.5 million through a furlough or other efficiency programs for all state agencies and departments. The legislature also made transfers from other funds to the General Fund totaling \$71.0 million. This included \$25.0 million transferred from the Economic Emergency Fund to the General Fund for costs associated with the state school aid formula. The Governor subsequently item vetoed \$108,000 from the legislature's enacted budget.

On September 6, 2002, the REC increased estimated net General Fund receipts by \$119.4 million for FY2003. Adjusted for \$57.1 million in transfers and other revenue adjustments made by the legislature and already considered as new revenues in the budget process, the increase in the projected net revenue was \$62.3 million.

During the 2003 legislative session, Governor Vilsack recommended supplemental General Fund appropriations for the Department of Corrections, Department of Public Safety, Department of Inspections and Appeals, and Department of Human Services totaling \$61.1 million. The legislature subsequently provided supplemental General Fund appropriations of \$61.2 million for these departments. After supplemental appropriations, it was estimated that the State General Fund balance at the end of the fiscal year would total \$1.7 million.

In April 2003, the Legislature also appropriated \$16.6 million from the Cash Reserve Fund to the Environment First Account in the Rebuild Iowa Infrastructure Fund to ensure that agricultural and environmental appropriations were maintained at their enacted level. This was necessary because the Iowa Supreme Court, in June 2002, had ruled that the State's tax structure, which taxed land-based casinos at a higher rate than riverboat casinos, was unconstitutional. The Supreme Court required that the land-based casinos be taxed at the same rate as the riverboat casinos, which reduced gaming receipts by \$39.9 million in fiscal year 2003. While the ruling was overturned by the U.S. Supreme Court and is on remand with the Iowa Supreme Court, to date, the Iowa Supreme Court has not acted on the case.

Through June 30, 2003, the General Fund cash receipts were slightly higher than the REC estimate, by \$12.8 million. However, accrued General Fund revenues and reversions of unspent General Fund appropriations were lower than projected, and standing General Fund appropriations were higher than projected. The largest impact was accrued revenues, which were \$50.7 million under the REC estimate. Reversions of unspent General Fund appropriation were \$7.3 million under the estimate, and standing appropriations exceeded the estimate by \$3.6 million. As a consequence, the shortfall between actual General Fund appropriations and actual General Fund revenues for the fiscal year is \$45.8 million.

As the likelihood of a General Fund revenue shortfall became clear, Governor Vilsack recommended that the Legislature meet in special session and transfer the amount necessary from the Cash Reserve Fund to cover the General Fund shortfall. On September 23, 2003, Auditor of State Vaudt wrote the Governor and Legislative leaders and indicated that a special session was not necessary to deal with this issue. Governor Vilsack has written to Legislative leaders expressing his belief that addressing this issue should be the first priority when the Legislature convenes in regular session in January 2004

CAPITAL ASSET AND DEBT ADMINISTRATION Capital Assets

At June 30, 2003, the State had \$7,672.8 million invested in capital assets, net of accumulated depreciation of \$5,210.0 million. Depreciation charges totaled \$492.9 million in 2003. The details of these assets are presented in Table 4. Additional information about the State's capital assets is presented in NOTE 6 of the financial statements.

Long-term Debt

At year-end the State had \$1,703.0 million in bonds and certificates of participation outstanding, as shown in Table 5. More detailed information about the State's long-term liabilities is presented in NOTE 8 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

While it has been determined that the national economy emerged from the recession in November 2001, its impact on most states, in terms of economic and revenue growth, is still being felt. The State's unemployment rate in September 2003 was 4.6%, compared to 4.2% in September 2002, and 3.2% in September 2001.

With sluggish job growth, Iowa's net General Fund revenue collections have declined in both of the last two fiscal years. This is apparent across the country, as state revenue collections, adjusted for tax law changes, have declined for eight consecutive quarters.

The actual General Fund appropriations for fiscal year 2003 totaled \$4,529.4 million, a reduction of \$85.4 million from the General Fund level of appropriations for the previous fiscal year.

These indicators were taken into account when adopting the General Fund budget for 2004. Amounts available for appropriation in the General Fund budget was \$4,653.2 million. Budget expenditures totaled \$4,560.9 million, an increase of \$31.5 million from the actual 2003 General Fund. The only major new program in the 2004 budget, the Grow Iowa Values Fund, is largely funded in 2004 and 2005 with one-time federal funds. The State has added no major new programs or initiatives to the 2003 budget.

At REC meetings in August and October 2003, the 2004 General Fund net revenue estimate was revised downward by a combined total of \$163.7 million. Immediately after the October REC meeting, Governor Vilsack issued Executive Order Number 31, which initiated a 2.5% across the board reduction in 2004 General Fund appropriations. During the 2003 session, the Legislature had adopted language that exempted certain agencies and departments from across the board budget reductions during 2004 and 2005. As a consequence, the 2.5% across the board reduction decreased General Fund appropriations by a total of \$82.6 million. In December 2003, the REC reduced the 2004 General Fund net revenue estimate by an additional \$14.9 million. Currently, it is projected that the State's budgetary General Fund balance will be \$4.2 million at the close of 2004.

CONTACTING THE STATE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, legislators, customers, investors and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Assets

June 30, 2003 (Expressed in Thousands)

Total Fund Balances-Governmental funds		\$ 2,139	9,379
Amounts reported for governmental activities in the statement of net assets are different because:			
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of capital assets, excluding internal service funds, is \$8,495,284,000 and the accumulated depreciation is (\$3,115,577,000).		5,379	9,707
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.		110),471
Certain revenues are earned but not available and therefore deferred in the funds.		73	3,944
Certain pension trust funds have been funded in excess of the annual required contributions, creating a year-end asset. This asset is not a current available resource and is not reported in the funds.		15	5,205
Deferred issue costs are reported a current expenditures in the funds. However, deferred issue costs are amortized over the life of the bonds and are included as Deferred Charges in the governmental activities in the Statement of Net assets.		1	1,285
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:			
Bonds Payable	(383,355)		
Accrued Interest Payable	(4,178)		
Compensated Absences	(135,346)		
Capital Leases	(4,655)		
Other Financing Arrangements Payable	(6,552)		
Early Retirement Liability	(20,739)		
Gaming Tax Settlement Liability	(102, 366)		
Risk Management Liability	(11,500)		
Tobacco Legal Fee Liability	(2,364)		
Other Long-term Liabilities	(21,486)		
Total Long-term liabilities	_	(692	2,541)
Net assets of governmental activities	=	\$ 7,027	7,450

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances -Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2003 (Expressed in Thousands)

Net change in fund balances-total governmental funds		\$	(155,374
Amounts reported for governmental activities in the statement of activities are different because:			
Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:			
Capital outlay Depreciation expense	\$ 557,137 318,523		
Excess of capital outlay over depreciation expense		•	238,614
In the statement of activities, only the gain on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources.			(1,081
Some capital additions were financed through capital leases, other financing arrangements, and installment purchases. In governmental funds, these financing arrangements are considered a source of funding, but in the statement of net assets, the obligations are reported as liabilities. In the current year, these amounts consist of :			
Capital leases	(257)		
Other financing arrangements payable	(921)		
Total			(1,178
Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. In the current year, these amounts consist of:			
Bond principal retirement	20,775		
Capital lease payments	1,694		
Other financing arrangements payments	806		
Total long-term debt repayment			23,275
Internal service funds are used by management to charge the cost of certain activities to individual funds. The net revenue of the internal service funds is reported with governmental activities.			8,800
Because some revenues will not be collected for several months after the State's fiscal year end, they are not considered available revenues and are deferred in the governmental funds.			2,129
Some items reported in the statement of activities do not require the use of current financial resourses and therefore are not reported as exenditures in the governmental funds. The (increases) decreases in these activities consist of :			
Compensated absences	(7,489)		
Tobacco legal fee liability	18,054		
Early retirement liability	6,401		
Gambling tax settlement liability	(1,366)		
Accrued interest	(150)		
Other	(18,603)		
Total additional expenditures			(3,153
Change in net assets of governmental activities		\$	112,032

PROPRIETARY FUND FINANCIAL STATEMENTS

Major Funds

University Funds are maintained to account for the operations of the State's public institutions of higher education. The State University of Iowa, Iowa State University, and the University of Northern Iowa comprise this group.

Unemployment Benefits Fund receives federal funds and contributions from employers to provide benefits to eligible unemployed workers.

Tobacco Settlement Authority Fund - This fund accounts for bond proceeds securitized by payments due to the State pursuant to the Master Settlement Agreement between the State and the five largest tobacco manufacturers.

Nonmajor Proprietary Funds are presented, by fund type, beginning on page 100.

COMPONENT UNIT FINANCIAL STATEMENTS

Iowa Finance Authority issues bonds to assist in attainment of adequate housing for special needs individuals such as the low to moderate income and the disabled, and to provide limited types of financing to small businesses.

Iowa Higher Education Loan Authority provides for the financing of educational loans for students attending private educational institutions in the state and financing for acquisition, construction, and renovation of educational facilities.

Iowa Agricultural Development Authority undertakes programs which assist beginning farmers in purchasing land, improvements and property, for agricultural purposes and provides financing for agricultural and soil conservation development, and other various agricultural development programs.

Iowa State Fair Authority conducts the annual State Fair and Exposition and other interim events on the Iowa State Fairgrounds.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements of the State of Iowa have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

B. Financial Reporting Entity

For financial reporting purposes, the State of Iowa includes all funds, departments, agencies and universities of the State. The State has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State.

As required by GAAP, these financial statements present the State of Iowa (the primary government) and its component units. The component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State. The individual component unit financial statements can be obtained by contacting: Iowa Department of Administrative Services, State Accounting Enterprise, 3rd Floor, Hoover State Office Bldg., Des Moines, IA 50319.

Blended Component Units

These component units are entities which are legally separate from the State, but are so intertwined with the State that they are, in substance, the same as the State. They are reported as part of the State's primary government and are blended with the appropriate funds.

· Iowa Public Television Foundation (Special Revenue and Permanent funds) serves as a funding medium for Iowa Public Television. It solicits and manages gifts of money or property, for the exclusive purpose of granting gifts of money or property to Iowa Public Television. Iowa Public Television has sole discretion as to the use of the money or property. The State appoints a voting majority of the Foundation's board and has the ability to impose its will on the organization, as it can make personnel decisions regarding the management of the Foundation.

Tobacco Settlement Authority (Enterprise fund) was created to issue bonds to securitize payments due to the State pursuant to the Master Settlement Agreement between the State and the five largest tobacco manufacturers. Authority's board consists of the Treasurer of State. Auditor of State and the Director of the Department of Management. The State has the ability to impose its will on the Authority and its sole purpose is to provide a secure and stable source of revenue from the tobacco settlement for the State.

Component Units

These component units are entities which are legally separate from the State, but are financially accountable to the State, or its relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. The Component Units include the financial data of these entities.

- . Iowa Finance Authority (Proprietary) issues bonds to assist in attainment of adequate housing for special needs individuals such as the low to moderate income and the disabled, and to provide limited types of financing to small businesses. The nine members of the Board of Directors are appointed by the Governor and confirmed by the Senate.
- (Proprietary) provides for the financing of educational loans for students attending private educational institutions in the State and financing for the acquisition, construction, and renovation of educational facilities. The five members of the Board of Directors are appointed by the Governor and confirmed by the Senate. The State has the ability to impose its will upon the Authority.

