The Iowa Department of Public Safety gratefully acknowledges the state and local law enforcement agencies who have made every effort to comply by Chapter 692.15 of the Code of Iowa which charges them with the responsibility of reporting crimes to the Department.

A special note of thanks is also extended to those persons who process the crime reports at the sheriffs' offices, police departments and state university departments of public safety across the state. Without their diligence and hard work, there would be no crime report.

CONGRATULATIONS

TO THOSE LAW ENFORCEMENT AGENCIES THAT HAVE PARTICIPATED IN

IBR

SUMMARY

OFFENSES CONVERTED TO SUMMARY BASED REPORTING

SERIOUS CRIMES: the rate decreased 6.6 percent from 3,669 crimes per 100,000 population in 2002 to the adjusted rate of 3,427 crimes per 100,000 population in 2003. Also known as the **Crime Index**, serious crimes include the violent crimes of murder, forcible rape, robbery and aggravated assault and the property crimes of burglary, larceny and motor vehicle theft.

VIOLENT CRIMES: decreased 5.2 percent from 2002 to 2003, violent crimes dropped from an adjusted rate of 313.8 crimes per 100,000 population reported in 2002 to 297.4 crimes per 100,000 population in 2003.

PROPERTY CRIMES: decreased 6.7 percent from an adjusted rate of 3,355 crimes per 100,000 population in 2002 to 3,131 crimes reported in 2003.

INCIDENT BASED REPORTING

TOTAL GROUP A CRIMES: the 2003 adjusted rate of 6,846 offenses per 100,000 population was a decrease of 5.0 percent from the 2002 rates of 7,209 offenses per 100,000 population. The Group A crimes includes the crimes against persons, property and society.

CRIMES AGAINST PERSONS: the 2003 adjusted rate of 1170 was 5.1 percent lower than the 2002 rate of 1,232 and 7.6 percent lower than the 2000 rate of 1,266 offenses per 100,000 population.

MURDER: decreased twelve percent from 58 victims reported in 2000 to 51 victims in 2003. A low of 44 victims was reported in 1992, a decade high of 66 victims was reported in 1996 and 1998.

FORCIBLE RAPE: victims decreased 6 percent from 810 reported in 2002 to 761 reported in 2003. Over two-thirds (70.8%) of the victims knew their attacker.

FORCIBLE FONDLING: decreasing 2.7 percent in 2003 from 962 victims reported in 2002 to 936 victims in 2003, the decrease from the 997 victims reported in 2001 is 6.1 percent. However, the number of reported fondling victims increased 4 straight years between 1997 and 2001.

AGGRAVATED ASSAULT: decreased 4.5 percent from 6,399 victims reported in 2002 to 6,108 victims in 2003. This is the first year that victims of aggravated assault decreased after increasing for three straight years (1999 to 2002).

SIMPLE ASSAULT: decreased 3.8 percent from 20,614 victims reported in 2002 to 19,823 victims reported in 2003. The last year there were fewer than 20,000 reported victims was in 1999.

INTIMIDATION: victims decreased for the first time since 1998 from 6.9 percent from 3,584 reported in 2002 to 3,336 reported in 2003. The last peak year was in 1997 when 3,245 victims were reported.

Stalking: In 2003, 42 victims were reported in 41 incidents; there were 50 victims reported in 47 2002 incidents and 57 victims in 53 incidents in 2001. The stalker was identified as a stranger in only 2 percent of the 2002 incidents but in 12 percent of the 2003 incidents.

OTHER CRIMES AGAINST PERSONS ARE: sexual assault with an object, negligent manslaughter, kidnapping, forcible sodomy, incest and statutory rape.

CRIMES AGAINST PROPERTY: driven by burglary and larceny, adjusted rate decreased 5.6 percent from 5,302 crimes per 100,000 population in 2002 to 5,002 crimes in 2003.

ROBBERY: decreased from an adjusted rate of 44.2 crimes per 100,000 population in 2001 to 41.9 crimes per 100,000 population in 2003 (a decade low).

BURGLARY: number and adjusted rate decreased approximately 6 percent between 2002 and 2003. The dollar value also decreased by \$1,467,906 or 8.6% from \$18,549,873.00 reported in 2002 to \$17,081,906.00 reported in 2003.

LARCENY: adjusted rate decreased 6.9 percent from 2,541 offenses per 100,000 population in 2002 to 2,366 offenses in 2003. However, the dollar value decreased approximately 50 percent from \$67,700,820 reported in 2001 to \$33,491,585 reported in 2003 (a similar dollar value to 2000 and 2002).

MOTOR VEHICLE THEFT: dollar value of thefts decreased 4.4 percent (\$1,417,613.) with incidents decreasing 4.6 percent (274 incidents) from 2002 to 2003. Also, the dollar value recovered has been approximately 2/3 of the value lost in 2001, 2002 and 2003.

OTHER CRIMES AGAINST PROPERTY ARE: arson, counterfeiting/forgery, vandalism, embezzlement, blackmail, fraud and stolen property.

CRIMES AGAINST SOCIETY: driven by drug equipment and prostitution offenses, adjusted rate increased negligibly from 674.1 incidents per 100,000 population in 2002 to 674.5 incidents in 2003.

DRUG Offenses: decreased slightly (less than 1 percent) for the first time in almost a decade. The adjusted rate decreased from the 2002 figure of 406.5 offenses to 405.6 offenses per 100,000 population in 2003. Specifically, the drug offense rate increased over 10 percent between 1995/1996, 1996/1997 and 2001/2002, 5.5 percent between 1997/1998, 3.0 and 3.8 percent between 1998/1999 and 1999/2000 and 1.8 percent in between 2000 and 2001.

OTHER CRIMES AGAINST SOCIETY ARE: gambling offenses, obscene material and weapons law violations.

ARRESTS: reporting of Total Group A and B arrests increased (10.2%) between 2001 and 2002 and (3.2%) from 2002 to 2003. After declining in both rate and numbers for three years, total juvenile arrests also increased in both rate (9%) and numbers (5%) between 2001 and 2002 and again in both rate (2.4%) and number (1%) between 2002 and 2003. Group A crimes include the serious crimes as well as fraud and drug offenses.

HATE CRIMES: decreased from 48 victims reported in 2002 to 38 victims reported in 2003. Sixteen of the 38 incidents were classified as anti-African American (42%). A business was identified as the victims 11 times in 2002 but only once in 2003.

DOMESTIC ABUSE: decreased 3 percent from 7,607 victims in 2002 to 7,431 victims in 2003. The charges ranged from trespass to burglary with most being arrested for simple assault, 4,995 arrests. Arrests accounted for 73 percent of the 2002 and 2003 incidents up from 69 percent of the 2001 incidents.

INTRODUCTION

Historical Perspective

In 1974, the 65th Iowa General Assembly enacted a provision of Chapter 749 B of the *Code of Iowa* requiring law enforcement agencies to submit reports of crime and arrests to the Bureau of Criminal Investigation. The following language now is contained in section 692.15 of the *Code of Iowa* concerning Uniform Crime Reports:

If it comes to the attention of a sheriff, police department or other law enforcement agency that a public offense or delinquent act has been committed in its jurisdiction, the law enforcement agency shall report information concerning the public offense or delinquent act to the department on a form to be furnished by the department not more than thirty-five days from the time the public offense first comes to the attention of the law enforcement agency. The reports shall be used to generate crime statistics. The department shall submit statistics to the governor, the general assembly, and the division of criminal and juvenile justice planning of the department of human rights on a quarterly and yearly basis.

During December, 1974 the Bureau of Criminal Investigation conducted schools throughout the state on the proper completion of Uniform Crime Reports. The schools were attended by most of the law enforcement agencies that were to contribute Uniform Crime Reports. On January 1, 1975, the Iowa Uniform Crime Reporting program was implemented, with forms being sent to 210 agencies. Forms provided by the Federal Bureau of Investigation were used in implementing this program since most contributing agencies had previously submitted their forms to the FBI. Monthly reports were received from 209 agencies throughout 1975 and 1976. In 1977, the number of agencies submitting reports grew to 220, which remained the case in 1978. In 1979, the number of reporting agencies rose to 223, and in 1980 to 225. The number of reporting agencies were reduced to 223 in 1981 but rose again in 1986 to 224 and to 225 in 1990. With very few exceptions the reporting agencies have submitted data for every month from 1977 to 1990.

In 1977, the responsibility for Uniform Crime Reports was transferred from the Bureau of Criminal Investigation to the Department of Public Safety's Division of Administrative Services (which maintained UCR field personnel in the Field Services Bureau who responded to questions concerning data entry policy and procedures and received raw data from contributing agencies) and the Data Services Bureau (which performed computer analysis of the data). The Research and Development Bureau of the Commissioner's Office performed the function of further analyzing the data, preparing reports, and responding to requests for information based on the data until 1993, when this function too was transferred to the now Program Services Bureau.

The National Uniform Crime Reporting System began with 400 cities representing 20 million inhabitants in 43 states on January 1st, 1930. Since the establishment of the Uniform Crime Reporting Program, the volume, diversity, and complexity of crime steadily increased while the UCR program remained virtually unchanged. Recognizing the increasing need for more in-depth statistical information and the need to improve the methodology used for compiling, analyzing, auditing, and publishing the collected data, an extensive study of the Uniform Crime reports was undertaken. The objective of this study was to meet law enforcement needs into the 21st century. The result of the study was NIBRS (National Incident Based Reporting System). Adoption of the NIBRS system took place in the mid 1980's and Iowa began organizational efforts to implement the system. Conversion to IBR (Incident Based Iowa Uniform Crime Reporting) was completed January 1, 1991, as part of a national effort to implement incident based crime reporting, coordinated by the Federal Bureau of Investigation and the Bureau of Justice Statistics of the U.S. Department of Justice. Iowa was the fifth state in the nation to be accepted as a certified "reporting state" of incident based crime data to the national system.

Incident-Based, Iowa Uniform Crime Reports Overview

The incident-based crime reporting system (IBR) involves collection of data on individual criminal incidents rather than monthly statistical summaries. These individual crime incidents and arrests are submitted in the form of reports using prescribed data elements and data values to describe each incident and arrest. The National Incident-Based Reporting system (NIBRS) compiles the specified information on two types of Offenses: "Group A Offenses" and "Group B Offenses". Both incidents and arrests are reported for Group A offenses while only arrests are reported for Group B offenses.

