Nursing Facilities

?Nursing Facilities? are institutions or distinct parts of institutions housing three or more individuals for a period exceeding 24 consecutive hours, whose primary purpose is to provide health-related care and services, including rehabilitation, for individuals who because of mental or physical condition, require nursing care and other services in addition to room and board. Nursing facilities do not engage primarily in providing treatment or care for mental illness or mental retardation.

Hospital-Based (Distinct-Part) Skilled Nursing Facility Units

The term "distinct-part" denotes the unit is organized and operated to give a distinct type of care within a larger organization which renders other types of levels of care. Distinct denotes both organizational and physical separateness. A distinct-part skilled nursing facility unit, skilled nursing facility/nursing facility unit, or nursing facility unit must be physically identifiable and be operated distinguishably from the rest of the skilled nursing facility unit, skilled nursing facility/nursing facility unit, or nursing facility unit beds of the institution. It must consist of all the beds within the unit, such as a separate building, floor, wing or ward. Several rooms at one end of a hall or one side of a corridor may be acceptable as a distinct part of a skilled nursing facility unit, skilled nursing facility/nursing facility unit, or nursing facility unit.

Residential Care Facilities for the Mentally Retarded and Specialized 3-5 Bed Facilities (RCF/MRs)

?Residential Care Facilities for the Mentally Retarded? provide accommodation, board, personal assistance, essential activities of daily living and habilitation services to three or more individuals with mental retardation. Residents of a Residential Care Facility for the Mentally Retarded are unable to sufficiently or properly care for themselves, but do not require the services of a registered or licensed practical nurse.

The specialized license is for Residential Care Facilities which serve persons with mental retardation, chronic mental illness and other developmental disabilities having five or fewer residents as specified in Iowa Code section 225C.26. The facility is exempt from Iowa Code section 135.63.

Residential Care Facilities (RCFs)

?Residential Care Facilities? are institutions, places, buildings, or agencies providing accommodation, board, personal assistance and other essential daily living activities for a period exceeding 24 consecutive hours. Individuals living in a residential care facility are unable to sufficiently or properly care for themselves because of illness, disease, or physical or mental infirmity, but do not require the services of a registered or licensed practical nurse, except for emergencies.

[Definition is found in Iowa Code chapter 135C.]

Residential Care Facilities for Persons with Mental Illness (RCF/PMIs)

?Residential Care Facilities for Persons with Mental Illness? provide accommodation, board, personal assistance and other essential daily living activities to three or more individuals for a period exceeding 24 hours. Clients must be able to sufficiently or properly care for themselves, but do not require the services of a registered or licensed practical nurse. These facilities emphasize individualized program planning in an aggressive effort to assist clients to a more independent way of life.

?Hospital? means any place which is devoted primarily to the maintenance of facilities for the diagnosis treatment or care of two or more non-related individuals suffering from illness, injury or deformity for a period exceeding 24 hours. It is also a place which is devoted primarily to the rendering of obstetrical or other medical/nursing care for two or more non-related individuals for a period exceeding 24 hours. It can be any institution, place, building or agency in which any accommodation is primarily maintained, furnished or offered for the care of two or more non-related aged or infirmed persons requiring or receiving chronic or convalescent care for a period exceeding 24 hours. Hospitals shall include sanitariums or other related institutions within the meaning of the federal Hill-Burton Act. A hospital shall include, in any event, any facilities wholly or partially constructed, or to be constructed with federal assistance pursuant to Public Law 725, 79th Congress, approved August 13, 1946.

There are two types of accreditation of hospitals. According to Title 42 in the Code of Federal Regulations, institutions which are surveyed and accredited as hospitals by The Joint Commission or the American Osteopathic Association are deemed to meet all of the Medicare Conditions of Participation for hospitals except the requirement for the provision of active treatment in psychiatric hospitals.

Non-accredited hospitals in Iowa are surveyed by the Iowa Department of Inspections and Appeals to determine compliance with the Medicare Conditions of Participation. [Definition is found in Title 42 in the Code of Federal Regulations and Iowa Code chapter 135B.]

'Hospital' means any place which is devoted primarily to the maintenance of facilities for the diagnosis treatment or care of two or more non-related individuals suffering from illness, injury or deformity for a period exceeding 24 hours. It is also a place which is devoted primarily to the rendering of obstetrical or other medical/nursing care for two or more non-related individuals for a period exceeding 24 hours.