NOTES TO THE FINANCIAL STATEMENTS

- Iowa Agricultural Development Authority (Proprietary) undertakes programs which assist beginning farmers in purchasing land, improvements and property for agricultural purposes, and provides financing for agricultural and soil conservation development, and other various agricultural development programs. The State appoints a voting majority of the organization and is able to impose its will on the Authority.
- . Iowa State Fair Authority (Proprietary) conducts the annual State Fair and Exposition and other interim events on the Iowa State Fairgrounds. The State must approve any bonds issued by the Authority (October 31 year end).

Related Organizations

These related organizations are excluded from the reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organizations' board members. Financial statements are available from the respective organizations.

- . Iowa Student Loan Liquidity Corporation
- . Iowa Comprehensive Health Association
- . Turkey Marketing Council
- . Iowa Business Development Finance Corporation
- . Community Health Management Information System

C. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The Statement of Net Assets and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The **Statement of Net Assets** presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

When both restricted and unrestricted resources are available for use, generally it is the State's policy to use restricted resources first.

The **Statement of Activities** demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenue.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

D. Financial Statement Presentation

The State reports the following major governmental funds:

The *General Fund* is the State's principal operating fund. It accounts for all financial resources except those accounted for in another fund.

NOTES TO THE FINANCIAL STATEMENTS

Tobacco Tax-Exempt Bond Proceeds Fund accounts for proceeds received from the Tobacco Settlement Authority to provide appropriations for various programs.

The State reports the following major enterprise funds:

The University Funds account for the operations of the State's public institutions of higher education. The State University of Iowa, Iowa State University and the University of Northern Iowa comprise this group.

The Unemployment Benefits Fund receives federal funds and contributions from employers to provide benefits to eligible unemployed workers.

Tobacco Settlement Authority accounts for the bond proceeds securitized by payments due to the State pursuant to the Master Settlement Agreement between the State and the five largest tobacco manufacturers.

In addition, the State reports the following fund types:

Governmental Funds

Special Revenue Funds account for the proceeds of specific revenue sources (other than permanent or capital projects) that are legally restricted to expenditures for a specified purpose.

Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Permanent Funds account for resources that are legally restricted to the extent that only earnings, and not principal may be used for the benefit of the government or its citizenry.

Proprietary Funds

Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private business enterprise – where the intent of the State is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the State has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State, or to other governmental units, on a cost reimbursement basis.

Fiduciary Funds

Pension and Other Employee Benefit Trust Funds account for resources that are required to be held for the members and beneficiaries of the State's defined benefit pension plans and other post employment benefit plans. The pension plans included are the Iowa Public Employees' Retirement System (IPERS), Peace Officers' Retirement, Accident and Disability System, and the Judicial Retirement System.

Private Purpose Trust Funds account for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments.

Agency Funds account for resources held by the State in a purely custodial capacity.

E. Measurement Focus and Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

Governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Most revenues, including taxes, fees, charges for service, refunds and reimbursements, and receipts from other entities, are considered by the State to be available if collected within 60 days of the end of the fiscal year. Revenues that the State earns by incurring obligations are recognized in the same period as the obligations are recognized. Investment earnings are recorded as earned since they are measurable and available.

NOTES TO THE FINANCIAL STATEMENTS

Expenditures are recognized when the related fund liability is incurred. An exception to the general modified accrual expenditure recognition criteria is the principal and interest on general long-term debt which is recognized when due. Income tax refunds are accrued for claims related to tax periods ended by June 30, of the fiscal year, and paid within sixty days.

Proprietary and fiduciary fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Proprietary funds distinguish operating from nonoperating revenues and expenses. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. All other revenues and expenses are reported as nonoperating.

In reporting the financial activity of its proprietary funds, the State applies all applicable GASB as well as pronouncements the following pronouncements issued on or before November 30. 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Lottery Revenues and Prizes

The Lottery uses an on-line instant verification system for the sale and validation of instant tickets. Instant ticket sales are recognized when a retailer settles a pack of tickets. Revenues for pull-tab games are recognized upon the sale of tickets to the retail sales agents. Revenues for Lotto games are recognized after the jackpot drawings are held. Deferred revenue represents lotto tickets sold for future prize drawings.

The prize liabilities for the Lotto games are determined by actual matches and are recognized after the jackpot drawings are held.

F. Cash, Investments, and Securities Lending

Cash in most funds is held in the state treasury and is commingled in State bank accounts and investments. The moneys of most funds are pooled together and invested as an investment pool by the Treasurer of State. However, moneys of some funds may be invested separately from the investment pool where permitted by statute.

Investment earnings of the investment pool are allocated to the individual funds as provided by statute. Income associated with one fund that has been assigned to another fund totaled \$21,857,687 for fiscal year 2003.

The Treasurer's deposits in financial institutions throughout the year and at year end were entirely covered by the Federal Deposit Insurance Corporation, or collateral held by the Treasurer of State's custodial banks in the Treasurer of State's name, or by the bank assessment provisions of Section 12C.23 of the Code of Iowa.

The Treasurer of State may invest in obligations of the United States government, its agencies and instrumentalities; certificates of deposit in Iowa financial institutions; prime bankers acceptances, commercial paper or other short-term corporate debt; perfected repurchase agreements; money market mutual funds organized in trust form; and other investments as permitted by Section 12B.10 of the Code of Iowa.

Investments are valued at fair value in accordance with GASB Statement 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. Fair value is calculated at market price at the close of business on June 30 by independent pricing services utilized by the Treasurer's custodian bank. However, certain cash equivalent investments such as commercial paper, bankers acceptances, certificates of deposit, guaranteed investment contracts, and discount notes issued by government agencies are valued using purchase price. (For Pension plans, See NOTE 18).

Certain State institutions participate in the Iowa Public Agency Investment Trust (IPAIT), a state and local government pooled investment account, created by Iowa Code Chapter 28E. IPAIT is managed by Investors Management Group and is registered with the Securities and Exchange Commission. IPAIT follows established money market mutual fund parameters designed to maintain a \$1 per unit net asset value.

Cash and cash equivalents include currency on hand, demand deposits with banks or other financial institutions, investments readily convertible to known amounts of cash, and investments so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. In the statements of cash flows, investments with an original maturity of three months or less are considered cash equivalents.

NOTES TO THE FINANCIAL STATEMENTS

The Iowa Public Employees Retirement System (IPERS) and the Iowa Peace Officers' Retirement, Accident, and Disability System (PORS) (together the "Systems") participate in a securities lending program with the State's custodian bank. The participation of IPERS is authorized by the Code of Iowa and the participation of PORS is authorized by its Board of Trustees. The custodian bank is responsible for operating the program and is permitted to lend any of the securities it holds in custody for the Systems to broker-dealers and other entities in exchange for collateral. The custodian bank is permitted to accept collateral in the form of cash in U.S. dollars, U.S. government securities, or irrevocable letters of credit. A borrower is required to initially deliver collateral in an amount equal to 102 percent of the market value of any U.S. securities lent and 105 percent of the market value of any non-U.S. securities lent. Borrowers are required to provide additional collateral any time the value of the collateral drops below 100% of the value of the security lent plus accrued interest income. Securities received as collateral cannot be sold or pledged unless the borrower defaults. Securities lent at year-end for cash collateral are presented as unclassified in the schedule of custodial credit risk.

At year-end IPERS had \$496,323 in credit risk exposure to borrowers because the amounts they owed IPERS exceeded the amounts IPERS owed them. Additional collateral was provided the next business day, eliminating this exposure. The contract with the custodian bank requires it to indemnify the System if a borrower fails to return the securities or fails to return all of the income attributable to securities on loan. At year-end PORS had no credit risk exposure. As of June 30, 2003, the Systems had securities on loan, including accrued interest income, with a total value of \$1,439,547,779 against collateral with a total value of \$1,502,071,835.

The majority of securities loans are open loans, i.e. one day maturity, where the rebate rate due the borrower is renegotiated daily. All securities loans can be terminated on demand by either the Systems or the borrower. Cash collateral received from borrowers is invested in a cash collateral investment pool which is managed by the custodian bank in accordance with investment guidelines established by the Systems. The investment guidelines do not require a matching of investment maturities with loan maturities, but do establish minimum levels of liquidity and other investment restrictions designed to minimize the interest rate risk associated with not matching the maturity of the investments with the loans. (See NOTE 2.)

G. Accounts Receivable

Accounts receivable have been established and offset with proper provisions for estimated uncollectible accounts where applicable. Practically all receivables of governmental funds are due from other governmental entities, primarily the federal government, and are considered collectible. Receivables in other funds have arisen in the ordinary course of business.

Taxes receivable represent amounts due to the State at June 30, which will be collected sometime in the future. In the government-wide financial statements, a corresponding amount is recorded as revenue. In the governmental fund financial statements, the portion considered "available" is recorded as revenue; the remainder is recorded as deferred revenue.

H. Inventories

Inventories are valued at cost, which approximates market. The first-in/first-out (FIFO) cost flow method is used for the majority of inventories. Throughout the year costs of inventories are recorded as expenditures when purchased. For financial reporting purposes, expenditures are adjusted at fiscal year end for material inventory amounts to correlate with the consumption method. Inventory asset amounts are not available for budgetary appropriation as they have been charged to expenditures when purchased rather than when used.

Food stamps are recorded as expenditures when disbursed. Amounts on hand at June 30 are reported at face value in the General Fund, offset by a like amount of deferred revenue.

I. Capital Assets

Capital assets are reported in the government-wide financial statements and proprietary fund statements at historical cost. Donated capital assets are reported at their estimated fair market value at the time of acquisition. Capital assets utilized in governmental funds are reported as expenditures when purchased in the governmental fund financial statements. Reportable capital assets are defined by the State as assets above the following thresholds:

Infrastructure	\$1 million
Land, Building and Improvements	\$ 50,000
Equipment (non-Regent institutions)	\$ 5,000
Equipment (Regents)	\$ 2,000

Capital assets are depreciated over their useful lives using the straight-line depreciation method. The government-wide financial statements, proprietary fund statements, and component unit financial statements report depreciation expense. The following useful lives are used:

Infrastructure	10-50 years
Buildings	20-50 years
Improvements Other	
Than Buildings	20-50 years
Equipment	2-20 years

NOTES TO THE FINANCIAL STATEMENTS

J. Long-term Liabilities

In the government-wide and proprietary fund financial statements, long-term debt and long-term liabilities are reported as liabilities. Bond issuance costs are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond discounts and issuance costs for propriety fund types are generally deferred and amortized over the terms of the bonds using the bonds-outstanding method or straight-line method, which approximates the effective interest method.

In governmental fund types, bond discount and issuance costs are recognized in the current period, except for capital appreciation bonds which report discounts similar to proprietary fund types.

Long-term liabilities that are due within one year of the date of the statements are classified as current liabilities.

K. Interfund Activity and Balances

Interfund Activity

As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

Interfund Balances

Interfund receivables and payables have been eliminated from the Statement of Net Assets, except for the residual amounts due between governmental and business-type activities.