Group A Offenses

Arson
Assault Offenses
Bribery (Except Sports Bribery)
Burglary/Breaking and Entering
Counterfeiting/Forgery
Destruction/Damage of Property (Except Arson)
Drug/Narcotics Offenses (Except Driving Under the Influence)
Embezzlement
Extortion/Blackmail
Fraud Offenses (Except Counterfeiting/Forgery and Bad Checks)
Gambling Offenses
Homicide Offenses
Kidnapping/Abduction
Larceny/Theft Offenses
Motor Vehicle Theft
Pornography/Obscene Material
Prostitution Offenses
Robbery
Sex Offenses, Forcible
Sex Offenses, Nonforcible
Stolen Property Offenses
Weapon Law Violations

The above 22 Group A crime categories are further divided into 46 offenses. The criteria for deciding whether a crime is to be designated as a Group A offense depends upon:

- The seriousness or significance of the offense
- The frequency or volume of its occurrence
- How widespread is the occurrence of the offense in the United States

- How likely the offense will come to the attention of law enforcement
- Whether law enforcement is the best channel for collecting data regarding the offense
- The burden placed on law enforcement in collecting data regarding the offense
- The statistical validity and usefulness of the collected data
- The National UCR Program's responsibility to make crime data available not only to law enforcement but also to others having a legitimate interest in it.

Group B Offenses

Bad Checks
 Curfew/Loitering/Vagrancy Violations
 Disorderly Conduct
 Driving Under the Influence
 Drunkenness
 Family Offenses (nonviolent)
 Liquor Law Violations
 Peeping Tom
 Runaway
 Trespass of Real Property
 All Other Offenses

More complete definitions of Group A and Group B offenses can be found in Appendix B. These definitions were taken from a federal publication entitled: Uniform Crime Reporting, National Incident-Based Reporting System, Volume 1 Data Collection Guidelines. September, 1996.

The federal definitions of offenses are general definitions. "The definitions which were developed for NIBRS are not meant to be used for charging persons with crimes. To the contrary, they are meant to be "receptacles" or "pigeonholes" for reporting crimes that are committed throughout the United States. The purpose for UCR as developed by law enforcement is to provide a "common denominator" language, which transcends varying local and state laws. State statutes and local ordinances must be very specific in defining crimes so that persons facing prosecution will know the exact charges being placed against them. On the other hand, the definitions used in NIBRS are generic in order not to exclude varying state and Federal statutes relating to the same type of crime."

2003 Incident-Based, Iowa Uniform Crime Reports: Part I Analysis

Contained in the 2003 Incident-Based, Iowa Uniform Crime Reports is the analysis found in Part 1. The narrative for total crimes (Group A and Index), murder, total sexual assaults, forcible rape, forcible sodomy, sexual assault with an object, forcible fondling, robbery, aggravated assault, simple assault, intimidation stalking, burglary, larceny, motor vehicle theft as well as drug violations is found in Section A of Part 1. A short explanation of Group A and B arrests and victim information is also in Section A of Part I. Hate/Bias Crime is found in Section B, Domestic Abuse is found in Section C and Law Enforcement data is found in Section D.

The analysis of the above mentioned crimes includes illustrations in the form of tables and figures to make the analysis more comprehensible. Total incidents, rates per 100,000 population, gender, race, date and time are just a few of the breakdowns found in the analysis of murder, sexual assault, robbery, aggravated assault, simple assault, intimidation, burglary, larceny, motor vehicle theft, the drug violations and arrests. In the special sections, the target of the hate/bias crime is included; a map of domestic abuse incidents by county is included and in the law enforcement section employment information as well as officers killed or assaulted is included. Watch for the 10 year tables showing rates and total of the offenses and arrests. Look online in the drop down boxes of the Chapters.

The rates used in Part 1 of this report are figured on a population basis of those law enforcement jurisdictions reporting more than six months worth of consistent offense data. Adjusted rates are used also for total arrests in the narrative but table rates are figured on the combined population of law enforcement jurisdictions having **any** arrests. It is felt that there is no accurate way to compensate for incomplete reporting of arrest data, particularly juvenile arrest data. (For further discussion on the completeness of this report refer to Appendix A, B or C in the back of this publication and Total Crime in Iowa found in the narrative section.)

- Juveniles are considered all persons less than 18 years of age.
- Rates are figured by dividing the crimes, arrests or etc. by a population and multiplying the answer times 100,000.

2003 Incident-Based Iowa Uniform Crime Reports: Part II Statistical Data

Contained in the 2003 Incident-Based Iowa Uniform Crime Reports are several tables, found in Part II, illustrating state totals as well as tables breaking down state totals by reporting law enforcement jurisdiction. The Reports are set up in four sections with Section A contains general crime information, Section B containing hate/bias crime information, Section C containing domestic abuse information and section D containing LEOKA and law enforcement personnel information. Among the more agency specific tables are the Section A (general crime) tables 1, 2, 7, 8 and 9, the Section B (hate/bias crime) table 1 and tables 1 and 2 in Section C (domestic abuse). Data on law enforcement personnel is found in Section D.

As an added feature, some of the agency specific tables now contain population summaries at the end of those tables. The population summaries are included in Part II Section A, general crime offense tables (tables 1 and 2) and the arrest tables (table 7 contains total arrests and 8 contains juvenile (those under 18) arrest information) and Section C, domestic abuse table 2. The population summaries are broken down by:

- Cities of 50,000 and over population
- Cities between 25,000 and 49,999 population
- Cities between 10,000 and 24,999 population
- Cities between 5,000 and 9,999 population
- Cities under 5,000 population
- Suburban Sheriffs' Offices
- Rural Area Sheriffs' Offices
- State Universities

- Cities Under 5,000 population usually include cities between 2,500 and 5,000 population. Cities under 2,500 population report through their Sheriff's Office unless they have applied to be a direct reporting agency (under 10 agencies have done this since 1991 when this became possible). Johnston PD and Pella PD increased in population and moved from a size six to a five, or between 2,500 and 9,999 population to between 10,000 and 24,999 population.
- Suburban Sheriffs' Offices include those in Black Hawk, Dallas, Dubuque, Johnson, Linn, Polk, Pottawattamie, Scott, Warren and Woodbury Counties. The Bureau of Census through the FBI added additional counties this year (for the 2003 data) to be considered. The metropolitan counties that were added are: Benton, Bremer, Grundy, Guthrie, Harrison, Jones, Madison, Story and Washington. Rural Area Sheriffs' Offices include those in the 80 counties that are not classified as suburban sheriffs' offices (as listed above).
- State Universities include the University of Northern Iowa, the University of Iowa, and Iowa State University.

Section A, Table 1 shows Group A offenses for each reporting agency and Table 2 converts IBR data to summary data similar to Part 1 crimes seen in reports for 1990 and before in the (summary based) Iowa Uniform Crime Reports. In both Table 1 and Table 2 the rates for the state totals reflect the adjustment in population, subtracting the non-reporting jurisdictions. (For further discussion on the completeness of this report refer to Appendix A and in the back of this publication or in the Chapter on Totals).

More specifically, table 1 shows the complete list of Group A offenses that have been reported by the incident-based method. Those 46 Group A crimes have been broken down by the direct reporting law enforcement geographic jurisdictions (the 99 county sheriffs, the three state university departments of public safety and the 131 local police departments) as well as the state totals. Included in these totals are the submissions of the state law enforcement agencies. The major contributing state agency has been the Iowa Department of Public Safety's Division of State Patrol. Data reported by state agencies is attributed to the jurisdictions in which the crimes occurred.

Table 2 contains incidents of crime converted back to the summary-based method (formerly Part 1 crimes). The crimes of murder, rape, robbery, aggravated assault, burglary, and motor vehicle theft are shown in this table.

Reported arrest information is presented in tables 7 and 8 by jurisdiction in the 2003 Incident-Based Iowa Uniform Crime Reports. Table 7 reports total arrest information, both for adults and juveniles, whereas table 8 reports only juvenile (those under 18 years of age) arrest information by jurisdiction. Both of these tables figure rates per 100,000 population. Arrest rates for the state are figured by the accumulated population of the law enforcement jurisdictions when **any** arrests are entered for that jurisdiction.

Table 9 presents reported clearance information and percentage cleared by jurisdiction. A clearance usually occurs when an arrest occurs. However, a case can also be cleared exceptionally. The following four conditions must be met to exceptionally clear an offense: 1) the investigation must have clearly and definitely established the identity of at least one offender; 2) sufficient probable cause must have been developed to support the arrest, charging, and prosecution of the offender; 3) the exact location of the offender must be known so that an arrest could be made; 4) there must be a reason outside the control of law enforcement which prevents the arrest, i.e.:

- Death of the offender/suspect
- Prosecution declined (by the prosecutor for other than lack of probable cause)
- Extradition denied
- Victim refused to cooperate (in the prosecution)
- Juvenile/no custody (the handling of a juvenile without taking him/her into custody, but rather by oral or written notice given to the parents or legal guardian in a case involving a minor offense)
- Warrant issued
- Turned over to another agency

The Hate/Bias Crime information can be found in Section B, Table 1 by reporting jurisdiction. The information for this table is from the incident based system and was supplemented with a special survey taken by the Department of Public Safety. A version of this table was produced in the 1991-1993 Hate/Bias Crime in Iowa and in the 1994 through 2003 Incident-Based Iowa Uniform Crime Reports.

The Domestic Abuse reports for 2003 are reported in Section C, Tables 1 and 2. Although the Domestic Abuse Reports were always counted by 1 incident per victim, they were not a part of the general crime data before 1991 but were maintained by a separate system. With the new incident based system, domestic abuse offenses are an integral part of the tabulations. Table 1 counts victims per incident, while table 2 counts victims

The remaining tables in this report examine statewide totals in different ways. Arson, property stolen and recovered, and reported weapon information by offense, among other statewide data, can be found in the List of Tables.

An information requesting system is available to complement the incident-based crime records data system. This system is dependent on the main data system and will be used for specialized requests on a time available basis.

Anyone wishing to request specialized data should contact the Iowa Department of Public Safety, Program Services Bureau, Wallace State Office Bldg., Des Moines, Iowa 50319, (515) 281-8494. Those online may e-mail requests to: ibrinfo@dps.state.ia.us. (Actual costs incurred will be assessed for processing these special requests.)

It should be noted that increases in reporting within the first few years of implementation of a new reporting system are common. Therefore, comparisons of the early years 1991 and 1992 data from the incident-based reporting system should be viewed cautiously. Similarly, comparisons of reporting levels between data from the incident-based system and data from 1990 and before may also be inappropriate.

Much work has been accomplished in the last few years towards total conversion to the Incident-Based Iowa Uniform Crime Reports. The Iowa Department of Public Safety acknowledges the challenge it has been for the reporting agencies in Iowa to comply with the new standards and commends those law enforcement agencies that have made the substantial effort required to submit their data in an accurate and timely manner.

