Executive Summary

There are 19,726 full-time employees who work for the State of Iowa Executive Branch (excluding Fair Authority, Community-Based Corrections, and the Regents employees). These employees are undoubtedly the most valuable resource for providing timely and quality services to Iowans. To strategically manage this resource, state departments and policymakers must have thorough and accurate information.

The information in "Just the Facts for 2006" is a snapshot of the workforce, collected, compiled, and presented in a format that will aid agencies and decision makers in strategic planning. In many cases, data cover a number of years and are presented to give the reader a sense of trends.

While the Department of Administrative Services, Human Resource Enterprise (DAS/HRE) wants to present data in its purest form so readers can draw their own conclusions, we also have a responsibility to clarify anything that may be confusing or misleading. It is important to highlight workforce trends and explain their significance to the work of lowa state government. The following chapter summaries are intended to do that.

Chapter 1: Employees

The Executive Branch is the largest employer in the state when all agencies and the Regents institutions are combined. It is the third largest employer in lowa when the Regents are not included.

Over half of the full-time workforce is in the departments of Human Services (28%), Transportation (16%), and Corrections (15%). Over one-third of the Executive Branch workforce is in Polk County and over one-third of the full-time workforce is classified as Professional.

The number of full-time employees* has increased a total of 1.0% from fiscal year 1999 to the end of FY 2006. Over the past 2 years the number of employees has increased 1.0%.

* This does not include the Fair Authority, Community-Based Corrections, and Regents employees.

Chapter 2: Salaries

The annual base salary has increased a total of 35.6% since FY 1999, an average of about 5.1% a year. The average annual base salary of state employees in FY 2006 was \$48,605 or \$23.37 per hour.

It is useful to compare salaries paid to Executive Branch employees with salaries paid by other employers. Because the work of government is primarily knowledge-based, many jobs require at least a college education, while others require post-graduate degrees. According to the U.S.

Census Bureau, average earnings in 2005 for individuals who hold a Bachelor's degree was \$51,206 annually, while individuals with an advanced degree earned \$74,602 a year.

Since the first "Just the Facts" in FY 2000, Reassignment, Recruitment, Retention and Performance bonuses have been drastically reduced. From FY 2000 to FY 2006, the total for these bonus pay expenditures have been reduced by 39.0% across all Executive Branch Departments.

Overtime has also been reduced. Executive Branch employees earned 81,821.8 days of overtime in Fiscal Year 2006, valued at \$19,264,175. Of the 81,821.8 days of overtime worked, 85.1% of these days were worked in three departments, Human Services, Transportation, and Corrections. From FY 2000 to FY 2006, overtime has been reduced by 31.6% across all Executive Branch Departments. In FY 2000, the average amount of overtime worked for employees in Human Services, Transportation, and Corrections, when aggregated, was 8.66 days per state employee. In FY 2006, the number of days per employee has dropped to 6.03 days.

Chapter 3: Equal Employment

The State of Iowa is committed to equal opportunity in employment and ensuring that employment practices are nondiscriminatory. The state workforce continues to represent females and minorities in most EEO categories at rates greater than the relevant labor market. The State's workforce overall has not completely kept pace with the increasing diversity in Iowa, based on the 2000 labor force reported in the U.S. Census. Females represent 50.3% of the State's workforce compared to 47.4% in the statewide labor force. Minorities make up 5.2% of the State's workforce while their representation in the statewide labor force is now 6.0%. The representation of persons with disabilities in the State's workforce is 6.6% and is less than the 11.8% in the statewide labor force rate. Over a third of both female and racial/ethnic minority employees are found in professional job classes.

In the future, the State will need to explore a more diverse range of sources for applicants and methods of retention in order to remain competitive in the recruitment marketplace. Eighty-five percent of the net growth of the nation's labor force during the 1990s came from people of color, immigrants, and women. The U.S. Census Bureau projects that racial/ethnic minorities will make up 8.8% of lowa's population by 2025.

Persons with disabilities also represent a relatively untapped source of labor. Thirty-seven percent of persons with a disability ages 16 – 64 in the U.S. are unemployed. In lowa, this would mean approximately 100,000 lowans.