L. Encumbrances

The State utilizes encumbrance accounting for budgetary control purposes. Obligations incurred for goods or services that have not been received or rendered, are recorded to reserve that portion of the applicable fund balance. Section 8.33, unnumbered paragraph 2, of the Code of Iowa, states, "No payment of an obligation for goods or services shall be charged to an appropriation subsequent to the last day of the fiscal year for which the appropriation is made unless the goods or services are received on or before the last day of the fiscal year, except that repair projects, purchase of specialized equipment and furnishings, and other contracts for services and capital expenditures for the purchase of land or the erection of buildings or new construction or remodeling, which were committed and in progress prior to the end of the fiscal year are excluded from this

provision" That is, except for the above stated exceptions, the State must have received the goods or services on or before June 30, creating an actual liability, or the encumbrance is cancelled against that fiscal year. If the encumbrances are still valid after June 30, they become expenditures / expenses of the next fiscal year.

M. Budgeting and Budgetary Control

Budgetary comparison schedules and related disclosures are reported as Required Supplementary Information (RSI). As further discussed in the RSI, General Fund expenditures were in excess of revenues resulting in a \$45.8 million deficit. If unresolved by the Governor and or Legislature, this deficit may be a material violation of finance – related legal and contractual provisions.

NOTE 2 - CASH, INVESTMENTS AND SECURITIES LENDING

CASH

Primary Government and Fiduciary

The carrying amount of cash at June 30 is \$1,210,464,357 and the bank balance is \$1,234,237,163. The bank balance at June 30 is insured or collateralized as follows: \$1,016,603,418 is covered by federal depository insurance or by collateral held by the State's agent in the State's name, \$939,200 is covered by collateral held in the pledging bank's trust department in the State's name, and \$216,694,545 is uninsured or uncollateralized.

Component Units

The carrying amount of cash at June 30 is \$30,628,038 and the bank balance is \$30,628,038. The bank balance at June 30 is insured or collateralized by federal depository insurance or by collateral held by the State's agent in the State's name.

INVESTMENTS

Investments at June 30, 2003, are categorized below by credit risk (expressed in thousands). The three types of credit risk are:

Category 1 - Insured or registered securities or securities held by the State or its agent in the State's name.

Category 2 – Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the State's name.

Category 3 – Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the State's name. (This includes the portion of the carrying amount of any repurchase agreement that exceeds the market value of the underlying securities.)

\$52.4 million is due from the General Fund to the Workers Compensation Fund (an Internal Service Fund) to fund the cost of claims incurred, \$13.7 million is due from the Tobacco Tax-Exempt Bond Proceeds Fund to the General Fund per law, for deposit in the community attraction and tourism program. \$2.5 million is due from the Iowa Lottery (an Enterprise Fund) to the General Fund to transfer lottery profits as required by law. Remaining interfund balances resulted from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded, and payment between funds are made.

Not included in the table above are the following interfund advances, which are not expected to be repaid within one year: \$.68 million due from the General Fund and General Services-General Office (an Internal Service Fund) to the Innovation Fund (an Internal Service Fund) for amounts loaned for the purpose of stimulating and encouraging innovation in State government and \$8.1 million due from the General Fund to the Unemployment Benefits Fund (an Enterprise Fund) for amounts loaned for various projects per the Reed Act distribution under Section 903 of the Social Security Act.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 9 - CAPITAL LEASES

The State has entered into agreements to lease various equipment and property. The agreements have interest rates ranging from 2.50% to 14.38% and expire before June 30, 2022.

The State has also entered into a few installment purchase agreements. The agreements have interest rates ranging from 4.75% to 7.20%. Because the amounts involved are not material, and the accounting treatment is similar, such agreements are reported together with capital leases.

Primary Government - Governmental Activities

The following is a schedule by year of the future minimum payments required (expressed in thousands):

Year ending June 30,	Principal	Interest
2004 2005 2006 2007 2008 2009-2013	\$ 1,365 1,038 676 531 539 867	\$ 272 198 143 107 73 139
2014-2018	<u>45</u>	1

Total	<u>\$16,597</u>	<u>\$1,625</u>

NOTES TO THE FINANCIAL STATEMENTS

Certificates of Participation

Primary Government - Governmental Activities

The First, Third, Fifth and Sixth Judicial Districts have sold certificates of participation for land and facilities for \$5,600,000. The certificates of participation represent an ownership interest of the certificate holder in a lease purchase agreement. The certificates mature over periods from 6 to 20 years with interest rates ranging from 3.00% to 4.73%.

In prior years, the Sixth Judicial District Department of Correctional Services defeased certain Certificates of participation by placing the proceeds of the new certificates in an irrevocable trust to provide future debt service payments on the old Certificates of Participation. Accordingly, the trust account assets and the liability for the defeased Certificates of Participation are not included in the State's financial statements. As of June 30, 2003, Certificates of Participation totaling \$570,000 were considered defeased.

The following is a schedule by year of the future minimum payments required (expressed in thousands):

Year ending June 30,	Prin	cipal	In	terest

Bonds Payable

Primary Government - Governmental Activities

Underground Storage Tank

Total Component Units

The Iowa Finance Authority has issued term bonds, serial bonds, and capital appreciation bonds to finance the Underground Storage Tank Financial Responsibility Program. The program provides payment for remediation claims of contamination of ground water sites due to leakage, spill or release of petroleum products by owner/operators. The bonds are payable solely from specific revenues and assets of the Underground Storage Tank Fund.

The obligations do not constitute a debt of the State of Iowa nor of the Iowa Finance Authority and neither is liable for any repayments.

In prior years, the Iowa Finance Authority defeased certain Iowa Underground Storage Tank Revenue Bonds by placing the proceeds of new bonds in an irrevocable trust with an escrow agent to provide for all future debt service payments. As a result, the assets and the liability for those bonds has been removed from the Statement of Net Assets. As of June 30, 2003, bonds totaling \$26,175,000 were considered defeased.

Iowa Department of Corrections

The Iowa Finance Authority has issued term and serial bonds for the purpose of financing the construction or renovation of correctional facilities in The Iowa Department of Corrections the State. administers the State's correctional facilities and authorizes expenditures under the program. The bonds are payable solely from monies deposited in the Iowa Prison Infrastructure Fund maintained by the Treasurer of State, currently required by state law to be the first \$9,500,000 of monies remitted to the Treasurer of State each fiscal year from certain fees and fines collected from the clerks of district court in criminal cases, investment earnings on monies in the Iowa Prison Infrastructure Fund, and from other amounts pledged therefore under the bond indenture. These obligations do not constitute a debt of the State of Iowa, nor of the Iowa Finance Authority, and neither is liable for any repayments.

\$ 822.268

In prior years, the Iowa Finance Authority defeased certain Corrections Bonds by placing the proceeds in an irrevocable trust with an escrow agent to provide for all future debt service payments. As a result, the bonds are considered to be defeased and the asset and liability for those bonds has been removed from the Statement of Net Assets. As of June 30, 2003 bonds totaling \$54,240,000 were considered defeased.

Vision Iowa Fund

The State of Iowa has issued Vision Iowa Special Fund bonds to provide grants or loans to communities to enhance local recreational, cultural and entertainment opportunities.

NOTES TO THE FINANCIAL STATEMENTS

The bonds are secured by certain amounts to be deposited in the Vision Iowa Fund, including a Standing Appropriation of \$15,000,000 annually from gaming revenues, certain earnings on the Vision Iowa Fund and the Bond Reserve Fund, and to the extent of any shortfall in gaming revenues, Lottery revenues.

The bonds are not debts of the State or any political subdivision of the State, and do not constitute a pledge of the faith and credit of the State or a charge against the general credit or General Fund of the State. The bonds are payable solely and only from certain revenues deposited in the Vision Iowa Fund and from the Bond Reserve Fund.

School Infrastructure Fund

The State of Iowa has issued School Infrastructure Special Fund Bonds Series to assist local schools districts with the construction and renovation of facilities. The fund will provide grants totaling \$50 million. Each grant is limited to \$1 million and requires a local match.

The bonds are secured by certain amounts to be deposited in the School Infrastructure Fund, including a Standing Appropriation of \$5,000,000 annually from gaming revenues, certain earnings on the Iowa School Infrastructure Fund and the Bond Reserve Fund, and, to the extent of any shortfall in gaming revenues, Lottery revenues.

The bonds are not debts of the State or any political subdivision of the State, and do not constitute a pledge of the faith and credit of the State or a charge against the general credit or General Fund of the State. The bonds are payable solely and only from certain revenues deposited in the School Infrastructure Fund and from the Bond Reserve Fund.

Future bond debt service requirements of the Primary Government – Governmental Activities are as follows (expressed in thousands):

Total	<u>\$367,710</u>	<u>\$170,731</u>

Primary Government - Business-Type Activities Universities

Iowa State University, the University of Northern Iowa and the University of Iowa have issued revenue bonds for the construction of buildings, facilities, utilities and equipment. The bonds are payable principally from tuition and user fee revenues.

During the current fiscal year, the University of Iowa issued \$10,530,000 of Academic Building Revenue Refunding Bonds, Series 2003, with an average interest rate of 3.5% to advance refund \$10,485,000 of outstanding Academic Building Revenue bonds, Series S.U.I. 1993 with an average interest rate of 4.75%.

Net bond proceeds of \$10,485,000 were placed in an irrevocable escrow account with the University as trustee.

The advance refunding resulted in the recognition of an accounting loss of (\$45,000) for the year ended June 30, 2003, a decrease in aggregate debt service of \$442,531 over the next 18 years and an economic gain (difference between present value of the old and new debt service payments) of \$633,706.

During the current fiscal year, the University of Iowa issued \$6,080,000 Utility Systems Revenue Refunding Bonds, Series 2003, with an average interest rate of 2.43% to advance refund \$6,345,000 of outstanding Utility Systems Revenue Bonds, Series S.U.I. 1993 with an average interest rate of 3.95%.

Net bond proceeds of \$6,121,520 were placed in an irrevocable escrow account with the University as trustee. \$456,956 from Utility System Debt Service Reserve Fund were used in addition to the bond proceeds.

The advance refunding resulted in the recognition of an accounting gain of \$265,000 for the year ended June 30, 2003, a decrease in aggregate debt service of \$387,754 over the next seven years and an economic gain (difference between present values of the old and new debt service payments) of \$487,374.

As a result Bonds totaling \$16,830,000 are considered defeased and the liability has been excluded from the Statement of Net Assets.

In prior years, the University of Iowa defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the State's financial statements. As of June 30, 2003, bonds totaling \$12,285,000 for the University of Iowa were considered defeased.

NOTES TO THE FINANCIAL STATEMENTS

During fiscal year 2003, Iowa State University issued \$30,935,000 of Dormitory System Revenue Bonds Series 2003 with an interest rate range of 3.5-5.00% to construct and furnish the dormitory facilities system.

During fiscal year 2003, the University of Northern Iowa issued \$17,675,000 of Revenue Bonds Series 2003 with an interest rate range of 3.00-4.75% to defray the cost for construction of academic buildings (\$8,465,000), constructing and equipping the dormitories (\$9,210,000).

Tobacco Settlement Authority

The Tobacco Settlement Authority has issued \$40,000,000 of Tobacco Settlement Asset-Backed Bonds, Series A (Federally Taxable) and \$604,245,000 Tobacco Settlement Asset-Backed Bonds, Series B with interest rates of 5.30-6.79%.