PART I

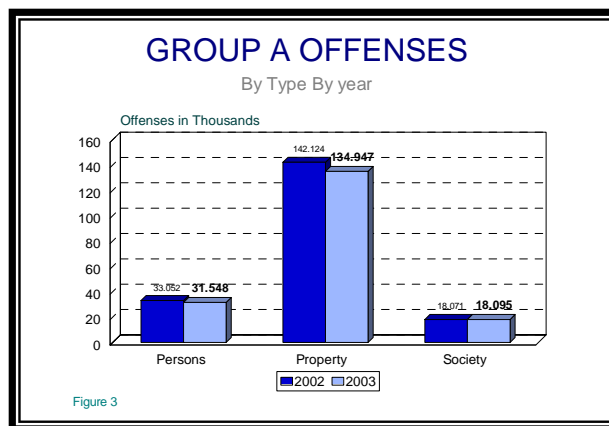

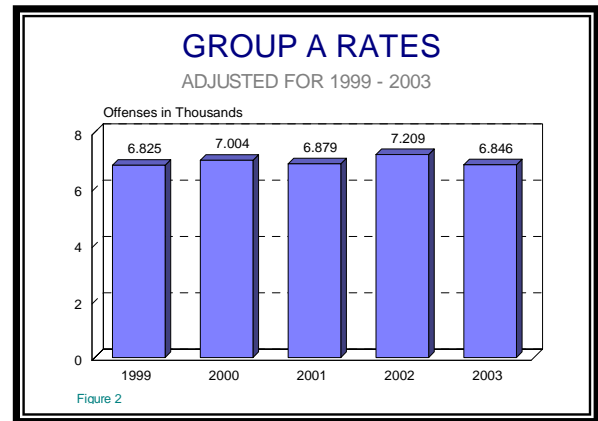

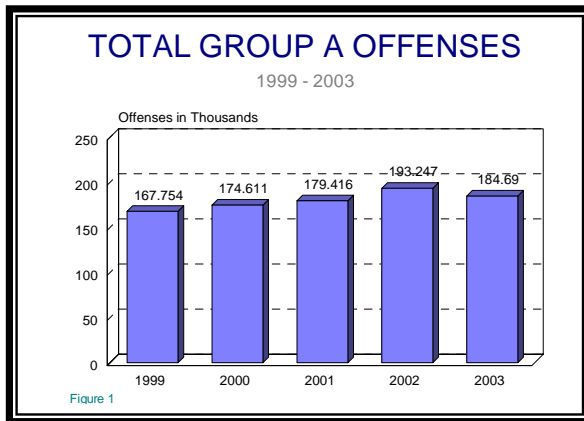

ANALYSIS OF CRIME IN IOWA

SECTION A

GENERAL CRIME

REPORTED TOTAL CRIME INCIDENT - BASED METHOD

Total Group A Offenses	184,690
Decrease from 2002	-4.4%

Adjusted Rates

NOTE: Data for this report is based on incidents submitted by the law enforcement jurisdictions throughout Iowa to the Iowa Department of Public Safety. Although not all of the law enforcement agencies in Iowa were able to report statistical data, or complete data, the numbers show a marked increase in compliance with the reporting system since the 1991 introduction.

The adjusted population criterion is based on an individual agency entering more than 6 months worth of consistent data for the year. The adjusted population figure for 2003 is 2,697,640 or 91.6 percent of the total population, 2002 is 2,680,799; 2001 is 2,608,047; 2000 is 2,493,096; 1999 is 2,458,008; 1998 is 2,389,528; 1997 is 2,352,605; 1996 is 2,344,265; 1995 is 2,394,411; 1994 is 2,222,663; 1993 is 2,203,850; 1992 is 2,009,937 and for 1991 the adjusted population figure is 1,700,363. The following law enforcement agencies' corresponding populations are not included in the adjusted population figure for 2003:

No Reports Received

Boone Co S.O., Carter Lake PD, Clinton PD, Emmetsburg PD, Hiawatha PD, Jefferson PD, Johnston PD, Ogden PD, Rock Valley PD, Sioux Center PD, Tama PD, and the Waukon PD.

Reports Received only from State Agencies, mainly the Iowa State Patrol

Allamakee Co S.O., Audubon Co S.O., Black Hawk Co S.O., Clinton Co S.O., Fremont Co S.O., Jackson Co S.O., Montgomery Co S.O., Ringgold Co S.O., Shelby Co S.O., and the Worth Co S.O.

Not Included Due to Insufficient Data

Belle Plaine PD, Clear Lake PD, Crawford Co S.O., Decatur Co S.O., Dickinson Co S.O., Kossuth Co. S.O., LeClaire PD, Missouri Valley PD, New Hampton PD, St. Ansgar PD, West Liberty PD, and the West Union PD.

A similar listing is available upon request for 1991 through 2002.

Welcome to the new agencies:

Adel PD, Bloomfield PD, Clayton Co S.O., Evansdale PD, Greene Co S.O., Harlan PD, Keokuk Co S.O., Marshall Co S.O., Spirit Lake PD, Winnebago Co S.O., and the Winterset PD.

Late submissions: Agencies not submitting complete data before the deadline are not counted in this year's totals. Their offense data and rates are included in Appendix D.

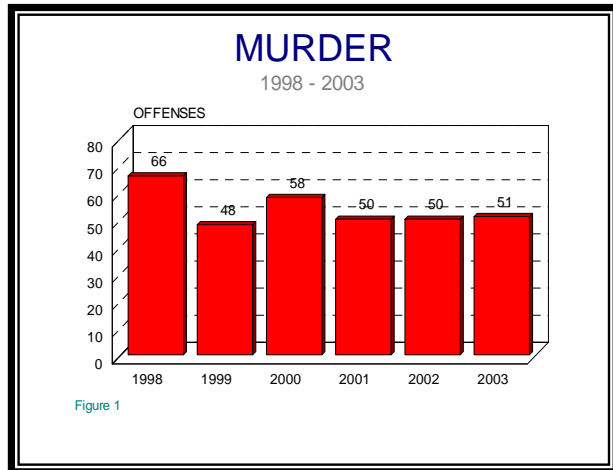

Also Note: Other ways of figuring completeness of data are found in Appendix A.

MURDER

"The willful killing of one human being by another." (Does not include Negligent Manslaughter or Justifiable Homicide.)

2003 MURDER	
Number of Victims	51
Number of Incidents	47
Number of Offenders	60

TOTAL

There were 51 murders reported in 2003, a twelve percent decrease from the 58 murders reported in 2000 but an increase of two percent from the 50 murders reported in 2001 and 2002. It is difficult to identify a trend in murders because of the relatively small numbers involved. However, murders generally increased from 1995 to a period peak in 1996 and 1998 to decline substantially in 1999, 2001 and 2002 and 2003. Since the Iowa UCR program was implemented in 1975, the record low is 44 reported murders in 1992 while the record high is 75 reported murders in 1981.

Rates

Similar to the trends found in the total above, murder rates per 100,000 population for the years 1998-2003 are displayed in Figure 2.

Note: Since statewide crime reporting was instituted, supplemental homicide reports have been submitted by the law enforcement agencies to the Iowa Department of Public Safety. These reports contained more detailed homicide information than was required by the summary based crime reporting system. Since the inception of the incident-based system in 1991, supplemental homicide reports have been requested (when applicable) of law enforcement agencies that have not been able to report to the incident-based system. Three of the 2003 murder victims were reported late.

WHO...

VICTIMS

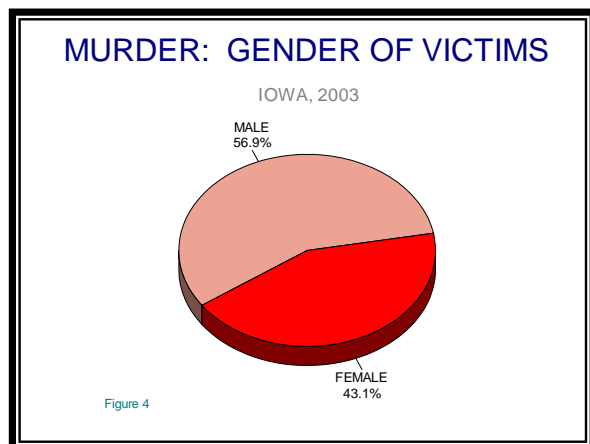

2003 Victims	
Number of Victims	51

AGE OF VICTIMS

Figure 3 shows the ages of murder victims during the year 2003. Eight of the 51 victims (16 percent) were age 5 and under or between 21 and 25 (the highest grouping) in 2003. Approximately half that percentage or less was true for 1999, 2001 and 2002. But, eleven of the 58 victims (19 percent) were 5 or under in 2000 with 8 of the 58 being 21 to 25 and twenty percent, the decade high for all groupings, or 12 of the 59 victims were 5 or younger in 1997.

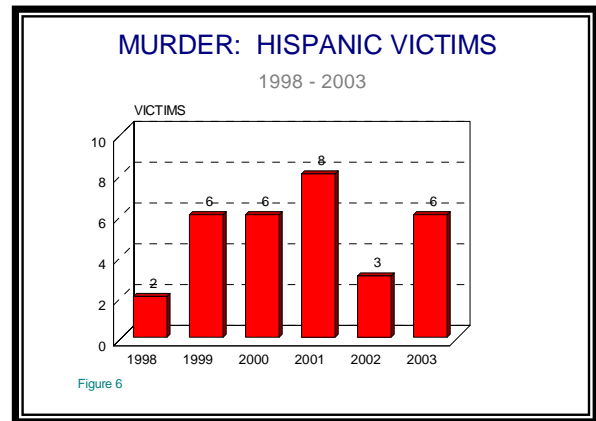

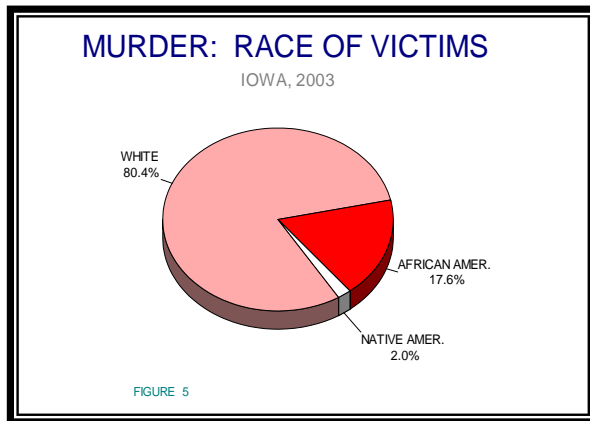

The largest single age group in 2002 was between age 41 and 45 accounting for sixteen percent (8) of the total victims, the same percent (16) was for those age 36 to 40 years old in 2001. The largest consecutive age grouping in 2003 was between age 21 and 30 with twenty-eight percent. (Twenty-eight percent (16, or 8 victims in each group) of the 58 victims in 2000 were between the ages of 36 and 46, the largest consecutive age grouping.) Those age 16 to 25 made up twenty-nine percent of the 59 victims in 1997. Those over age 65 accounted for 3 (6 percent) of the 50 victims in 2002, 6 (12 percent) of the 50 victims in 2001, 4 (7 percent) of the 58 victims in 2000, 2 (4 percent) of the 48 victims in 1999, 6 (9 percent) of the 66 victims in 1998 and 4 (7 percent) of the 59 victims in 1997.

GENDER OF VICTIMS

Table 1. Gender of Victims					
Year	Female	%	Male	%	Total
1994	24	44	31	56	55
1995	23	36	41	64	64
1996	24	36	42	64	66
1997	22	37	37	63	59
1998	33	50	33	50	66
1999	16	33	32	67	48
2000	20	34	38	66	58
2001	21	42	29	58	50
2002	18	36	32	64	50
2003	22	43	29	57	51

Males were the victim of a homicide most often in the decade shown. However, there were more female victims in 1993 than male victims (not shown).