It can be any institution, place, building or agency in which any accommodation is primarily maintained, furnished or offered for the care of two or more non-related aged or infirmed persons requiring or receiving chronic or convalescent care for a period exceeding 24 hours.

Hospitals shall include sanitariums or other related institutions within the meaning of the federal Hill-Burton Act. A hospital shall include, in any event, any facilities wholly or partially constructed, or to constructed with federal assistance pursuant to Public Law 725, 79th Congress, approved August 13, 1946

Critical Access Hospital certification in the Medicare program and licensure as a Critical Access Hospital requires that:

The hospital be located in an area defined as rural.

The hospital be designated by the Iowa Department of Public Health as an essential provider of services.

Operates no more than 25 beds, which can be used interchangeable for acute care or swing-bed services.

Average length of stay is 96 hours or less.

Agreement with a network hospital.

Definition is found in Title 42 in the Code of Federal Regulations and 135B of the Iowa Administrative Code.

HOSPICE

Hospices

?Hospice? care is an alternative way of caring for terminally ill individuals which stresses palliative care (medical relief of pain) as opposed to curative or restorative care. Hospice care is not limited to medical aspects, but addresses all physical, psychological and spiritual needs of the patient and emotional needs of the patient?s family. The emphasis of the hospice program is in keeping the hospice patient at home with his or her family and friends as much as possible.

[Definition is found in Title 42 in the Code of Federal Regulations and Iowa Code chapter 135J. Hospice licensure is a voluntary licensure program.]

ASC

Ambulatory Surgical Centers (ASCs)

An ?ambulatory surgical center? is any distinct entity which operates exclusively for the purpose of providing surgical services to patients not requiring hospitalization (i.e., an inpatient stay in a hospital). The ambulatory surgical center may share common space with another function only if the space is never used by the other party during the scheduled hours of ambulatory surgical center operation. The operating room(s) and recover room(s) are to be used only for patients having surgery.

[Definition is found in Title 42 in the Code of Federal Regulations.]

ESRD

End-Stage Renal Disease Facilities (ESRDs)

Types of End-Stage Renal Disease Facilities:

A renal transplantation center is a hospital unit approved to directly provide transplantation and other medical and surgical specialty services required for the care of end-stage renal disease transplant patients, including in-patient dialysis provide directly or under arrangement. A renal transplantation center may also be a renal dialysis center.

A renal dialysis center is a hospital unit approved to provide the full spectrum of diagnostic, therapeutic and rehabilitative services required for the care of end-stage renal disease dialysis patients (including in-patient dialysis furnished directly or under arrangement). A hospital need not provide renal transplantation to qualify as a renal dialysis.

A renal dialysis facility is approved to provide out-patient dialysis service(s) directly to end-stage renal disease patients.

HOSPITAL-SWB

Hospitals with Swing Beds

A swing-bed hospital is a hospital which has a Medicare provider agreement and meets the following requirements to be granted approval from the Centers for Medicare & Medicaid Services of the U.S. Department of Health and Human Services to provide post-hospital extended care services.

- 1. The hospital must have fewer than 100 hospital beds, excluding beds for newborns; intensive-care beds; certified nursing facility/skilled nursing facility distinct parts; and distinct-part psychiatric and rehabilitation units excluded from the Medicare prospective payment plan.**
- 2. Hospitals with 50-99 hospital beds must have transfer agreements with all skilled nursing facilities within 50-mile radius of the hospital.**
- 3. The hospital must be relocated in a rural area. Rural areas are all areas not delineated as urban by the U.S. Census Bureau, based on the most recent census.**
- 4. The hospital has not had swing-bed approval terminated within the two years previous to application.**
- 5. The hospital is substantially in compliance with the following skilled nursing facility requirements:**
 - a. Resident rights;**
 - b. Admission, transfer, and discharge rights;**
 - c. Resident behavior and facility practice;**
 - d. Patient activities;**
 - e. Social services;**
 - f. Discharge planning;**
 - g. Specialized rehabilitation services; and**
 - h. Dental services.**

CLIA

Laboratories Covered under the Federal Clinical Laboratory Improvement Amendments of 1988

Laboratory means a facility for the biological, microbiological, serological, chemical, immunochematological, hematological, bio-physical, cytological, pathological or other examination of material derived from the human body to provide information for the diagnosis, prevention or treatment of any disease or impairment of, or for the assessment of the health of, human beings. These examinations include procedures to determine, measure or otherwise describe the presence or absence of various substances or organisms in the body. Facilities only collecting or preparing specimens (or both) or only serving as a mailing service and not performing testing are not considered laboratories.