The bonds were being issued by the Tobacco Settlement Authority (the "Authority"), a public instrumentality and agency of the State of Iowa (the "State"), separate and distinct from the State, exercising public and essential governmental functions, and created by the Tobacco Settlement Authority Act (the "Act"). Pursuant to a Sales Agreement, dated as of October 1, 2001 (the "Sales Agreement"), between the State and Authority, the State will sell to the Authority, on the Closing Date, all of its right, title and interest in certain amounts payable to the State under the Master Settlement Agreement (the "MSA") entered into by participating cigarette manufacturers (the "PMs"), 46 states (including the State) and six other U.S. jurisdictions in November 1998 in the settlement of certain smoking-related litigation, including the State's right to receive future initial, annual and strategic contribution fund payments (the "TSRs"), to be made by the PMs under the MSA.

The bonds are secured by and are payable solely from (i) 78% of the TSRs payable to the Authority in the future as of the effective date of the Sales Agreement (the "Pledged TSRs"), (ii), investment earnings on certain accounts pledged under the Indenture (which earnings, together with the Pledged TSRs, are referred to herein as the "Collections"), (iii) amounts held in the debt service reserve account (the "Debt Service Reserve Account") and the trapping account (the "Trapping Account") established under the Indenture (the "Reserves"), (iv) amounts held in the other accounts established under the Indenture, and (v) certain rights of the Authority as specified in the Sales Agreement. Pledged TSRs represent a pro rata

portion of every TSR dollar received by the Authority pursuant to the Sales Agreement.

The bonds are special revenue obligations of the Authority secured by, and payable solely and only out of, the moneys, assets or revenues pledged by the Authority pursuant to the indenture, are not a general obligation or general indebtedness of the authority, and do not constitute an obligation or indebtedness of the State or any political subdivision of the State.

Future bond debt service requirements for bonds of the Primary Government – Business–Type Activities are as follows (expressed in thousands):

Year ending June 30,		Principal	Interest
2004	\$	50,257	\$ 67,298
2005		40,268	66,610
2006		38,831	65,182

2030-2034		5,330	 194
Total	<u>\$</u>	1,282,928	\$ 882,006

Component Units

Iowa Finance Authority

The Iowa Finance Authority is authorized and has issued bonds, the proceeds of which are used to provide authorized mortgage financing. The bonds are payable principally from repayments of such mortgage loans. The obligations do not constitute a debt of the State of Iowa and the State is not liable for any repayments.

The bonds are secured, as described in the applicable bond resolution, by the revenues, monies, investments, loans, and other assets in the funds and accounts established by the respective bond resolutions. The line of credit under the Single Family Bond Program Funds is secured by investments held by a custodial financial institution in an amount equal to or exceeding 102% of the outstanding advances as required by the credit agreement. The line of credit under the Finance Authority's General Fund is secured by investments held by a custodial financial institution in an amount no less than \$2 million and is a general obligation of the Authority.

NOTES TO THE FINANCIAL STATEMENTS

The Single Family Mortgage Bond Resolutions, the Single Family Housing Bond Resolutions, and the Multi-Family Bond Resolution contain covenants which require the Authority to make payments of principal and interest from amounts available in the Finance Authority's General Fund should deficiencies occur in the funds established for such payments by the respective bond resolutions. The Single Family Mortgage Revenue Bond Resolution, the credit agreement under the Single Family Bond program Funds, the Multi-Family Housing Refunding Revenue Bond Resolution, and the bond resolutions for the Clean Water Program Funds and Drinking Water Program Funds do not contain these covenants.

In prior years, the Authority defeased certain Iowa State Revenue bonds by placing the proceeds of new bonds along with certain Federal Capitalization Grants and revenues in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1991, 1992, 1993, 1994, 1995, 1996, 1997 and 1998 Series of Iowa Revolving Fund Revenue bonds; 2001 Series Clean Water State Revenue Subordinated Bond Anticipation Notes; and 1999 and 2000A Series of Drinking Water Program Revenue Bonds. As of June 30, 2003, bonds totaling \$220.830.000 are considered defeased.

Iowa Higher Education Loan Authority

The Iowa Higher Education Loan Authority is authorized and has issued bonds to provide educational loans to students and facility loans to private educational institutions in the State of Iowa. The bonds are payable primarily from interest and principal payments of the educational and facility loans.

The Iowa Higher Education Loan Authority has no taxing authority and bonds issued do not constitute a debt, liability, or obligation of the State of Iowa or any political subdivision thereof.

Future bond debt service requirements for the bonds of the component units are as follows (expressed in thousands):

Year ending June 30,	Principal	Interest
2004	\$ 37,440	\$ 38,336
2005	24,995	37,786

2014-2018	298
2019-2023	169
2024-2028	76
2029-2033	 22
Total	\$ 6,072

NOTE 18 - PENSION PLANS Iowa Public Employees' Retirement System

Plan Description

The Iowa Public Employees' Retirement System (IPERS), within the Iowa Department of Personnel, was created in 1953 by the Iowa Legislature, to replace Iowa Old Age and Survivors' Insurance System.

NOTES TO THE FINANCIAL STATEMENTS

IPERS is a cost-sharing defined benefit multiemployer public employee retirement system. Participation in IPERS is mandatory for most state, county, and local public employees, employees of school districts, and for certain elected officials. Membership is optional for some individuals, including the members of the Iowa General Assembly. Excluded from membership are members of other retirement systems supported by Iowa public funds.

	<u>June 30, 2003</u>
Employer members:	
Ċitÿ	1,309
County	465
School	392
State	21
Other	230
Total	2,417

IPERS' vesting requirements are four years of service or age 55, whichever occurs first. Normal retirement age is 65, or when the member's age plus years of service equal or exceed 88. A member may also take early retirement between the ages of 55 and 65 with reduced benefits. At retirement, a member chooses one of six benefit options.

IPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to IPERS, 7401 Register Drive, P. O. Box 9117, Des Moines, IA 50306-9117, or available at www.ipers.org, or by calling 515-281-0020.

Funding Policy

Member and employer contribution rates are established by statute. In general, IPERS' members contribute 3.70%, and employers contribute 5.75% of the covered wage base. The contributions are remitted by participating employers. Certain members and employers engaged in law enforcement, fire safety, and protection occupations contribute at slightly higher rates as shown in the table below. Wages are covered up to the federal limit of \$200,000.

<i>4200</i> ,000.	Contribution Rates as of June 30, 2003				
	Employee	Employer	Total		
Regular	3.70%	5.75%	9.45%		
Sheriffs/Deputy Sheriffs (County)/ Airport Firefighters	5.37%	8.05%	13.42%		
Protection Occupation	s* 6.04%	9.07%	15.11%		
* Protection Occupate Fire Fighters in towns Conservation Peace Officers, Airport Safet Airport Security Of Inspector Peace Office	under 8,00 Officers, y Officers, ficers, and	00 populatio State Cor DOT Peace	on, State rectional Officers,		

A valuation of the liabilities and reserves of the IPERS Trust Fund is performed annually by IPERS' actuary

in accordance with Iowa Code Section 97B.4(4)(d). The Iowa statutes provide that most IPERS members shall contribute 3.70% of pay and employers shall contribute 5.75%, for a total of 9.45%. The valuation is performed to determine whether that rate will be sufficient to fund the future benefits expected to be paid by the System within the guidelines established in IPERS funding policy (maximum amortization period of 30 years). The statutory rate is first applied to fund the normal cost rate. The remaining contribution rate is used to amortize the unfunded actuarial liability as a level percentage of payroll, which in turn determines the amortization period. As a result, the remaining amortization period varies with each actuarial valuation.

The amount of actuarially determined contribution requirement was approximately \$476,684,129. The total amount of contributions made during the fiscal year ended June 30, 2003, was \$472,954,129 with \$287,523,555 coming from employers and \$185,430,574 from employees. This resulted in a 99.2% funding ratio. The difference between the actuarially required contribution and actual contributions made is due entirely to statutory contribution requirements that differ from the actuarially required contribution rate.

The State of Iowa's contributions to IPERS for the years ended June 30, 2003, 2002, and 2001, were \$58,545,880, \$57,921,132, and \$56,844,792, respectively, equal to the 100% of the statutorily required contributions for each year.

Beginning with the June 30, 1996 actuarial valuation, the annual valuation of liabilities is calculated using the entry age normal cost method. The entry age normal cost method requires the calculation of an Unfunded Actuarial Accrued Liability, \$1,866,898,949 at June 30, 2003. Based on the current Unfunded Actuarial Accrued Liability amount and amortization payment, the amortization period is infinite. Additional information is available in IPERS' separately issued report.

Summary of Significant Accounting Policies

IPERS' financial statements are prepared using the accrual basis of accounting. Revenues are recognized when they are earned and become measurable. Expenses are recognized when the liability is incurred. As such, plan members contributions are recognized in the period in which the contributions are due. Employers contributions are recognized when due and the employer has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

All investments are reported at fair value. The determination of fair value is generally based on published market prices and quotations from major investment brokers. Investments not having quoted

NOTES TO THE FINANCIAL STATEMENTS

market prices have been valued based on yields and maturities currently available on comparable securities of similar issue. Fair values for real estate, private equity partnerships, and direct real estate investments are based on periodic assessments or appraisals of the underlying investments. Futures contracts are valued daily with the resulting adjustment recorded as realized gains/losses arising from the daily settlement of variation margin.

The System has no investment in any specific stock or bond issues of any commercial or industrial organization, other than the U.S. government and its instrumentalities, whose market value exceeds five percent of the net assets available for benefits.

Peace Officers' Retirement, Accident and Disability System

Plan Description

The Peace Officers' Retirement, Accident and Disability System was created under Chapter 97A of the Code of Iowa to provide retirement and other benefits for the peace officers of the Iowa Department of Public Safety. The Peace Officers' Retirement, Accident and Disability System is the administrator of a single-employer defined benefit public employee retirement system.

A member may retire with a service allowance after completing 22 years credited service and attaining the minimum service retirement age of 55. Plan benefits include: service retirement benefits, ordinary disability retirement benefits, accidental disability benefit, ordinary death benefit, and accidental death benefits.

The Peace Officers' Retirement, Accident and Disability System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Peace Officers' Retirement, Accident and Disability System, Iowa Department of Public Safety, Wallace State Office Building, Des Moines, IA 50319.

Funding Policy

The contributions to the System are made pursuant to Chapter 97A of the Code of Iowa, and are not based upon actuarial determinations.

Member contribution rates are established by statute at 9.35%. However, the System shall increase the member's contribution rate as necessary to cover any increase in cost to the System resulting from statutory changes which are enacted by any session

of the General Assembly meeting after January 1, 1991, if the increase cannot be absorbed within the contribution rates established, but subject to a maximum employee contribution rate of 11.30%. After the employee contribution reaches 11.30%, sixty percent of the additional cost of such statutory changes shall be paid by employers and forty percent of the additional cost shall be paid by employees. This is deducted from the member's salary and remitted by the employer.

The employer is obligated by statute to contribute an amount of 17.00% of the covered payroll. Contribution provisions are established by State law and may be amended only by the State legislature. The State of Iowa has historically followed a contribution policy of appropriating funds based upon a percentage of the current salaries for which funds are appropriated.

The member contribution required and contributed was \$3,046,982, representing 9.35% of the current year covered payroll. The State contribution required by statute was \$5,540,116 and the amount actually contributed was \$5,540,116. Costs of administering the plan are financed through employer contributions and investment income.

Summary of Significant Accounting Policies

The Peace Officers' Retirement, Accident and Disability System's financial statements are prepared using the accrual basis of accounting. Contributions are recognized in the period in which the contributions are due. Pension benefits and annuities are recognized when due and payable in accordance with the terms of the plan.