RACE OF VICTIMS

Table 2. Race of Victims											
	Asian		African Am.		Native Am.		White		Unknown		Total
	#	%	#	%	#	%	#	%	#	%	
1994	0	0	8	15	2	4	45	82	0	0	55
1995	2	4	12	19	1	2	48	64	1	2	64
1996	3	5	15	23	0	0	48	73	0	0	66
1997	1	2	6	10	3	5	49	83	0	0	59
1998	3	5	8	12	0	0	55	83	0	0	66
1999	3	6	8	17	1	2	36	75	0	0	48
2000	3	5	10	17	0	0	45	78	0	0	58
2001	2	4	5	10	0	0	43	86	0	0	50
2002	1	2	11	22	1	2	37	74	0	0	50
2003	0	0	9	18	1	2	41	80	0	0	51

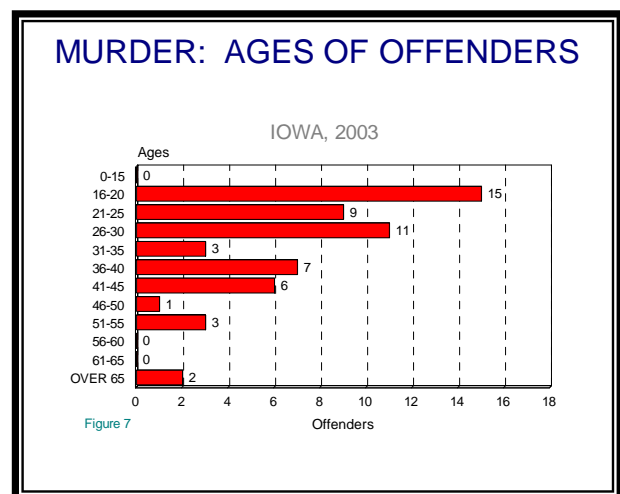

In 2001, five (10 percent) of the 50 victims were identified as being African American, the lowest number in a decade. In 2002, the percentage of African American victims more than doubled to 22 percent but declined to 18 percent in 2003.

OFFENDERS

AGE OF OFFENDERS

Ages of the known murderers are depicted in Figure 7 for 2003. Forty percent (24) of the 60 offenders were under age 26 in 2003 while fifty-three percent or 35 of the 66 offenders were under age 26 in 2002. Forty-three percent (20 of 47) of the offenders were under age 26 in 2001. Thirty-nine percent (24 of 62) of the offenders were under 26 in 2000 while thirty eight percent (15 of 39) were under 26 in 1999. The percents of the offenders under 26 in 1997 to 1995 were forty percent in 1997, forty-six percent in 1996 and forty-nine percent in 1995. In 1998, sixty-six percent (45 of 68) of the offenders were under age 26 and was the highest percent of those age 26 and under from 1995 to 2003.

2003 Offenders	
Number of Offenders	60

GENDER OF OFFENDERS

In 1993, females (not shown) accounted for 2 or 4 percent of the offenders to increase to 12 or 25 percent of the offenders in 2001. The decade low for female offenders was 5 in 1999.

Table 3. Gender of Offenders					
Year	Female	%	Male	%	Total

RACE OF OFFENDERS

Eight of these white offenders were identified as Hispanic in 1995, six in 2003, four in 1999 and 2000, three in 1997, two in 1996 and 2002, and one person of Hispanic origin was reported as a murderer in 2001 and in 1998.

JUVENILES INVOLVED IN HOMICIDES

There were no juvenile offenders in 2003; however, much concern is focused on juveniles involved in crime. Further analysis is prompted by the fact that the reported numbers of Iowa juvenile homicide offenders increased substantially in 1993 and 1994. Although these numbers are small, a decrease was seen in identified juvenile offenders in 1995 to increase again in 1996. No juvenile offenders were reported in 1997 but again seven were reported in 1998 while two, three and four juvenile offenders were reported in 1999, 2000 and 2001 respectively. Also, the age of the victims seemed to have become proportionately older in the early 1990's but since 1995 more victims were reported as being preteen than in the teenager years. In 2002, juvenile offenders made up 18 percent of the total offenders; the decade high was in 1994 when 12 of the 55 offenders (22%) were juveniles.

RELATIONSHIPS BETWEEN VICTIM AND OFFENDER

At least one relationship between the victim and offender was identified with 82 percent (42 of 51) of the victims in 2003.

Relationships were identified in 74 percent or with 37 of the 50 victims in 2001 and 2002, almost the same percentage (73) as in 1998.

Table 7.
**MURDER SITUATIONS:
NUMBER OF VICTIMS
AND OFFENDERS**

Figure 13 shows the 2003 incidents by murder situation. In all years the circumstance of single victim/single offender comprises the largest percentage of incidents. The percent of single victim/single offender incidents in 2003 was 66, in 2002 was 67, in 2001 was 58, in 2000 was 69 in 1998 was 64, in 1997 was 73 and 65 percent of the 1996 incidents were reported as single victims/offender. The decade low of single victim/offender incidents was in 1999 with 50 percent.

WHAT

MURDER CIRCUMSTANCES

Domestic situations (21%) and escalating arguments (21%) were the reasons of a homicide given most in 2003. In this instance, a domestic situation can be anything from boy/girlfriends to those married or previously married. Child abuse in a homicide accounted for the highest known percentage in 1997 and 2000, 19 percent (or 11 of the 59 in 1997 and with 10 of the 52 incidents in 2000). In 1998, 12 percent, or 7 of

the 61 incidents were reported as child abuse while 2 of the 44 (4.5%) 1999 incidents and 4 of the 43 (9.3%) 2001 incidents were reported as child abuse. Arguments accounted for 11 of the 2000 incidents (21 percent) while in 1999 36 percent (16 incidents) were committed while the offenders were involved in an argument. Nineteen percent (10 of 52) of the 2000 incidents involved a domestic dispute; in 1998, eighteen percent (11) of the 61 situations were domestic while “lovers quarrel” added another 7 percent. In 2001, domestic situations accounted for 12 incidents, 2 of which were love triangles. Stipulated gang and drug activity accounted for 14 percent of the 1999 murder incidents, 12 percent of the 1998 and 2000 murder circumstances, 15 percent of the circumstances in 1997 and 23.3 percent involved gang and drug activity in 2001. Child Abuse was second as the reason most given for a homicide in 2003 with 19 percent or in 9 of the 47 incidents while drug activity and a felony were next accounting for 8 and 7 of the 47 incidents.

MURDER WEAPONS

The combined firearm category made up 41 percent (19 of 46) of the 2003 incidents accounting for 50 percent of the 2002 incidents or 26 of the 50 victims (52 percent). In 2001, firearms accounted for 33 percent of the incidents or for 15 of the 50 (30%) victims, the lowest percentage for the combined firearm category in the period between 1989 and 2003. The highest reported percentage was in 1990 when 58 percent (29 of 50) of the incidents involved some type of firearm.

WHEN

Usually no clear pattern emerges when comparing previous years' murder incidents by month. August was the month of most murders in 2001 and in 2003 with January being second in both years. Although November and December were the months with the least number of murders in 2003 and 2002 respectively while May was the second least month in both years. April was reported as the month with the least murders in 2000, May in 2001, and December also in 1999. October was the month of the least murders in 1998 and 1996.

DAY OF INCIDENTS

Thursday was reported as the day most murder incidents occurred in 2003 12 of 47 or in 25.5 percent of the time followed by Friday with 9 incidents. Only 3 murder incidents happened on a Tuesday in 2003.

Monday and Tuesday were the days most murder incidents occurred (8 each) with Friday and Saturday each being reported 7 times each in 2002. The day least reported in 2002 was Sunday (4 incidents).

HOURLY OF INCIDENTS

Most (37 percent or 17 of the 46 incidents) murders in 2003 were reported to happen between 11 PM and 2 in the morning. There was no time reported in 5 of the 2003 incidents.

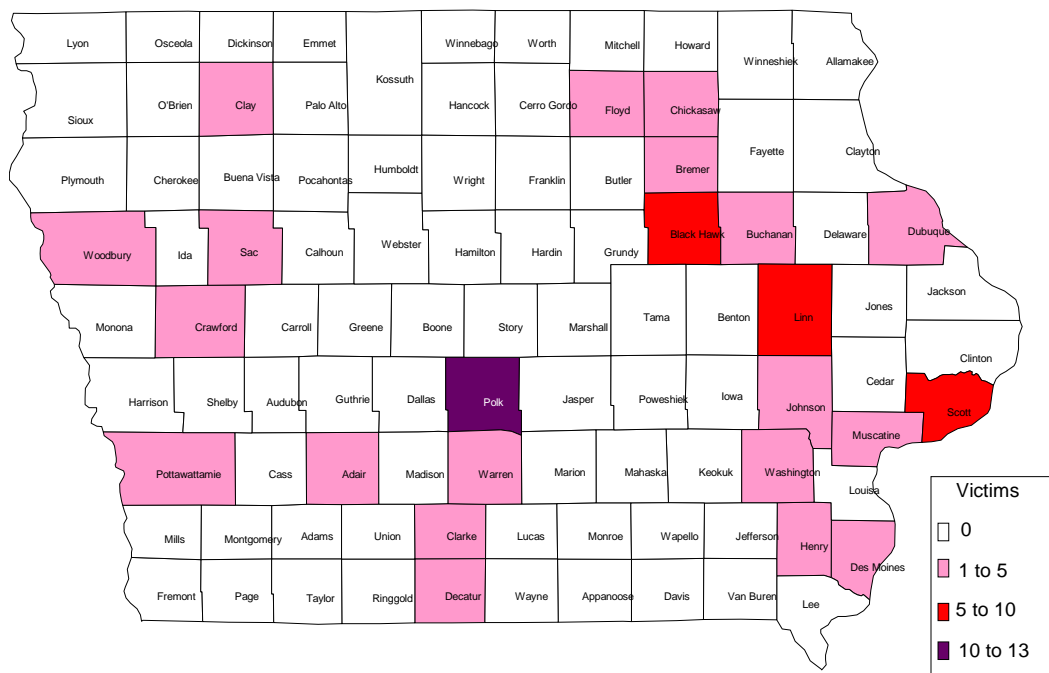

WHERE

MURDER LOCATIONS

In 2003, seventy-two percent (34) of the 47 homicide incidents occurred in Iowa's metropolitan areas. It is not possible to compare 2003 figures with previous years as the definition was changed to increase the metropolitan area. Look on page 6 of the introduction for specific changes. "Other" refers to the cities, usually over 2,500 population, which submit their own statistical data. Rural

areas are the county sheriffs' jurisdictions that are not in a metropolitan area.) In 2003, six incidents (13%) were reported in rural areas while "other cities" accounted for 15 percent or 7 of the 47 murder locations.

HOW MANY...

