Debt Service Funds

Fund Description

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, long term debt principal and interest. This debt is funded by specific source receipts (i.e. toll bridge receipts).

Enterprise Funds

Fund Description

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the

governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges. And where the governing body has decided that periodic determination of revenue earned, expenses incurred, and/or net income is appropriate.

Agency Funds

Fund Description

These are trust funds used to account for assets held by a governmental unit in a trustee capacity or as an

agent for individuals, private organizations or other governmental units. These funds are usually held only until the funds can be dispersed to the appropriate individuals, private organizations or other governmental units.