Investments are recorded at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have an established market are reported at estimated fair value.

The System has no investment in any specific stock or bond issues of any commercial or industrial organization, other than the U.S. government and its instrumentalities, whose market value exceeds five percent of the net assets held in trust for pension benefits.

NOTES TO THE FINANCIAL STATEMENTS

Annual Pension Cost and Net Pension Obligation

The State's annual pension cost and net pension obligation to the Peace Officers' Retirement, Accident and Disability System for the current year were as follows:

Annual required contribution	\$	7,883,879
Interest on net pension obligation		(1,399,643)
Adjustment to annual required contribution	_	1,346,805
Annual pension cost		7,831,041
Contributions made		5,540,116
Increase (decrease) in net pension obligation		2,290,925
(Assets in excess of) net pension obligation beginning of year	(17,495,537)
(Assets in excess of) net pension obligation end of year	<u>\$ (</u>	<u>15,204,612)</u>

For calculation of the net pension obligation, the actuary has set the transition date as July 1, 1995. The end of year net pension obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the System's actual contributions for fiscal years 1988 through 2003.

The annual required contribution for the current year was determined as part of the July 1, 2001, actuarial valuation using the aggregate actuarial cost method. This method does not identify or separately amortize unfunded actuarial liabilities. The actuarial assumptions included (a) 8.00% investment rate of return, (b) projected salary increases of 10% for the first year, 5% for each of the next 4 years and 5.5% thereafter, (c) an inflation rate of 4.00%, and (d) post retirement benefit increases are based on expected payroll growth and provision of the law. actuarial value of assets was determined using a smoothing method. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2003 was 18 years.

Three-year trend information:

			/A

2002	5,298,340	103.17%	(17,495,537)
2003	7,831,041	70.75%	(15,204,612)
	-,,		

Judicial Retirement System Plan Description

The Judicial Retirement System is the administrator of a single-employer defined benefit public employee retirement system.

The Judicial Retirement System was established to provide pension benefits to Judges serving on the Supreme Court, District Courts and the Court of Appeals.

Pursuant to Chapter 602 of the Code of Iowa, a member who has had a total of at least six years of service as a judge of one or more of the above courts and is at least sixty-five years of age or who has served twenty-five years of consecutive service as a judge of one or more of the above courts shall qualify for an annuity. The annual annuity of a judge under this system is an amount equal to three percent of the judge's average annual basic salary for the judge's highest three years as a judge multiplied by the judge's years of service, or, for a member who meets the definition of a senior judge under Chapter 602.9202 of the Code of Iowa, three percent of the basic senior judge salary, multiplied by the judge's years of service, limited to a specified percentage of the highest basic annual salary or basic senior judge salary, as applicable, which the judge is receiving or had received as of the time of the judge became separated from service. The specified percentage is as follows: (1) fifty percent for judges who retired prior to July 1, 1998; (2) fifty-two percent for judges who retire and receive an annuity on or after July 1, 1998 but before July 1, 2000; (3) fifty-six percent for judges who retire and receive an annuity on or after July 1, 2000 but before July 1, 2001; and (4) sixty percent for judges who retire and receive an annuity on or after July 1, 2001. Any member who has served as a judge for a total of six years or more and deemed permanently incapacitated, mentally or physically, to perform his/her duties shall be entitled to an annuity that would be the same as computed under a retirement annuity.

NOTES TO THE FINANCIAL STATEMENTS

The Judicial Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Judicial Retirement System, Iowa Judicial Branch, 1111 East Court Avenue. Des Moines, IA 50319.

Funding Policy

The contributions to the Iowa Judicial Retirement System are made pursuant to Section 602.9104 of the Code of Iowa, and are not based upon actuarial determinations.

The member contribution required and contributed was \$1,015,079, representing 5.00% of the current year covered payroll. The State contribution required by statute and the amount contributed was \$2,039,664. The State share is to be based on 9.90% of the current year covered payroll. Costs of administering the plan are financed through State appropriation, member contributions and investment income.

Summary of Significant Accounting Policies

The Iowa Judicial Retirement System's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. System contributions are recognized when due and the System has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair value.

Investments in governmental bonds and treasury notes constitute approximately 3.15% of net assets held in trust for pension benefits. The System has no investments in the stocks or bonds of any commercial or industrial organization where market value exceeds 5.00% or more of the net assets held in trust for pension benefits.

Annual Pension Cost and Net Pension Obligation

The State's annual pension cost and net pension obligation to the Iowa Judicial Retirement System for the current year were as follows:

Annual required contribution Interest on net pension obligation Adjustment to annual required	\$ 4,024,203 128,201
contribution	(127,339)
Annual pension cost	4,025,065
Contributions made	2,039,664
Increase (decrease) in net pension obligation (Assets in excess of) net pension obligation beginning of year	1,985,401
Net pension obligation end of year	<u>\$ 1,602,515</u>

For calculation of the net pension obligation, the actuary has set the transition date as July 1, 1995. The net pension obligation was calculated by the actuary as the cumulative difference between the System's annual required contributions and the System's actual contributions for fiscal years 1988 through 2003.

The annual required contribution for the current year was determined as part of the July 1, 2002, actuarial valuation using the projected unit credit actuarial cost method. The actuarial assumptions included (a) 8.00% investment rate of return and (b) projected salary and inflationary increases of 5.00% per year. The assumptions included post retirement benefit increases, in accordance with the law. The actuarial value of assets was determined using the market value of investments. The unfunded actuarial accrued liability is being amortized using a level dollar amortization method on an open basis. The remaining amortization period at June 30, 2003, was 30 years.

Three-year trend information:

		•	(Assets in
Year	Annual	Percentage	Excess) of
Ended	Pension	of APC	Net Pension
June 30	Cost (APC)	Contributed	Obligation
2001	3,208,886	140.22%	(1,075,242)
2002	3,731,554	81.45%	(382,886)
2003	4,025,065	50.67%	1,602,515

NOTES TO THE FINANCIAL STATEMENTS

Teachers Insurance and Annuity Association Retirement Program

The Universities, Board of Regents, the Iowa Braille and Sight Saving School, and the Iowa School for the Deaf contribute to the Teachers Insurance and Annuity Association (TIAA) retirement program. The above, by contributing to TIAA, participate in a defined contribution retirement plan.

A defined contribution retirement plan provides retirement benefits in return for services rendered, provides individual annuities for each plan participant, and specifies how contributions to an individual's annuity are to be determined instead of specifying the amount of benefits the participant is to receive. Under a defined contribution retirement plan, the benefits a participant will receive depend solely on the amount contributed to the participant's annuity, and the returns earned on investments of those contributions. As required by the Iowa State Board of Regent's policy, all eligible employees must participate in a retirement plan from the date they are employed. Contributions made by both employer

and employee vest immediately. As specified by the contract agreement with TIAA, each employee through the fifth year of employment contributes 3.33% of the first \$4,800 of earnings and 5.00% on the balance of earnings. The employer through the fifth year of employment, contributes 6.67% of the first \$4,800 of earnings and 10.00% on earnings above the \$4,800. Upon completion of five years of service, the participant contributes 5.00% and the employer 10.00% on all earnings. During fiscal year 2003, the employers' contributions amounted to \$106,551,640. Employees' contributions amounted to \$53,500,944.

No retirement plan provisions changed during the year that affected the Institutions' or employees' required contributions.

NOTE 19 - RELATED ORGANIZATIONS

Business-type activities - Universities

Iowa State University, the University of Iowa and the University of Northern Iowa have related organizations whose purpose is to receive donations and other funds for student grants and scholarships, support of intercollegiate athletics, and educational and general institution support. Detailed financial data is available in the related organizations' financial statements, available from the Universities. The following summarized financial data is for the year ended June 30, 2003 (expressed in thousands):

	Iowa State <u>University</u>	Univers of Iowa	J	ersity of ern Iowa
Total Assets	\$ 414,085	\$ 707	,370	\$ 69,450
Total Liabilities	55,403	107	,900	3,901
Total Equity	358,682	599	,470	65,549
Due From The Universities	15		63	-
Due To The Universities	8,196	19	,717	-
Total Revenues	71,430	81	,606	8,710
Total Expenditures	67,769	90	,863	7,364
Revenues From The Universities	2,017		757	_
Revenues To The Universities	53,802	72	,589	2,740

NOTES TO THE FINANCIAL STATEMENTS

NOTE 20 - BEGINNING BALANCE ADJUSTMENTS

During fiscal year 2003, the State reclassified the Insurance Trust Fund and the SPOC Insurance Trust Fund from Private Purpose Trust Funds to Pension Trust Funds. The reclassification resulted in the following changes to the beginning net assets of the respective fund types (expressed in thousands):

	Private Purpose Trust	Pension Trust
June 30, 2002 As previously reported Reclassification	\$ 271,297 (3,060)	\$ 15,161,501 3,060
Balances restated	\$ 268,237	\$ 15,164,561

In addition, the University Funds understated their early retirement benefit liability by \$9,439,000, over stated accumulated depreciation by \$19,730,000 and did not include the Deposits with Trustee amount of \$46,393,000 as cash and cash equivalents. These errors resulted in an adjustment to the University Funds beginning balances (expressed in thousands):

	Net Assets	Cash and Cash Equivalents
June 30, 2002 As previously reported Adjustments	\$ 2,380,827 10,291	\$ 363,979 <u>46,393</u>
Balance restated	\$ 2,391,118	\$ 410,372

NOTE 21 - OTHER POST EMPLOYMENT BENEFITS

On November 8, 2001, the Legislature passed an Early Retirement Termination Program during the special legislative session. The program requires the sum of the number of years of credited service (service under the Iowa Public Employee's Retirement System or the Peace Officers' Retirement, Accident and Disability System) and age in years as of December 31, 2003, equals or exceed seventy-five. Employees were required to sign up before January 31, 2003 and leave State employment on or before February 1, 2002. Participants may not accept permanent part-time or permanent full-time employment with the State, other than as an elected official, after termination.

The Early Retirement Incentive is calculated as the total dollar value of accrued vacation and sick leave balances at the time of termination. However, the sick leave cannot exceed 2080 hours (the amount of annual salary). The vacation and sick leave will be paid out in five installments, with 10 percent paid with the last regular payroll warrant, 20 percent paid each August in 2002, 2003, and 2004, and the remaining 30 percent paid to the employee or their beneficiary in August 2005.

On May 28, 2002, the Legislature passed a Sick Leave and Vacation Incentive Program Extension during the special legislative session held on that day. The program requires that sum of the number of years of credited service (service under the Iowa Public Employee's Retirement System or the Peace Officers' Retirement, Accident and Disability System) and age in years as of December 31, 2003, to be equal to or exceed seventy-five. Eligible employees were required to sign up on or before August 14, 2002, and leave State employment between the dates of July 8, 2002 and August 15, 2002.

Participants may not accept permanent part-time or permanent full-time employment with the State, other than as an elected official after termination.

The Sick Leave and Vacation Incentive is calculated as the total dollar value of accrued vacation and sick leave balances at the time of termination. However, the sick leave cannot exceed 2080 hours (the amount of regular annual salary). The vacation and sick leave will be paid out in five installments, with 30 percent of the total cash value paid with the last regular payroll warrant in 2002, 20 percent paid each August in 2003, 2004, and 2005, and the remaining 10 percent paid to the employee or their beneficiary in August 2006.