Figure 1 shows a decrease of seven percent in rate of forcible rapes between 2002 and 2003 after a nineteen percent increase between 2001 and 2002. However, the 2003 rate represents a fifteen percent decrease from the decade peak rate in 1999 of 33.3 victims per 100,000 population.

Similarly, the number of victims decreased six percent from 810 reported in 2002 to 761 reported in 2003. The low for the period shown was in 2001 when 663 victims were reported.

Table 1. Incidents of Forcible Rape: Attempted or Completed by Year

	2001		2002		2003	
	Year	%	Year	%	Year	%
Attempt	23	4	24	3	22	3
Completed	622	96	752	97	722	97
Total	645		776		744	

Attempted and completion data was available on the 744 reported offenses of forcible rape in 2003. Law enforcement officers reported 722 of the 744 or ninety-seven percent of the rapes were completed

while 22 or three percent of the rapes were attempted. In 2001, ninety-six percent of the rapes were completed with four percent being reported as attempted. Reported attempts to rape have declined from nine percent in 1993 and 1994 to three percent in 1998, 2002 and 2003.

AND WHEN?

In 2003 reported incidents of rape occurred most frequently in the month of August; in 2001 July was reported most frequently but September was the month most reported in 2002. Rapes were reported least frequently in October of 2003, December in 2002 and January of 2001.

Day of Week

Generally more incidents of rape were reported to have happened during the weekends rather than the weekdays. Although Saturday and Sunday were the most frequently reported days of an incident in 2001 2002 and 2003, Saturday and Thursday (not shown) were reported most frequently in 2000. The day reported least was Monday 2001, Tuesday in 2003 and Wednesday in 2002.

Time of Day

The greatest number of rapes (double and triple any other one hour period) was reported to have happened between midnight and 1:00 A.M. in all years 2001 through 2003. The number of rapes reported between midnight and 1:00 A.M. in 2001, 2002 and 2003 years were 103, 90 and 89 incidents respectively. The hour least reported was 6:00 A.M. in 2001 with seven incidents but the hour least reported in 2002 was 7:00 A.M. with seven incidents and eleven incidents in 2003.

WHO...

Ninety-nine percent of the forcible rape victims were reported as being female in 2003.

The age group of 13-17 year olds were reported the victims most often of a forcible rape since 1995. Sixteen and seventeen tied for the age most reported (59 times) for a victim of a rape in 2003 followed by those victims' ages 18 (57 times), 19 (47 times) and 15 (46 times). These ages are slightly higher than recent years with 14 being the age most reported in 2002 and 15 being the age most reported in 2000 and 2001.

When race and gender are considered, white females in the age group of thirteen to seventeen years old were reported by far as the victim of a rape most often since 1995.

Twenty of the white victims were reported as being Hispanic females while one Hispanic female was reported as being Asian. Five of the victims were reported to have been thirteen while another 4 victims were reported to have been fifteen years of age.

Arrests

Sex, race and age data is available on 134 of the 145 persons arrested for forcible rape in 2003.

Forty-six percent of the reported rapes were cleared in 1997 but dropped to 40.8 percent in 1998, 34.8 percent in 2000, 34.4 percent in 1999 and 2001, 31.7 percent in 2002 and to 31.5 percent in 2003.

Male offenders made up all percent of the persons arrested for rape in 2003.

Offenders between the ages of 21 and 29 were arrested most often (40 times) in 2001; those 30 to 39 were arrested most often in 2002 (25 times). However, those offenders age 13 to 17 were arrested most often in 2003 (31 times). The single age most reported of an arrestee in 2003 was 13 (7 times), the age in 2002 was 19 (7 times), the age in 2001 was age 14 (10 times) and age 15 (11 times) in 2000. Eleven of the 102 white male arrestees in 2003 were Hispanic while thirteen of the 91 white male 2002 arrestees were Hispanic.

Relationships

Over two-thirds (70.8 percent) or 539 of the 761 rape victims knew their attacker in 2003.

Twelve percent (88) of the 761 victims identified a family member as their attacker. A child, grandchild or stepchild within the family accounted for four percent of the reported relationships while siblings and stepsiblings accounted for three percent. Of all the relationships, an acquaintance was reported most as the offender and accounted for 36 percent of the relationships. A stranger was identified in 11 percent of the rapes while not enough was known in another 10 percent to declare the offender unknown. No information was reported in 8 percent or in 64 of the victim/offender relationships in 2003.

Other	38	5	38	5
Unknown	53	7	57	8
None	95	13	101	13
Total	744		761	

A gun, knife or blunt object was identified as a weapon used in three percent of the 744 incidents of rape in 2003. Those weapons were reported in six percent of the 1997 incidents. In seventy-two percent, or 533 of the 2003 incidents, the force of hands, fists, or feet was recorded as the weapon used in the forcible rapes.

Physical Injuries

Reported minor injuries rose from 20.3 percent (137) of the total (675) in 2000 to 28.5 percent or in 189 of the 663 victims in 2001 and 231 of the 810 victims in 2002 but fell slightly in 2003 to 27.7 or in 211 of the 761 victims. Injury, or the possibility of an injury, was noted for 24 percent or for 158 of the 655 victims reported in 1999 while 76 percent or 497 victims were reported to have no injuries. Similar percentages were found in 1998, 1999 and 2000. The number of victims reported injured rose to 31.4 percent or in 239 of the 761 reported victims.

Location of the Rape

In 2003, seventy-two percent (537 of 744) of the reported incidents of rape occurred at a residence up from seventy percent (545 of 776) reported in 2002. Some type of commercial or public building accounted for three percent of the rapes in 2003 while a highway/roadway or garage was the location of another eight percent of the rapes. A hotel/motel/school was the location for approximately seven percent of the reported rapes and a park/field/lake was reported in four

percent of the rapes.

AGGRAVATED ASSAULT

“An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.”

HOW MANY...

After increasing in number for three years, victims of an aggravated assault decreased in 2003. Specifically, reported victims of an aggravated assault decreased 4.5 percent from the 6,399 reported in 2002 to the 6,108 victims reported in 2003 although more law enforcement agencies are reporting crimes in 2003 than since 1990. Also, the 2003 figure representing 2,697,640 of Iowa's population is 4.4 percent below the 1995 figure of 6,388 victims which represented 2,394,411 of Iowa's population.

AGGRAVATED ASSAULTS	
1999 Victims	5,851
2000 Victims	5,958
2001 Victims	5,982
2002 Victims	6,399
2003 Victims	6,108
2003 Rate	226.4
2002 to 2003 Rate	-5.2%
Number of Incidents	5,406
Number of Arrests	3,886
Percent Cleared	65.5%

The adjusted rate of aggravated assaults per 100,000 population for the years 1999 through 2003 is shown in Figure 1 below.

Considering the rate adjustment for the previous years reporting, the rate of 226.4 in 2003 was a 5.2 percent decrease from the 2002 rate 238.7 and more than 1 percent less than the previous decade low of 229.4 aggravated assaults per 100,000 population recorded in 2001. The decade high was in 1995 (not shown) with the adjusted rate of 266.8 aggravated assaults per 100,000 population.

AND WHEN?

Incidents of aggravated assault tend to peak in the summer and decline during the winter months. Specifically, August (552) followed by July (517) were the most frequent months of reported aggravated assaults in 2003 and July (519) followed by October (509) in 2001. However, September (591) followed by June (575) was the most frequent months of an assault reported in 2002. The least frequent month of reported assaults was January in 2002 (372), February in 2001 (327) and 2003 (335).

Table 1. 2001 – 2003. Incidents of Aggravated Assault by Month

	YEARS		
	2001	2002	2003

DEC	356	381	385
	5,309	5,595	5,406

Day of Week

Forty-eight percent of the reported aggravated assaults occurred on a weekend (Friday, Saturday or Sunday) in 2003 but 49 percent of the time in 2001 and 2002. Also, the most frequently reported day of an assault in all years 2001 through 2003 was Saturday.

Time of Day

Number of incidents time was reported.

1999	5,040
2000	5,002
2001	5,121
2002	5,241
2003	4,937

Of the times reported in 2001, thirty-six percent of the aggravated assaults were to have occurred during the nighttime hours of 6:00 P.M. to midnight. In 2002 and 2003, thirty-five percent were reported to have happened during those times. Ten percent of the 2002 and 2003 aggravated assault incidents happened between 6:00 A.M. and noon, less than ten percent of the 2001 incidents happened between 6:00 and noon.

Specifically, the most frequent hour of aggravated assaults tended to be around midnight dropping dramatically for the next five hours in all years. The time assaults were reported to have occurred the least is during the morning hours between 5:00 and 7:00 A.M. in 2001 and between 6:00 and 7:00 A.M. in 2002 and 2003.

WHO...

Victims

In 2003, the age group between 21 and 29 was reported most often (29.2 percent or 1,783 victims) followed by the victims age 30 to 39 (20.4 percent or 1,243 victims). However the combined victims age 13 to 21 equal 24.8 percent (1,517). Reported least often was the age group of over forty-nine, accounting for 5.6 percent (341) of the aggravated assaults. The age reported as unknown accounted for two percent of the victims.

Overall, white males were reported as the victims most frequently (2,876 times), followed by white females (2,106 times). African American males were reported as the victim 444 times compared to African American females who were reported 395 times.

There were 244 assault victims reported as Hispanic in 2003, 85 were female and 159 were male. The race of 234 victims was white and 105 of the victims were in their 20's.

Arrests

Age, sex and race information is available on 3,621 individuals arrested for aggravated assault in 2003.

Those arrested between ages 21-29 and 30-39 years of age accounted for approximately thirty one and twenty-one percent each of the total arrestees. The arrestees 13-17 accounted for 15.2 percent of the arrests, more than those 18-20 years of age or 11.8 percent of the total arrests. In 1998 those 13-17 and 18-20 were reported arrested by a higher percentage (15.5 percent and 12.7 percent respectively) than in 2003 but in most years the reports equal between 13 and 14 percent each for both age categories.

Seventy-seven percent (2,797) of the 3,621 reported persons arrested for aggravated assault in 2003 were white. Women accounted for 735 or 20 percent of the total arrests. In 2002 African American males were arrested 573 times, a 6.5 percent increase over 538 times in 2001 but a 7.4 percent decrease from 619 arrests in 2000. There were 46 Native Americans and 27 Asians arrested in 2003. Hispanics were reported arrested in 240 of the aggravated assaults in 2003, 227 of the arrests in 2002 and 171 of the arrests in 2001. The race of 232 of the 240 arrestees was reported as white.

Information about the relationship between the aggravated assault victim and offender is available for 5,277 of the 6,108 victims reported in 2003. The victim in seventy percent of the relationships knew the assailant, down from seventy-four percent of the stated relationships in 1995. A woman was the predominant victim in the relationships of boy/girl friend (83.9%), spouse (81.5%), and common law spouse (80%). A man was the victim most in the relationships of stranger (80.4%), unknown (75.5%), otherwise known (68.8%) or an acquaintance (67.7%),

WHAT...