The aging of the baby boomers may also result in a new labor pool to be tapped. While there will be a greater number of workers retiring, and retiring earlier, this is likely to increase the number of people interested in part-time employment and second careers.

Chapter 4: Leave

Employees earned 434,004.3 days of vacation with a value of \$77,184,145.28 and took 400,232.0 days of vacation valued at \$71,313,758.40. This is approximately 20.29* vacation days taken per full-time employee.

Employees used 164,792.4 days of regular sick leave, valued at \$28,694,944.35, during FY 2006. This is about 8.23 days per full-time and part-time employee. This was less than half of

the total 363,285.6 days of total sick leave earned, valued at \$62,072,102.31.

Chapter 5: Benefits

Health care costs and utilization continue to rise nationwide, and employees continue to ask for more flexibility in the benefits they receive. Just over 30% of health contract holders in the Executive Branch were in Wellmark's Program 3 Plus health plan. The employee premium share of family coverage for this plan has risen approximately 64% since FY 1997. The employer premium share of family coverage for this plan has more than tripled during the same period.

Chapter 6: Employee Mobility

Many factors affect employee mobility: growth or decline in the number of state jobs, the availability of funding, the dynamics of state programs, types of occupations, geographical location of jobs, the characteristics of state employees themselves, external labor market conditions, and the availability of other employment.

The Executive Branch new hire rate has decreased from 10.6% in FY 1999 to 7.7% in FY 2006. The Executive Branch turnover rate has decreased from 7.3% in FY 1999 to 5.2% in FY 2006. By comparison, according to data attained from the U.S. Department of Labor, turnover rates for the U.S., from September 2003 to August 2004 stand at 20.2%. In contrast to this number, state and local government turnover for the same period of time is 7.0%.

A five-year average shows that over 48% of employees who voluntarily left the Executive Branch were with the State for less than three years. This, along with the fact that by FY 2011, it has been estimated that over 26% of the current workforce will have reached retirement eligibility, makes it imperative that workforce planning be a part of the strategic planning process.

Chapter 7: Age & Years of Service

The State's workforce continues to age. During the past five years, the number of employees in the 55-59 age group increased over 41%, while the number of employees in the 25-29 age group has remained relatively flat, with an increase of .01%. At the end of FY 2006, the average age of the 19,726 full-time permanent employees working in the Executive Branch was 46.70 years and the average time worked for the State was 14.15 years. These figures are generally comparable when broken down by gender and racial/ethnic minority status. Again, findings support the need for departments to strategically plan for the future. Just slightly more than 60% of the workforce generally, and more than 75% of supervisors, are over 45 years of age.

Chapter 8: Collective Bargaining

The majority (64.9%) of the 19,726 full-time permanent Executive Branch employees are in positions covered by the American Federation of State, County, and Municipal Employees (AFSCME), Iowa Council 61. Employees covered by the AFSCME collective bargaining agreement earn an average annual salary of \$43,709 (up 38.6% from FY 1999). Employees covered by the State Police Officers Council (SPOC) collective bargaining agreement earn an average annual salary of \$50,559 (up 28.7% from FY 1999). Employees covered by the United Electrical Local 893/lowa United Professional (UE/IUP) collective bargaining agreement earn an average annual salary of \$45,918 (up 29.2% from FY 1999).

Employees covered by the AFSCME collective bargaining agreement are, on average, 47.04 years old and have been employed in the Executive Branch for 13.85 years. Employees

covered by the SPOC collective bargaining agreement are, on average, 38.17 years old and have been employed in the Executive Branch for 12.78 years. Employees covered by the UE/IUP collective bargaining agreement are, on average, 44.80 years old and have been employed in the Executive Branch for 13.11 years.

Conclusion

DAS/HRE publishes "Just the Facts 2006," an almanac on the Executive Branch workforce, for two primary reasons. First, to assist state decision makers in preparing for the future. Thorough strategic planning is requisite to state government's future ability to provide quality products and services. Second, the almanac is intended to function as an historical source of workforce data that can be used for comparative purposes as the workforce continues to change.

The information in this almanac represents a static snapshot of our greatest resource – our employees. However, the workforce is fluid and constantly changing. Continuous workforce planning and management of our human capital are essential to future success.