All incentives are financed on a pay-as-you-go basis by the Department from which the employee retired. Early retirement costs for fiscal 2003 totaled \$6,617,527 for 747 participants.

The Board of Regents approved an Early Retirement Incentive Program (ERIP) in June 1986, with modifications July 1990 and July 1992; and in July 2001 the Board of Regents approved discontinuation of the program upon its expiration on June 30, 2002. The Board of Regents has authorized each institutional head to exercise discretion as to whether employees who are qualified at June 30, 2003 may have two years after expiration of the program to request participation.

NOTES TO THE FINANCIAL STATEMENTS

To be eligible for ERIP, an employee must be 57 to 64 years of age with 15 or more years of service. The employee's participation must be approved by the employee's department head and the appropriate administrative officers.

All incentive payments are financed on a pay-as-you-go basis, except at the University of Northern Iowa. At the University of Northern Iowa, the policy requires departments to fully fund the ERIP liability upon signing new ERIP contracts, and the policy requires previously executed contracts be funded by June 30, 2003. The funded contributions during the fiscal year ended June 30, 2003 were \$1,015,721.

An employee approved for participation in the program will receive the following incentives until age 65, unless otherwise specified:

- Health & Dental Insurance The employer's contributions are made until the employee is eligible for Medicare coverage.
- 2) Group Life Insurance The employer provides a paid-up life insurance policy which varies in amounts between \$2,000 and \$4,000.
- 3) TIAA/CREF Contributions The employer's and employee's contributions are made for up to three (3) years; employer's contributions are made up to an additional two (2) years; and employer's contributions are payable for a maximum of five (5) years or until the employee is eligible for full Social Security benefits, whichever occurs first.
- 4) IPERS Contributions The employer's and employee's contributions are made for up to three (3) years; employer's contributions may be made up to an additional two (2) years; and contributions are payable for a maximum of five (5) years or until the employee is eligible for full Social Security benefits, whichever occurs first.

The employee may elect, prior to approval of participation in the program, to accept the present value of all or part of the incentives as a lump sum payment on the beginning date of participation in the program. The rate of interest used to calculate the present value is established annually by the board. The rate used for this fiscal year was 1.90%.

The Board of Regents Institutions' contributions for the fiscal year ended June 30, 2003, amounted to \$10,667,015 for 1,132 participants.

The State Police Officers Council (SPOC) Collective Bargaining Agreement, provides upon retirement, including disability retirement, credit for all unused sick leave as follows:

Accumulated, unused sick leave in both the active and banked sick leave accounts shall be converted at current value and credited to the employee's account for the purpose of paying the cost of the monthly premiums of a health insurance and/or life insurance policy.

Upon written authority from or upon the death of a retired employee, or upon the death of an active employee, the spouse or the surviving spouse shall be entitled to the value of the sick leave bank in both the active and banked sick leave accounts as converted in the previous paragraph for the purpose of paying the cost of monthly premiums of the health insurance and/or life insurance policy for the employee's spouse or dependents.

If the carrier of either the health or life insurance policy is not a current contracted carrier with the State of Iowa, or the council or any of its sub organizations, the employee or spouse shall be eligible for reimbursement of a premium payment to that carrier upon submission of proof of payment. If there is dissolution of marriage or divorce, it is the employee's responsibility to withdraw their authority.

The benefits are funded on a pay-as-you go basis for the Department of Public Safety retirees and fully funded for Department of Natural Resources retirees.

For the year ended June 30, 2003, 164 SPOC retirees received benefits totaling \$847,000.

NOTE 22 - RISK MANAGEMENT

INSURANCE/TRANSFER OF RISK

State employee benefits for health, dental, long-term disability and life insurance coverage are fully insured through commercial insurers. The State also insures with outside parties for certain liabilities. The State assumes liability for any deductibles and claims in excess of coverage limitations. Iowa State University assumes responsibility for aircraft liability claims in excess of \$11.0 million, and Workforce Development assumes fire liability on buildings and contents in excess of \$16.7 million.

NOTES TO THE FINANCIAL STATEMENTS

The University of Northern Iowa assumes liability in excess of \$250.0 million for the Residence System Buildings, Maucker Union, General Fund Buildings, Early Childhood Center and boiler and machinery per event. Each building has individual limits of coverage and a \$2.0 million deductible for earthquake and flood: Residence Halls \$253.4 million, Residence Apartments \$61.0 million, Maucker Union \$18.9 million, General Buildings \$250.0 million, and Early Childhood Center \$3.0 million. The University also assumes liability for physical damage to the UNI-Dome buildings for the first \$150,000 and in excess of \$43.5 million and medical liability at the Laboratory School in excess of \$5.0 million.

The University of Iowa assumes liability for damage to buildings and contents for the first \$2.0 million and in excess of \$500.0 million per event, pharmacy products liability for the first \$10,000 and in excess of \$7.0 million, student interns professional liability in excess of \$3.0 million, losses at the Museum of Art in excess of \$100.0 million, criminal fidelity liability for the first \$100,000 and in excess of \$10.0 million; and construction job site liability for the first \$250,000 and in excess of \$50.0 million.

Iowa State University assumes liability for damage to buildings and contents in excess of \$2,242.6 million, damage to boilers and machinery in excess of \$287.9 million, damage to electronic data processing, telecommunications equipment in excess of \$29.6 million and business interruption in excess of \$27.5 million.

Glenwood Resource Center assumes liability for volunteers' accident and personal liability in excess of \$1.0 million per occurrence and \$3.0 million annually. The Iowa Braille and Sight Saving School assumes liability for the first \$1.0 million and in excess of \$28.9 million for catastrophic losses.

The Second, Third, Fourth, Fifth, and Sixth Judicial Districts assume liability for physical damage to buildings and contents in excess of \$3.7 million, \$3.2 million, \$3.3 million, \$13.0 million and \$8.7 million, respectively. The Fifth Judicial District assumes liability for boiler equipment breakdown in excess of \$4.5 million. The First Judicial District assumes liability in excess of \$3.5 million blanket coverage for boilers.

The State maintains an employee fidelity bond where the first \$100,000 in losses and any losses exceeding \$2.0 million becomes the responsibility of the State. Iowa State University maintains an additional policy and assumes liability in excess of \$4.0 million.

There were no settlements in excess of coverage for the past three fiscal years.

The University of Northern Iowa and University of Iowa were unable to renew existing policies covering buildings, contents and business interruption an replaced that coverage with policies that cover per occurrence limits of \$250 million and \$500 million, respectively. The University of Iowa was also unable to renew their \$20 million medical malpractice insurance in January 2003 and it self-insuring that risk.

SELF-INSURANCE/RETENTION OF RISK

It is the policy of the State not to purchase commercial insurance, except as detailed above, for the risks of losses to which it is exposed. Instead, State management believes that it is more economical to manage its risks internally and set aside assets for claim settlement in its internal service funds or to pay claims from the General Fund.

Specific claim adjustment expenditures/expenses and estimated recoveries on unsettled claims are included in the determination of claims liability. Other allocated or unallocated claim adjustment expenditures/expenses are not included.

The State is self-insured for various risks of loss related to work injuries of its employees. The Workers' Compensation Fund, an internal service fund, services workers' compensation claims. The liability for unpaid claims is estimated based on the average cost per claim-type determined from an actuarial review. Changes in the balances for estimated claims liabilities in fiscal years 2002 and 2003 were (expressed in thousands):

		Current Year		
	Balances At	Claims		Balances At
	Beginning	And Changes	Claim	End Of
	Of Fiscal Year	In Estimates	Payments	Fiscal Year
FY 02	2 32,497	14,509	14,938	32,068
FY 03	32,068	36,645	15,483	53,230

The State is self-insured for various risks of loss related to its motor vehicle fleet. The Vehicle Dispatcher Self-Insurance Fund, an internal service fund, services liability and property damage claims. The liability for unpaid claims is estimated based on historical experience and the application of an industry standard of forty percent for IBNR claims. Changes in the balances for estimated claims liabilities in fiscal years 2002 and 2003 were (expressed in thousands):

		Current Year		
	Balances At	Claims		Balances At
	Beginning	And Changes	Claim	End Of

FY 02	972	331	236	1,067
FY 03	3 1,067	(430)	128	509

The State is self-insured for various risks of loss related to the operation of the Board of Regents institutions' motor vehicle fleets. The Regent's Motor Vehicle Liability Self-Insurance Fund, an internal service fund, services liability and property damage claims. The liability for unpaid claims is estimated based on statistical techniques that reflect recent settlements, similar claim history, and other economic and social factors. Changes in the

NOTES TO THE FINANCIAL STATEMENTS

balances for estimated claims liabilities in fiscal years 2002 and 2003 were (expressed in thousands):

		Current Year		
	Balances At	Claims		Balances At
	Beginning	And Changes	Claim	End Of
	Of Fiscal Year	In Estimates	Payments	Fiscal Year
FY 02	1,100	350	582	868
FY 03	868	858	781	945

The State is self-insured for risks of loss related to property damage and torts. All claims must be filed with the State Appeal Board which has the authority to approve or reject claims. Claims allowed in an amount greater than five thousand dollars require the unanimous approval of all the members of the Board, the Attorney General, and the District Court of the State of Iowa for Polk County. The liability for unpaid claims is estimated based on historical experience and analysis. Changes in the balances for estimated claims liabilities in fiscal years 2002 and 2003 were (expressed in thousands):

		Current Year		
	Balances At	Claims		Balances At
	Beginning	And Changes	Claim	End Of
	Of Fiscal Year	In Estimates	Payments	Fiscal Year

FY 03	11,500	6,868	6,868	11,500

The Universities retain risk liability for medical faculty malpractice; medical, dental, unemployment, and workers' compensation coverage for some employees; and various property damage not covered as described above. The estimates of claim liabilities for faculty medical malpractice, and employee medical, dental, unemployment, and workers' compensation are based on actuarial analysis. The estimates of the claim liability for various property damage is based on historical analysis. Changes in the balances for estimated claims liabilities in fiscal years 2002 and 2003 were (expressed in thousands):

		Current Year		
	Balances At	Claims		Balances At
	Beginning	And Changes	Claim	End Of
	Of Fiscal Year	In Estimates	Payments	Fiscal Year
FY 02	16,765	109,595	107,852	18,508
FY 03	18,508	102,928	101,664	19,772

NOTE 23 - LITIGATION, CONTINGENCIES, AND COMMITMENTS

The State Appeal Board has the authority to approve or reject general claims under ten years covering the following: Outdated warrants; outdated sales and use tax refunds; license refunds; additional agricultural land tax credits; outdated invoices; fuel and gas tax refunds; outdated homestead and veterans' exemptions; outdated funeral service claims; tractor fees; registration permits; outdated bills for merchandise; services furnished to the state;

claims by any county or county official relating to the personal property tax credit; and refunds of fees collected by the state. At June 30, 2003, there was \$1.1 million in such claims filed with the Appeal Board.

The Iowa *Department of Revenue* has pending litigation regarding income tax cases. The cases *could* possibly result in refunds estimated at \$1.1 million.

The Iowa Department of Transportation has estimated the State's share of contractual obligations for construction contracts as \$192.7 million at June 30, 2003.

The University of Iowa has outstanding construction contract commitments of \$125.7 million at June 30, 2003.

Iowa State University has outstanding construction contract commitments of \$41.5 million at June 30, 2003.