Some type of firearm was reported to have been used in seven percent (372) of the 5,406 incidents of aggravated assault. Personal weapons, such as hands, fists or feet were used in approximately forty-six percent (2,530) of the aggravated assaults. A blunt object or some type of cutting instrument combined for more than a quarter of the incidents. Table 4 displays multiple weapons used in an aggravated assault. Also, look at multiple weapons in statewide annual Table 4

AND WHERE?

Location

Location of the 5,406 reported incidents of aggravated assault in 2003.

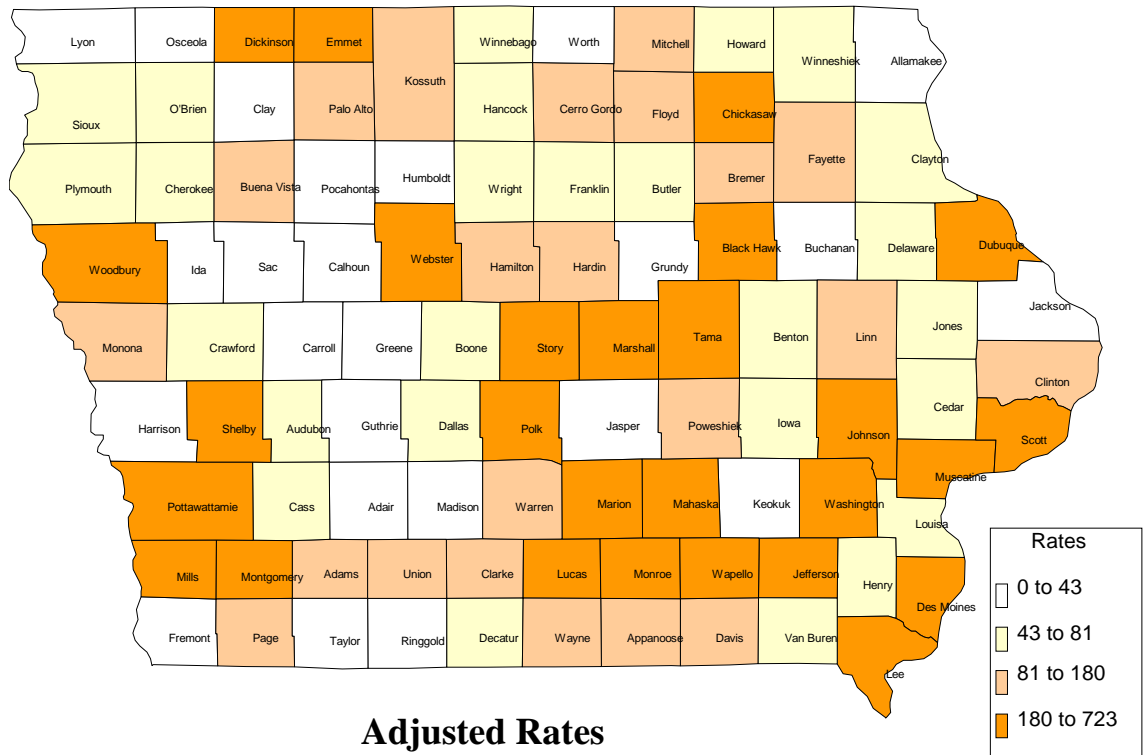

Fifty-three percent (2,882) of the aggravated assault incidents were reported to have happened at a residence or farm. A highway, road, street or parking had the second highest percent of assaults with twenty, or 1,059 incidents.

A bar/night club or a parking lot/garage accounted for another six percent and seven percent respectively as the location of an aggravated assault. Incidents of aggravated assault were much more likely to happen at a school or college than a hotel or motel in all years (1991 to current).

Stalking

STALKING	
2003 Offenses	47
2002 Offenses	50
2001 Offenses	53
2000 Offenses	61
2003 Number of Arrests	23
2002 Number of Arrests	25
2001 Number of Arrests	18
2000 Number of Arrests	27

In 2003, 38 of the 47 stalking offense were reported as intimidation, 1 was aggravated assault, 1 was simple assault, 1 was blackmail, 3 were burglary, 1 was vandalism and 1 was all other.

In 2002, 44 of the 50 stalking offenses were reported as intimidation, 3 were simple assault, 1 was burglary, 1 was vandalism, and 1 was an unstated larceny.

In 2001, 52 of the 53 offenses were reported as intimidation, the remaining offense was reported as a sexual assault with an object.

There were twenty-three persons arrested in 2003 for stalking. Nineteen of the arrestees were identified as white males, one arrestee was a white Hispanic male, one person was an Unknown Hispanic male, one person was a African American male and two people were identified as white females.

A relationship was stated for 38 of the 42 victims reported. Seven of the victims were male; two accompanying a female. Thirty-five of the stalking victims were female. There were no minority female victims reported but one of the males was reported to have been African American. Twenty of the victims were in their thirties, while 7 of the victims were in their twenties and teens. The age most reported was 34 with 5 victims.

Code of Iowa, 708.11 "A person commits stalking when all of the following occur:

- The person purposefully engages in a course of conduct directed at a specific person that would cause a reasonable person to fear bodily injury to, or the death of, that specific person or a member of the specific person's immediate family.
- The person has knowledge or should have knowledge that the specific person will be placed in reasonable fear of bodily injury to, or the death of, that specific person or a member of the specific person's immediate family by the course of conduct.
- The person's course of conduct induces fear in the specific person of bodily injury to, or the death of the specific person or a member of the specific person's immediate family."

ROBBERY

“The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or by putting the victim in fear of immediate harm.”

ROBBERY	
Number of Incidents	1,130
Number of Victims	1,365
% Cleared	30.7%
Dollar Amount	\$758,881.00

HOW MANY...

Reported robberies decreased 3.4 percent from 1,170 incidents in 2002 to 1,130 incidents in 2003. The rate per 100,000 population also decreased 3.9 percent to 41.9 and was the decade low. After decreasing from 1999 to 2000, robbery rates rose from 42.9 to 44.2 offenses per 100,000 population or 3 percent between 2000 and 2001. The decade high was in 1995 (not shown) with 1,241 incidents and a rate of 51.8 per 100,000 adjusted population

Table 1
Incidents of Robbery:
Attempted or Completed

	1999	%	2000	%	2001	%	2002	%	2003	%

Total	1,063		1,071		1,154		1,170		1,130	

There were 1,130 robbery offenses reported in 2003. Eighty-nine percent or 1,001 of the offenses were reported as completed while 129 (eleven percent) were reported as attempted. Ninety-one percent of the 2001 robberies were reported as completed, nine percent being attempted. However in 1999 and 2000, ninety percent of the robberies were completed while ten percent of the robberies were attempted while eighty-eight percent of the robberies were completed in 2002 and twelve percent were attempted.

There can be more than one “victim” as the result of a robbery. The types of victims are listed in Table 2. However, “society” is not a possible victim for a robbery.

AND WHEN?

The most frequent month of reported robberies was September in 2003 with 115 incidents, October in 2002 with 111 incidents while June was the most frequent month in 2001 with 117 incidents. Although 2001 had the most frequently reported month of a robbery in the years shown, there were six months in 2002 and 2003 with more than 100 robberies, and there were five months in 2001 when more than 100 robberies were reported. January was the least frequent month of reported robberies in 2001 (67) but December (88) was reported least frequently in 2002 and February was reported least frequently in 2003.

**Table 3. 2001, 2002 and 2003
Robberies by Month**

Day of Week

Saturday was the most frequently reported day of a robbery in all years, 2001 to 2003. The least frequently reported day was a Sunday in 2003, Monday in 2002; while Sunday and Monday tied for the day least frequently reported in 2001.

Time of Day

Thirty-six percent of the robberies in 2001 through 2002 were reported to have occurred during the nighttime hours of 6:00 P.M. to midnight, thirty-four percent in 2003. Eleven percent of the reported robberies happened between 6:00 A.M. and noon in 2001 and 2002 but 9 percent of the 2003 robberies happened between 6:00 A.M. and noon.

Specifically, the most frequent hour of robberies tended to be around midnight. In 2003 and 2001 the most frequent hour reported was between 10:00 P.M. and 11:00 P.M. while in 2002 the most frequent hour reported was between 9:00 P.M. and 10:00 P.M. The time robberies were reported to have occurred the least is during the morning hours between 7:00 A.M. and 8:00 A.M or 8:00 A.M. and 9:00 A.M. in 2001, 2002 and 2003. In 2003, the hour of the robbery was not reported in 64 incidents.

WHO...

The age group of between 21 and 29, accounting for 28 percent (325) of the 2003 victims, was reported almost a third more often than those victims age 30 through 39. If the age groups of between 13-17 and 18-20 were added together they would account for 19.7 percent (228) of the victims of a robbery and also more than those age 30 to 39.

Examining reported robberies by sex and race shows that fifty-four percent (629) of the victims were white males and twenty-nine percent (332) were white females. Eight percent (88) of the 1,159 reported victims were African American males while four percent (44) of the victims were reported as African American females. Of the remaining identified six percent, there were 10 Native American victims (6 males and 4 females) and 26 victims of Asian/Pacific Islander origin (21 males and 5 females).

Thirty eight of the victims were reported to have been Hispanic in 2001, 55 victims were reported in 2002 and 43 of the 2003 victims were Hispanic. Most of the victims were male in 2001 -2002. Specifically, in 2003 thirty-eight of the forty three victims were female and forty-two of the forty-three were reported as white.

Arrests

Age, gender and race information is available on 374 of the 385 individuals arrested for robbery in 2003.

Forty-two percent (162) of the 2003 persons arrested for robbery were under 21; approximately fifty-eight percent (212) of the persons arrested for robbery were under 21 years of age in 1997. Seventeen was the most common age of a person arrested for robbery in 1998 and 2003 but 18 was the most common age in both 1999, 2000 and 2001.

Thirty-six percent of the persons arrested for robbery in 2003 were African American males, and white males accounted for forty-six percent of those arrested. In 2002, African American males made up thirty-seven percent of those arrested while white males made up forty-nine percent of those reported arrested for robbery. White females (34) were arrested more than African American females (16 and 22) in 2001 and 2002 but African American Females (40) were arrested more in 2003 than white females (25).

In 2002, the ethnicity of 9 of the white males and 1 white female arrested for robbery was Hispanic. Thirty-one Hispanic persons were arrested for robbery in 2003; 4 white females, 26 white males and 1 African American male.

Relationships

Information about the relationship between the robbery victim and offender is available for 864 of the 1,159 individual victims reported in 2003. The victim stated a stranger was the robber in sixty-five percent (563) of the 864 responses while nineteen percent (161) of the victims knew their robbers.

Another 140 victims (16 percent) weren't positive about the offender. Table 9 shows specific relationships for 2003.

WHAT... Weapons

At least one injury was documented in 470 of the 1,130 (42 %) robbery incidents.

Some type of firearm was reported in over a fifth or in 245 of the 1,130 robberies in 2003. Personal weapons, such as hands, fist, or feet were used in approximately fifty percent (532) of the robberies. More than one weapon was reported in 63 of the 2003 robberies.