Equal Employment Opportunity

The State of Iowa is committed to equal employment opportunity and ensuring that the State's employment practices are nondiscriminatory. As shown by the figures below, the State's workforce percentages for females are greater than lowa's available labor force based on 2000 U.S. Census information. However, as a result of the new census data, the statewide labor force for Minorities now exceeds the State's workforce. Based on the increase in the available number of racial/ethnic minorities in the state over the last decade, the State is instituting initiatives to fully utilize the labor force diversity. This section shows that:

Executive Branch full-time female employees now make up 50.3% of the workforce compared to 48.6% in Fiscal Year 1998.

Executive Branch full-time racial/ethnic minority employees now make up 5.2% of the workforce compared to 5.1% in Fiscal Year 1998.

Executive Branch full-time employees with disabilities now make up 6.6% of the workforce compared to 4.5% in Fiscal Year 1998.

- Twenty-nine percent of all full-time Executive Branch male employees are assigned to EEO-4 Category 2 (Professionals)*.
- Forty percent of all full-time Executive Branch female employees are assigned to EEO-4 Category 2 (Professionals)*.
- Thirty-four percent of all full-time Executive Branch non-minority employees are assigned to EEO-4 Category 2 (Professionals)*.
- Forty percent of all full-time Executive Branch minority employees are assigned to EEO-4 Category 2 (Professionals)*.

EEO-4 Category - The Equal Employment Opportunity occupational category to which a given job class is assigned. There are eight distinct categories.

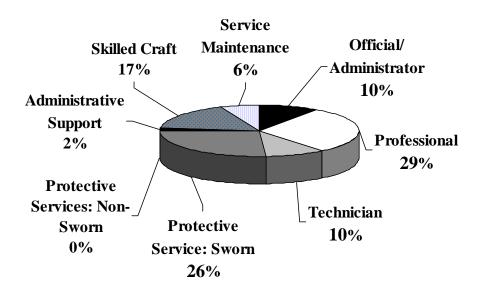

NOTE: With the beginning of FY06, the State's analysis of underutilization calculations started using the 2000 U.S. Census labor force data. One of the revisions necessitated by this change was that the labor force data was mapped to revised EEO categories. When the Equal Employment Opportunity Commission revised its EEO-4 (State and Local Government) Categories, it eliminated the Paraprofessional category and revised the Protective Services Category to include Sworn and Non-Sworn. The result is that the FY06 workforce count shows no employees in the Paraprofessional category.

NOTE: By definition, elected officials are not included in EEO-4 Category groupings. This accounts for the difference in total full-time employees

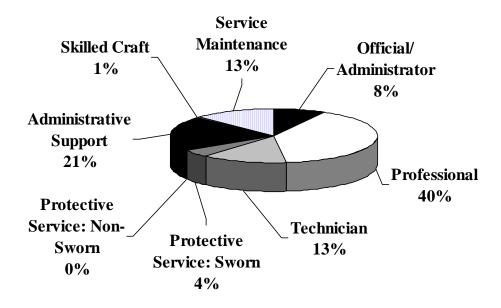

-Does not include Fair Authority, Community-Based Corrections, or Regents employees.

Employee Mobility

Many factors affect employee mobility: growth or decline in the number of state jobs, the availability of funding, dynamics of state programs, types of occupations, geographical location of jobs, characteristics of state employees themselves, external labor market conditions, and the availability of other employment. This section shows that:

- Over 45% of the Executive Branch full-time workforce is employed in 25 job classes. There are over 700 job classes.
- Of the 1,502 non-promotional hires in Fiscal Year 2006, 63.9% were in 25 job classes.
- The Executive Branch new hire rate (the percentage of non-promotional hires to total workforce) has decreased from 10.6% in FY '99 to 7.6% in FY '06.
- Of the 1,012 employees who left Executive Branch employment in Fiscal Year 2006, 56.3% were in 25 job classes.
- The Executive Branch separation rate (the percentage of individuals who left Executive Branch employment to total workforce) decreased from 7.3% in Fiscal Year 1999 to 5.2% in Fiscal Year 2006.
- A five-year average of separations shows that over 48.2% of employees who voluntarily left Executive Branch employment were employed with the State less than 3 years.