The Department of Natural Resources has outstanding construction contract commitments of \$9.4 million at June 30, 2003.

The University of Northern Iowa has outstanding construction contract commitments of \$19.2 million at June 30, 2003.

The Department of General Services has outstanding construction contract commitments of \$33.8 million at June 30, 2003.

The Iowa Finance Authority has signed loan agreements with municipalities and water systems totaling \$68.3 million as of June 30, 2003.

The State has pending litigation involving wage claims under the federal Fair Labor Standards Act for employees of the department of *Natural Resources*. Although there is a reasonable possibility that a loss will be incurred, the amount of the loss can not be reasonably estimated.

NOTE 24 - REVENUE ANTICIPATION NOTES

Pursuant to the Code of Iowa, Section 12.26, the State of Iowa issued Primary Road Fund Revenue Anticipation Notes (RANS). The notes were necessary to fund the anticipated cash flow deficits experienced by the Primary Road Fund and for interim financing of certain highway projects. The RANS were issued on October 10, 2002, with an interest rate of 3.0%, and the notes and related interest were repaid on June 30, 2003. The following is a schedule of RANS activity for the year ended June 30, 2003 (expressed in thousands):

Beginning Ending
Balance Issued Redeemed Balance

Anticipation Notes \$- \$ 99,380 \$ 99,380 \$ -

NOTES TO THE FINANCIAL STATEMENTS

NOTE 25 - SUBSEQUENT EVENT

In July of 2003, the Board of Regents approved the terms of a capital lease with the University of Iowa Facilities Corporation (UIFC) that matched the terms of an \$11,325,000 bond issue by UIFC. The proceeds of said bond issue are to be used for a portion of the construction costs of the Pomerantz Center.

In October of 2003, the Board of Regents approved the sale of \$25.0 million in Dormitory Revenue Bonds to be used for improvements to existing residence halls and related facilities at the University of Iowa.

In October of 2003, the Board of Regents approved the issuance of up to \$14.5 million in Telecommunications Revenue Bonds. The proceeds will be used to call \$9.9 million in existing revenue bonds and to purchase \$4.1 million in telecommunications switching equipment at the University of Iowa.

Subsequent to June 30, 2003, the Board of Regents entered into an agreement with the University of Iowa, the Carver College of Medicine and the Faculty Practice Plan for the creation of Iowa Medical Mutual Insurance Company (IMMIC), a captive insurance company. IMMIC would provide medical malpractice insurance to the Faculty Practice Plan under the terms of the agreement. To establish the required reserves for IMMIC, the University of Iowa will transfer \$20.0 million in investments to IMMIC in return for \$20.0 million note receivable from IMMIC. The interest income on the note will match the return of the investment of the reserves by IMMIC.

Subsequent to June 30, 2003, the Board of Regents authorized the sale of Academic Building Revenue Refunding Bonds, Series I.S.U. 2003 for \$7,790,000 to be issued on November 1, 2003. These bonds will bear interest at varying rates between 3.0% and 4.45% and will mature in varying amounts from July 1, 2004 through July 1, 2018. The proceeds of these notes will be used to refund in advance of maturity the 2004 maturity of the Board's \$7,000,000 Academic Building Revenue Notes, Series I.S.U. 2002, to fund a debt service reserve, and to pay for costs of issuance. These bonds will be payable only from the gross student fees and charges levied against students attending Iowa State University.

Also subsequent to June 30, 2003, the Board of Regents authorized the sale of Regulated Materials Facility Revenue Bonds, Series I.S.U. 2003 for \$6,750,000 to be issued on November 1, 2003. These bonds will bear interest at varying rates between 3.0% and 4.55% and will mature in varying amounts from July 1, 2005 through July 1, 2019. The proceeds from the sale of these bonds will be used to construct, furnish and equip a Regulated Materials Facility on the campus of Iowa State University, to fund a debt service reserve fund, and to pay the costs of issuance. These bonds will be payable only from the net reserves of the Regulated Materials Facility System or other system income.

Also, subsequent to June 30, 2003, the Board of Regents authorized the sale of Utility System Revenue Bonds, Series I.S.U. 2003 for \$13,280,000 to be issued December 1, 2003. These notes will bear interest at rates between 2.0% and 4.75% and will mature in varying amounts from November 1, 2005 through November 1, 2024. The proceeds of these bonds will be used to equip and improve the Utility System of Iowa State University, to fund debt service reserve, and to pay the costs of issuance.

These bonds will be payable only from the net revenues of the Utility System and any proceeds of Utility System students fees.

In July of 2003, the Board of Regents called outstanding Academic Building Revenue Bonds, Series 1993 to take advantage of lower interest rates. The called bonds were replaced with Academic Building Revenue Refunding Bonds, Series U.N.I. 2003A of \$4,225,000. The transaction resulted in a savings of \$322,300 in principal and interest payments.

On October 9, 2003, the State of Iowa issued Primary Road Fund Revenue Anticipation Notes of \$73,430,000 at an interest rate of 2.00%, priced to yield .99%. The notes are being issued for the purpose of funding the anticipated cash flow deficits experienced by the Primary Road Fund, and for interim financing of certain highway projects.

The State of Iowa is in negotiations to issue Tax and Revenue Anticipation Notes (TRANS), estimated to range from \$500 to \$600 million. The notes will be repaid by June 30, 2004.

Required Supplementary Information

Notes to Required Supplementary Information – Budgetary Reporting

Expenditures in Excess of Revenues

Through June 30, 2003, General Fund cash receipts were slightly higher that the REC estimate, by \$12.8 million. However, actual accrued General Fund revenues and reversions of unspent General Fund appropriations were lower that projected, and expenditures against standing General Fund appropriations were higher than projected. The largest impact was accrued revenues, which were \$50.7 million under the REC estimate. Reversions of unspent General Fund appropriations were \$7.3 million under the estimate, and standing appropriations exceeded the estimate by \$3.6 million.

As a result, the General Fund ended fiscal year 2003 with authorized expenditures exceeding actual revenues by \$45.8 million. State statutes provide the Governor a mechanism to prevent this deficit in the General Fund. However, due to the potential negative impact on the fiscal year 2004 General Fund budget, at this time the Governor has determined that this mechanism will not be implemented. Instead, the Governor has written to Legislative leaders recommending that the Legislature transfer \$45.8 million from the Cash Reserve Fund to the General Fund to remedy the shortfall and expressing his belief that this issue should be the first priority when the Legislature convenes in regular session in January 2004.

Budgetary Expenditures in Excess of Appropriations

Actual expenditures exceeded budgeted expenditures as a result of the receipt and legal expenditure of federal and other non-state funds which had been received for restricted purposes. In the General Fund this occurred in the Department of Human Services for Medical Assistance, and due to standing unlimited appropriations and increased federal funds for Public Transit Assistance within the Department of Transportation, and as a result of legal expenditure over allocated reversions within the Department of Education, Department of Corrections, Information Technology Department, and the Iowa Telecommunications and Technology Commission operating appropriations.

Budgetary Presentation

The budget encompasses the General Fund of the State and some Special Revenue Funds, (Tobacco Tax-Exempt Bond Proceeds, Healthy Iowan's Trust Fund, Endowment For Iowa's Health Account, Hospital Trust Fund, Technology Program, Workforce Development Withholding, Local Housing Assistance, Pooled Technology Program, Land Recycling Fund, Forestry Management Enhancement Fund, Environment First, Gambling Treatment Program, Inspection and Appeals Use Tax Clearing, Underground Storage Tank Unassigned Revenue, Resources Enhancement and Protection, Fish and Game Fund, Conservation Administration Fund, Guaranteed Student Loan Administration, School Infrastructure Fund, Real Estate Education, Special Contingency Fund, Administrative Contribution Surcharge, Unclaimed Winnings, Water Quality Protection, and Primary Road Fund). The General Fund and the Major Special Revenue Fund, Tobacco Tax-Exempt Bond Proceeds are displayed in the Required Supplementary Information Budgetary Comparison Schedule. The Nonmajor Special Revenue Funds are displayed with the combining financial Statements and Schedules for nonmajor funds. Capital Project Funds are budgeted on a project-length basis. The budget is prepared on a modified accrual basis of accounting for both revenues and expenditures.

The State's budget is prepared by the Governor on an annual basis and is required to be submitted along with proposed appropriation bills to the General Assembly by the first of February prior to the new fiscal year. When an appropriation bill is passed by both houses of the General Assembly, the bill is enrolled and sent to the Governor. The Governor may sign it into law or veto it in whole or in part on a line item basis. Funds may be disbursed only after appropriations have been allotted by the Department of Management, subject to the review of the Governor, with the exception of standing unlimiteds and certain receipts that the Departments are authorized to expend. Appropriations are allotted for expenditure on a quarterly basis.

Required Supplementary Information

Departments may request revisions to quarterly allotments, appropriations transfers, or supplemental appropriations. The Department of Management approves revised allotments within an appropriation, subject to the Governor's review. The Governor and the Department of Management approve all appropriation transfers. The General Assembly and the Governor act on supplemental appropriation bills in a manner similar to original appropriations. Appropriations lapse at fiscal year-end and all unencumbered or unobligated balances revert to the State treasury, unless otherwise provided.

The State utilizes encumbrance accounting for budgetary control purposes. Obligations incurred for goods or services that have not been received or rendered, are recorded to reserve that portion or the applicable fund balance. Section 8.33, unnumbered paragraph 2, of the Code of Iowa, states, "No payment of an obligation for goods or services shall be charged to an appropriation subsequent to the last day of the fiscal year for which the appropriation is made unless the goods or services are received on or before the last day of the fiscal year, except that repair projects, purchase of specialized equipment and furnishings, and other contracts for services and capital expenditures for the purchase of land or the erection of buildings or new construction or remodeling, which were committed and in progress prior to the end of the fiscal year are excluded from this provision." That is, except for the above stated exceptions, the State must have received the goods or services on or before June 30, creating an actual liability, or the encumbrance is cancelled against that fiscal year. If the encumbrances are still valid after June 30, they become expenditures / expenses of the next fiscal year.

Budgetary control is essentially maintained at the department fund level except for certain grant and aid programs where control is maintained at a program level.

Revenues and expenditures are monitored on a continuing basis. State law authorizes the Governor to impose across-the-board pro rata reductions in allotments to ensure revenues and other available funds are sufficient to pay expenses of a given fiscal year.

Separate reports for the General and budgeted Special Revenue funds presenting detail of the legal level of control and actual expenditures are available from the Department of Management.

General Fund Expenditure Limitation

The Code of Iowa, section 8.54, establishes a state General Fund expenditure limitation of ninety-nine percent of the adjusted revenue estimate. The adjusted revenue estimate is the appropriate revenue estimate for the General Fund for the following fiscal year as determined by the Revenue Estimating Conference, adjusted by subtracting estimated tax refunds payable from that estimated revenue and as determined by the Conference, adding any new revenues which may be considered to be eligible for deposit in the General Fund. New revenues means moneys which are received by the state due to increased tax rates and fees or newly created taxes and fees over and above those moneys which are received due to state taxes and fees which are in effect as of January 1 following the December state Revenue Estimating Conference. "New revenues" also includes moneys received by the General Fund of the state due to new transfers over and above those moneys received by the General Fund of the state due to transfers which are in effect as of January 1 following the December state Revenue Estimating Conference. The Department of Management shall obtain concurrence from the Revenue Estimating Conference on the eligibility of transfers to the General Fund of the state which are to be considered as new revenue in determining the state General Fund expenditure limitation.