Overall, the rate of recovery went from 12.5 to 15.2 percent of the total goods.

AND WHERE?

Location

In 2003, forty-one percent (462) of the robberies were reported to have happened on the street, a highway or a parking facility. A residence had the second highest number of robberies with seventeen percent or 197 robberies. A convenience store or gas station accounted for sixteen percent (177) of the 1,130 robberies.

IOWA DRUG ARREST RATES FOR:

Caution: more than one drug type can be indicated in the incident/arrest.

Rates for arrests are figured by using the estimated population from jurisdictions entering any arrests.

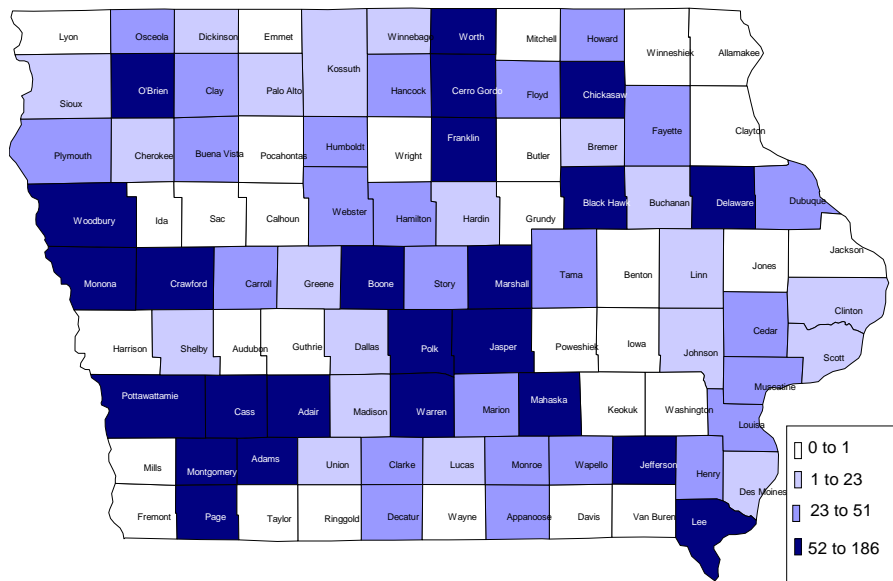

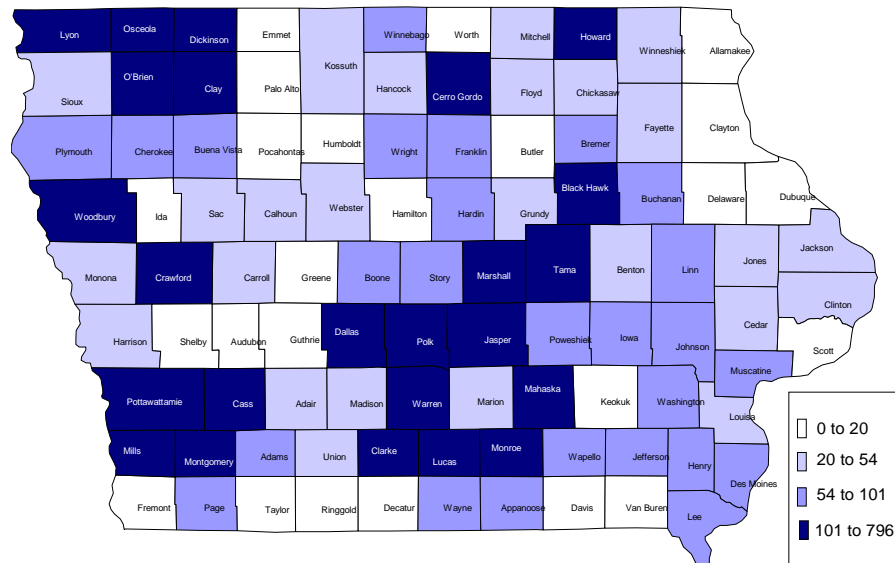

Meth/Amphetamine arrests are considered to be mostly indicative of Methamphetamine arrests in Iowa.

The maps below represent equal distribution between shades. Look at the legend for proper rates.

1999 Arrest Rates

2003 Arrests Rates

TOTAL ARRESTS	118,060
Increase from 2002	3.2%
Adjusted Rate	4376
Increase from 2002	2.6%

ARRESTS

TOTAL ARRESTS

Group A and B

TYPES OF ARRESTS	
On Sight	51%
Warrant	25%
Cited/Summons	25%

- The arrest rates are based on an adjusted estimated population per 100,000. The adjusted population figure used is derived from those jurisdictions submitting more than 6 months worth of consistent offense data. When looking at total, adult, or juvenile arrest rate tables on other pages, the criterion becomes the compilation of those jurisdictions' estimated population when arrests were entered.

ARRESTS BY AGE

JUV ARRESTS	21,513
% of Total Arrests	18%
Increase from 2002	1.0%
Rate	3,183
Increase from 2002	2.4%

JUVENILE ARRESTS

Number of Reported Victims by Age Groups

YOUNGER VICTIMS

OLDER VICTIMS

Overall, reported victimization for forcible sexual assaults decreased (5.5%) from 2002 to 2003. Victimization for those age 1 through 9 decreased 11.6 percent while those age 10 through 17 decreased 10 percent. However, those victims age 10 through 17 account for more than 5 times the total number of victims than those age 1 through 9.

An increase of 37, 12 and 28 % respectively was experienced by those age 40 thru 49, 50 thru 64 and over as the victim of ATM or credit card fraud from 2002 to 2003. In 1998, there were 47 victims (age 50-64) and 33 victims (over 64) of ATM or credit card fraud.

SECTION B

HATE/BIAS CRIME

HATE CRIMES

HISTORIC PERSPECTIVE

In the past decade, criminal acts motivated all or in part by prejudice have come to be known as hate crimes. These crimes continue to occur in Iowa, as well as throughout the country. Hate crimes not only affect individuals or groups, but also can disrupt the very ideals of a democratic society. Individuals and/or groups are affected more deeply because hate crimes are not random; the victims are targeted for who they are. The entire community can be threatened because of the increased level of fear and distrust related to or perceived after a hate/bias incident. The aftermath of fear related to a criminal act in the community can then escalate into other criminal incidents. In response to the seriousness of these crimes, state and national programs have been instituted to focus on these incidents. Specifically, new law enforcement techniques were developed to investigate these crimes along with data collection enhancements to determine the scope and nature of these offenses.

Public Law 101-275 or the "Hate Crimes Statistics Act" was approved, after passing both the House and Senate of the United States, on April 23, 1990. The purpose of this Act is to acquire and publish data of crimes that display distinct evidence of prejudice based on race, religion, sexual orientation, or ethnicity. The collection elements thought to be appropriate include the crimes of murder, non-negligent manslaughter, forcible rape, aggravated assault, simple assault, intimidation, arson, and destruction, damage, or vandalism of property.

On a local level, beginning in 1990, the 73rd Iowa General Assembly enacted into law precise language defining a hate crime and making special provisions for hate crimes. Revised in 1992, Iowa's law is more explicit and encompassing than the national law, reiterating the violation of an individual's rights and including victims of prejudice because of their sex, age, political affiliation, or disability. The following portion of Chapter 729A, *Code of Iowa*, reads:

SEC. 729A.1 VIOLATIONS OF AN INDIVIDUAL'S RIGHTS PROHIBITED.

"Persons within the state of Iowa have the right to be free from any violence, or intimidation by threat of violence, committed against their persons or property because of race, color, religion, ancestry, national origin, political affiliation, sex, sexual orientation, age, or disability."

SEC. 729A.2 VIOLATION OF INDIVIDUAL RIGHTS - HATE CRIME.

"Hate crime" means one of the following public offenses when committed against a person or a person's property because of the person's race, color, religion, ancestry, national origin, political affiliation, sex, sexual orientation, age, or disability, or the person's association with a person of a certain race, color, religion, ancestry, national origin, political affiliation, sex, sexual orientation, age, or disability.

HOW MANY...

- The oldest victim was sixty-five and the home was vandalized.
- A total monetary loss of \$4,415.00 was reported in 2003, \$6,230.00 was reported in 2002, \$1,492.00 was reported in 2001, \$4,445.00 was reported in 1999 but \$44,325.00 was reported in 1998.

2003 HATE CRIME	
Number of Incidents	38
Number of Victims	58
Number of Individuals	51
Number of Offenders	42

Those agencies that were not participating in the UCR reporting system were surveyed and encouraged to submit hate crime information.

The unknown offenders below seem to be in direct correlation to the number of reported businesses as the victim.

Table 1. Incidents by Victim

TOTAL	57	42	32	33	32	48	38

Additional Comments: Although African Americans were most frequently reported as the type of victim of a hate/bias crime in five of the six years, the data appears to be random. However, five incidents of painted racial slurs (“KKK” and “White Power”) (same city) occurred in 1997 on a single day. In 1998, the same three offenders were the offenders in three separate incidents (same city) within one week and in 2000 one offender accounted for three incidents involving six victims in two weeks

(same city). In 2001, nine of the eleven March incidents happened on three separate days in two communities.

AND WHEN ?

There is no clear pattern to the number of hate/bias crime incidents and when they occurred. In 2003 (7 of 38 or 18%) and 1997 (12 of 57 or 21%), June was reported most as the month of a hate crime. March was reported most in 2002 with 11 (23%) of the 48 total incidents. July was the highest month of reported incidents (7) in 2001. In 2000, April was reported most with 6 incidents. In 1997, 12 (21%) of the 57 incidents were reported for June while six incidents were reported for November and five incidents were reported for six different

months after April. July and October were reported as the months with the most incidents (six each or 14 percent) in 1998.

The months least reported were April in 1998, January and September in 2000, February in 2001 and June in 2002 with zero. In 1999, 1 incident was reported in four different months, (February, June, September, and December). In 2003, January February and December were the months least reported also with one incident.

Table 2.

Other Person	25	8	11	9	11	11	11
TOTAL	57	42	32	33	32	48	38

The target of a hate/bias crime can be a person, property of a person, a group or the public. Overall, a residence was most often indicated as the target of a hate crime in the early years of reporting, being reported in 41 percent of the incidents in 1993. In the mid 1990's a person was the direct target most of a hate crime being reported in 44 percent of

the 1997 incidents, 46 percent of the 1996 incidents, 45 percent of the 1995 incidents and almost 43 percent of the 1994 incidents. Report of persons being the target of a hate crime dropped to 20 percent of the 1998 incidents but rose to 29 percent of the 2003 incidents.

TARGET OF HATE CRIME

2003 Incidents

Figure 2

WHY...

A crime that is motivated by prejudice, as defined by law, is a hate crime. Race was the motivation or **type** of the hate/bias crime reported most in Iowa for the years 1991 through 2003.

See Tables 1 and 2 in years under Tables, Section B.

Table 6.

AND WHAT?