This limitation shall be used by the Governor in the preparation of the budget and by the General Assembly in the budget process. If a source for new revenues is proposed, the budget revenue projection used for that new revenue source for the period beginning on the effective date of the new revenue source and ending in the fiscal year in which the source is included in the revenue base shall be an amount determined by subtracting estimated tax refunds payable from the projected revenue from that new revenue source, multiplied by ninety-five percent. If a new revenue source is established and implemented, the original state General Fund expenditure limitation amount shall be readjusted to include ninety-five percent of the estimated revenue from the new revenue source.

Required Supplementary Information

For fiscal years in which the Iowa Economic Emergency Fund transfers money to the General Fund, the original state General Fund expenditure limitation amount provided for shall be readjusted to include the moneys which are so transferred.

The scope of the expenditure limitation shall not encompass federal funds, donations, constitutionally dedicated moneys, and moneys in expenditures from state retirement system moneys. The Governor shall submit and the General Assembly shall pass a budget that does not exceed the state General Fund expenditure limitation. The Governor in submitting the budget and the General Assembly in passing a budget, shall not have recurring expenditures in excess of recurring revenues. The Governor shall not submit and the General Assembly shall not pass a budget which in order to balance assumes reversion of a specific amount of the total of the appropriations included in the budget.

Reserve Funds

The *Iowa Economic Emergency Fund* was created in Iowa Code section 8.55. The fund is separate from the General Fund of the state and the balance in the fund is not to be considered part of the balance of the General Fund of the state. The moneys in the fund do not revert to the General Fund, unless and to the extent the fund exceeds the maximum balance. The maximum balance of the fund is the amount equal to five percent of the adjusted revenue estimate for the fiscal year. If the amount of moneys in the Iowa Economic Emergency Fund is equal to the maximum balance, moneys in excess of this amount shall be transferred to the General Fund. The moneys in this fund may be appropriated by the General Assembly only in the fiscal year for which the appropriation is made. The moneys shall only be appropriated by the General Assembly for emergency expenditures. However, except as provided in section 8.58, the balance in the Iowa Economic Emergency Fund may be used in determining the cash position of the General Fund of the state for the payment of state obligations. Interest or earnings on moneys deposited in the Iowa Economic Emergency Fund are credited to the Rebuild Iowa Infrastructure Fund.

The Cash Reserve Fund was created in Iowa Code section 8.56. The fund is separate from the General Fund of the state and is not considered to be part of the General Fund of the state except in determining the cash position of the state. The moneys in the Cash Reserve Fund can not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided under Iowa Code section 8.56. Interest or earnings on moneys deposited in the Cash Reserve Fund are credited to the Rebuild Iowa Infrastructure Fund. Moneys in this fund may be used for cash flow purposes provided that any moneys so allocated are returned to the Cash Reserve Fund by the end of each fiscal year. The maximum balance of the fund is equal to the cash reserve goal percentage, multiplied by the adjusted revenue estimate for the General Fund of the state for the current fiscal year. The moneys in this fund may only be appropriated by the General Assembly for nonrecurring emergency expenditures and shall not be appropriated for payment of any collective bargaining agreement or arbitrator's decision negotiated or awarded. The balance in the Cash Reserve Fund may be used in determining the cash position of the General Fund of the state for payment of state obligations. An appropriation shall not be made from the Cash Reserve Fund if the appropriation would cause the fund's balance to be less than three percent of the adjusted revenue estimate for the year for which the appropriation is made unless the bill or joint resolution is approved by vote of at least three-fifths of the members of both chambers of the General Assembly and is signed by the Governor. Also, the appropriation must be contained in a bill or joint resolution in which the appropriation is the only subject matter of the bill or joint resolution, and the bill or joint resolution states the reasons the appropriation is necessary.

For the Year Ended June 30, 2003 (Expressed in Thousands)

Iowa Judicial Retirement System

ACTUARIAL VALUATION DATE	VALUATION VALUE OF ACCRUED		UNFUNDED ACTUARIAL ACCRUED LIABILITY (UAAL)	FUNDED RATIO	COVERED PAYROLL	UAAL AS A PERCENTAGE OF COVERED PAYROLL	
July 1, 2001	\$	72,375	87,800	15,425	82.43%	19,896	77.53%
July 1, 2002		67,707	88,051	20,344	76.90%	19,878	102.34%
July 1, 2003		70,018	93,561	23,543	74.84%	20,712	113.67%

The increase in unfunded AAL for the July 1, 2003 valuation was primarily due to a lower than expected rate of return on investments. Also, the State's contribution to the system decreased from 15.9% for the year ended June 30, 2002 to 9.9% for the year ended June 30, 2003.

Peace Officers' Retirement, Accident and Disability System

				UNFUNDED			UAAL AS A
ACTUARIAL VALUATION DATE	V	CTUARIAL ALUE OF SSETS**	ACTUARIAL ACCRUED LIABILITY*	ACTUARIAL ACCRUED LIABILITY (UAAL)	FUNDED RATIO	COVERED PAYROLL	PERCENTAGE OF COVERED PAYROLL
July 1, 2001	\$	249,227	263,002	13,775	94.76%	30,925	44.54%
July 1, 2002		250,914	294,514	43,600	85.19%	32,154	135.60%
July 2, 2003		246,443	306,098	59,655	80.51%	33,019	180.67%

^{*} This amount is based on the Projected Unit Credit Method. The Aggregate Cost Method is used to determine the required contribution. This is provided for informational purposes only.

The increase in unfunded AAL for the July 1, 2003 valuation was primarily due to the lower than expected rate of return on investments.

Pension Trust funds are discussed in detail in the Notes to the Financial Statements (NOTE 18 – PENSION PLANS.)

^{**} As permitted by the Code of Iowa, effective July 1, 2001 and beginning with the July 1, 2001 valuation, a smoothing method was adopted by the board of trustees to determine the actuarial (market related) value of assets. The smoothing method is designed to reduce changes in the normal contribution rate which could result from fluctuations in the market value of the assets of the system. Prior to this, market value was used.

COMBINING FINANCIAL STATEMENTS

Nonmajor Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Grow Iowa Fund receives federal receipts under the federal Jobs and Growth Tax Relief Reconciliation Act of 2003 to be used as provided in the federal law.

Endowment for Iowa's Health Fund receives net proceeds of any taxable or tax-exempt bonds for the purposes specified in Iowa Code Section 12.65, the portion of the State's share which is not sold to the Tobacco Settlement Authority, and any other appropriated moneys that shall be used for the purposes specified in Iowa Code Section 12.65.

College Aid Federal Reserve Fund receives guarantee fees, interest and overpayments and repurchases of claim payments to be used for payment of default claims to lenders and default aversion fees to the Guaranty Agency Operating fund.

Iowa Public Television Foundation is a non-profit corporation that solicits and manages gifts of money and property for Iowa Public Television.

Other Special Revenue Funds, are aggregated for reporting purposes, and account for various other revenues which must be used for specific purposes.

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for the construction of major capital facilities other than those financed by proprietary funds and trust funds.

General Services Capitals Fund is used to account for various building projects.

Recreational Trails Development Fund is used to account for the acquisition and construction of recreational trails within the State.

Motor Vehicle Fuel Tax Capitals Fund is used to account for the acquisition of water access, development project, water safety stations, marinas, and any other project which improves water recreation.

Fish and Game Capitals Fund is used to account for land acquisition and capital projects related to fish and wildlife.

Other Capital Projects Funds, are aggregated for reporting purposes, account for construction of various armories, prison expansion programs, and other specific projects.

Nonmajor Permanent Funds

Permanent Funds report resources that are legally restricted to the extent that only earnings, and not principal, may be used for the benefit of the government or its citizens.

Henry Albert Trust Fund accounts for trust money for the Department of Public Health and transfers the applicable interest to the Department.

Permanent School Principal Fund accounts for the principal derived from the sale of specific land. The interest is to be used for educational purposes.

Pilot Grove Trust Fund accounts for a \$10,000 donation in support and maintenance of the Pilot Grove area.

Iowa Public Television Foundation Endowment is used to hold a restricted gift made to Iowa Public Television. While the corpus of the gift is not available to spend, the earnings of the gift are restricted for the acquisition and/or production of quality family programming. Earnings are transferred to the Iowa Public Television Foundation.

Nonmajor Enterprise Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the State is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where the State has decided that a periodic determination of net income is appropriate for accountability purposes.

Iowa Communications Network accounts for a statewide telecommunications system and its related revenues and expenditures.

Iowa Lottery is used to account for lottery revenues, administrative and operating expenses of the Lottery division, and the distribution of revenue to the General Fund.

Iowa State Prison Industries Fund accounts for the revenues and expenses related to the sale of products made by the various prison industries.

Liquor Control Act Fund is used to account for the revenues and expenses related to the sale of alcoholic beverages.

Other Enterprise Funds, are aggregated for reporting purposes, account for other miscellaneous activities that meet the definition of Enterprise funds.

Internal Service Funds

Internal Service funds account for State activities that provide goods and services to other State departments or agencies on a cost reimbursement basis.

Workers' Compensation Fund receives funds associated with the Workers' compensation program to pay claims and administrative support costs.

Materials and Equipment Revolving Fund accounts for the purchase, repair, maintenance, and replacement of equipment, machinery, and supplies used by the Department of Transportation.

Depreciation Revolving receives monthly depreciation payments from State departments owning vehicles. The money is used to purchase replacement vehicles for the departments.

Innovations Fund provides loans to state departments for the purpose of stimulating and encouraging innovation in state government.

Other Internal Service Funds, are aggregated for reporting purposes, account for other miscellaneous activities that meet the definition of Internal Service Funds.

Private Purpose Trust Funds

Private Purpose Trust Funds are used to report trust arrangements under which principal and income benefit individuals, private organizations or other governments.

Iowa Educational Savings Plan Trust receives contributions from participants for investment for future application towards payment of higher education costs for designated beneficiaries.

Veterans Affairs Fund receives donations, fund raising receipts to be spent for the benefit of the Veteran residents.

Health Organization Insolvency has received a \$10,000 remittance from each established HMO and LSO per law. This nonrefundable fund is invested to cover the cost of administration if an HMO or LSO declares bankruptcy.

Wagner Award received a bequest by Ruth Wagner to present an annual recognition to the outstanding soil district commissioner who is 40 years or younger to be presented each year at the annual state conference.

Braille and Sight Saving School receives donations and contributions to be spent for the benefit of the students.

Agency Funds

Agency funds account for the receipt and disbursement of various taxes, deposits, deductions, and property collected by the State, acting in the capacity of an agent, for distribution to other governmental units or organizations.

Local Sales & Services Tax is used to account for local option sales taxes collected by retailers and deposited with the State. The taxes are then distributed back to the counties which have jurisdictions imposing local option sales tax.

Centralized Payroll Trustee is used to account for accumulation of all voluntary and discretionary payroll deductions from the centralized payroll process.

Judicial-Clerks of District Court act as a collecting agency for many fees and taxes that are then distributed to the proper local government or recipient.

School District Surtax Clearing Fund collects and distributes surtax to the school districts according to the surtax formula set by the districts.

Other Agency Funds, are aggregated for reporting purposes, represent amounts held for inmates and residents of State institutions, miscellaneous clearing accounts, and other deposits.