The more serious offense of aggravated assault accounted for 42 percent (13 of 32) of the 2001 but only 12 percent of the 2000 offenses, 13 percent of the 2002 offenses and 24 percent of the 2003 offenses.

Iowa's law enforcement officers reported vandalism most often in 2002 as the offense of a hate/bias crime (56 percent or in 27 incidents). The lowest year vandalism was reported was in 2001 with 25 percent.

See Table 1 for offenses by type of crime for 2003. Multiple offenses can be recorded for each incident.

	Agencies	Incidents

Table 8. Jurisdictions and Incidents by Years

There were 232 reporting jurisdiction in 2002, 2000 and in 1999, 236 in 2001, 234 for 1995 through 1998, 233 jurisdictions in 2003 and 1994 and 225 in 1991, 1992 and 1993. The adjacent table shows the number of law enforcement agencies that reported any hate/bias crime and the number of incidents they reported.

For specific agencies, see Table 2 under Tables, Section B.

SECTION C

DOMESTIC ABUSE

DOMESTIC VIOLENCE

HISTORICAL PERSPECTIVE

The Iowa Department of Public Safety is charged under Chapter 236 of the *Code of Iowa* with the responsibility for collecting information on incidents of domestic abuse in Iowa from local law enforcement agencies. The Department began collecting domestic abuse data on July 1, 1985, assuming a function previously performed by the Iowa Department of Human Services. The domestic abuse reporting system was the only incident-based crime data collected by the Department from 1986 through 1990. The incidents of domestic abuse rose rapidly each year between the years 1986 and 1990 increasing from a reported 3,501 incidents in 1986 to 6,199 reported incidents in 1990. Beginning with the 1991 data the Department incorporated the domestic abuse data and hate/bias crime data with the new Iowa Incident-Based Uniform Crime Reporting System, housing all crime data in one computerized system.

Domestic Abuse is defined by Section 708.2A, sub1 and in Section 236.2 of the *Code of Iowa* under any of the following circumstances:

- a. The assault is between family or household members who reside together at the time of the assault.
- b. The assault is between separated spouses or persons divorced from each other and not residing together at the time of the assault.
- c. The assault is between persons who are parents of the same minor child, regardless of whether they have been married or have lived together at any time.
- d. The assault is between persons who have been family or household members residing together within the past year and are not residing together at the time of the assault.

Although the definition of Domestic Abuse has changed since 1985, the meaning of “family or household members” has stayed much the same. The major changes have been in 1987, 1989, 1991, 1993 and 2002.

HOW MANY...

2003 VICTIMS	
Number	7,431
Decrease from 2002	-2.3%
Adjusted Rate	275.5
Decrease from 2002	-2.9%

...Domestic Abuse is counted by the number of victims as are the violent crimes of murder, the forcible sex offenses, and the assaults. There were 6,432 victims reported in 1998, 6,963 in 1999, 7,343 in 2000, 7,401 in 2001, 7,607 victims reported in 2002 and 7,431 victims were reported by law enforcement in 2003. See data from 1986 at end of the chapter.

Table 1. Victims by Month			
	2001	2002	2003
January	586	597	592
February	499	519	487
March	593	612	669
1st Quarter	1,678	1,728	1,748
April	674	580	626
May	666	623	719
June	688	729	669
2nd Quarter	2,028	1,932	2,014
July	721	736	692
August	634	722	666
September	635	703	604
3rd Quarter	1,990	2,161	1,962
October	600	605	619
November	546	577	569
December	559	604	519
4th Quarter	1,705	1,786	1,707
Total	7,401	7,607	7,431

The highest number of victims recorded in 2003 was in May. However, in 2001 and 2002 the summer month of July recorded the highest number of victims (here and Table 2, Section C). The lowest month of reported domestic abuse victims was February in all three years.

AND WHO?

VICTIMS By Gender	
Female	6,048
Male	1,383
OFFENDERS by Gender	
Female	1,426
Male	6,163

Table 2. Victims and Offenders by Race, 2003				
Race	Victims		Offenders	
	Victims	%	Offenders	%
White	6,150	83	5,845	77
African American	1,014	13	1,532	20
Asian/Pacific Isl.	72	1	67	1
Native American	131	2	112	1
Total	7,367		7,556	

Hispanic victims accounted for three percent of the victims in 1997 (222), 1998 (208) and in 2000 (245) but four percent of the victims in 1999 (270) 2001 (324), 2002 (312) and 2003(311). Hispanic offenders accounted for four percent (318) of the offenders in 2000 and 2001 (273) while five percent of the 1997 (315), 1998 (301) 1999 (330), 2002 (377) and 2003 (389) offenders were reported as being Hispanic.

Age

The largest percentage of those involved in a domestic abuse situation was between the ages of 20 and 29. Forty-one percent or 3,030 of the 7,431 victims of domestic abuse were between the ages of 20 and 29. Specifically, the most common victim was 22 years of age (373), with 644 victims reported to be under age 20.

The ages of offenders tended to be a little older than victims accounting for nine percent (694) of the 7,676 victims less than 20 years of age but making up seven percent (539) of the 7,676 offenders less than 20 years of age.

Table 3. Ages of Victims by Ages of Offenders for 2003

Victims Age								
Offenders Age	< 20	20-29	30-39	40-49	50-59	60-69	>69	
Less than 20	204	143	61	72	20	3	2	505
20-29	362	2003	380	89	25	5	6	2870
30-39	53	728	1116	336	55	2	7	2297
40-49	31	146	484	662	77	10	11	1421
50-59	8	14	57	122	81	7	5	294
60-69	1	3	6	9	12	5	4	40
70 and Over	1	3	3	5	5		18	35
	660	3040	2107	1295	275	32	53	7462

The ages of both the victim and the offender were reported in 7,462 cases in 2003. Of these, twenty-six percent involved both a victim and an offender being in the age group of 20 through 29. This page accounts for multiple victim and multiple offender situations. Some (less than 1 percent) of the victims or offenders are counted twice.

Relationships

Forty-eight percent of the reported victims were cohabitants of the abusers while the wives of the abusers accounted for an additional 27 percent in 2003. Six percent of the 2003 victims were the husbands of the abusers, ex-spouses accounted for four percent of the relationships. “Others” which would include family members rose from 7.5 percent of the 2001 victims and 7.8 of the 2002 victims to 8.7 percent of the 2003 victims or a 12 percent increase from 2002 to 2003. The relationship of co-habitant, wife and ex-spouse of the abuser accounted for 80 percent of the 2001 relationships, 82 percent of the 2002 relationships, 83 percent of the 1999 relationships and 81 percent of the relationships in 2000.

WHAT

The investigating officer reports a number of characteristics of each domestic abuse incident. Included are observed signs of abuse (injuries) to the victim, the weapon used to inflict the abuse and who reported the abuse to the law enforcement agency. The law enforcement officer also notes any referrals made, the presence or absence of children during the abuse, whether an arrest was made, if the offender was present, and the time and day of the incident.

Signs of Abuse

Table 4. Signs of Abuse for 2000 through 2003								
Signs of Abuse	2000		2001		2002		2003	
	Victims		Victims		Victims		Victims	
	Freq.	%	Freq.	%	Freq.	%	Freq.	%
None	2,431	33	2,271	31	2,245	30	2,189	30

Victim	6,387	86%
Other	1,074	14%

Reports of **children** not being present at the scene have increased markedly from forty-five percent of the cases in 1989 to a high of seventy-one percent of the 1999 cases.

Also, the **victim** has been reported consistently more as the one to notify authorities of domestic violence. In eighty-six percent of the cases in 2001 and 2003 and eighty-seven percent of the cases in 2002 the victim was indicated as the reporter while in 1990 the reporter was the victim in seventy-two percent of the cases while someone else took the responsibility in twenty-eight percent of the cases.

Weapons

A weapon was indicated in ninety-one percent of the 2001 and 2002 incidents, ninety-two percent of the 2000 and 2003 incidents, ninety-three percent of the 1995 through 1999 cases while a weapon was indicated in ninety-five percent of the 1994 cases.

Total Referrals	8,616		9,156		9,254		9,335		8,750	

There was no referral in 4,372 (59 percent) of the 7,431 victims in 2003. However, this number only accounts for 50 percent of the total referrals. There were 4,378 referrals indicated for the remaining 3,059 victims. A shelter, counseling and a medical referral all accounted for approximately 10 percent each of the referrals while another 15 percent each was a legal or

other referral. A financial referral was only reported to two percent of the victims. (There may be multiple referrals for one incident.)

WHEN

The majority of the domestic abuse incidents were reported during the evening and nighttime hours. In 2003, thirty-eight percent of the reports occurred between 6:00 P.M. and midnight, and another twenty-six percent occurred between midnight and 6:00 A.M. The most frequent single hour reported was midnight and the least single hour reported was 7:00 A.M. in 2001 and 2002 and 6:00 A.M. in 2003. Similar percentages were recorded in 1997 to 2000. A specific hour of the incident was reported for approximately ninety-five percent of the incidents in 2002 and 94 percent of the incidents in 2003.

Table 7. Times of Abuse for 2001/2003						
	2001		2002		2003

Friday	1,085	15	1,052	15	984	14
Saturday	1,253	18	1,287	18	1,262	18
Sunday	1,249	17	1,217	17	1,141	16
Total	7,111		7,276		7,046	

Incidents of domestic abuse were reported more frequently on the weekends than on weekdays. In all years Saturday and Sunday accounted for approximately twenty percent each of all reported incidents until 2000 but other days of the week still show smaller percentages.

AND WHERE

Table 9 shows the number of incidents of domestic abuse and the rate per 100,000 population for each of the 99 counties in Iowa. Law enforcement agencies that have not reported general crime or are considered "non-reporting" because of low numbers are listed in "Total" on page 16. The "adjusted population" was used for the total rates.

ARRESTS

Section 236.11 of the *Code of Iowa*, enacted by the Iowa General Assembly in 1986, effected a change in the law regarding domestic abuse. This law requires an investigating peace officer of a domestic abuse complaint to arrest the alleged offender if there is probable cause to believe that domestic abuse has occurred. Before the law took effect arrests were made in approximately twenty percent of the incidents. Following the “mandatory arrest” law, the ratio of arrests began climbing from less than 20 percent in the first half of 1986 to reach the seventy percent range by the last quarter of 1988 (not shown).

Figure 12 shows the percent of arrests for 1999 through 2003.

The charges ranged from trespass and drunkenness to burglary, robbery, aggravated assault and murder, with most being arrested for simple assault (5,995). Refer to the **Murder** section for homicides of those in a domestic situation.

A factor determining the arrest of the offender of domestic abuse is physical presence. Beginning in 1991, information was collected as to whether an offender was at the scene when the law enforcement agency arrived or if the offender had fled. Fifty seven percent of the offenders were reported to have fled in 2003, Fifty-six percent of in 2001, 55 percent in 2002. Figure 13 shows this information graphically for the years 1999-2003.

The Program Services Bureau of the Department of Public Safety not only collects uniform crime reporting data but also collects information on law enforcement civilian personnel as well as law enforcement officers. The information displayed below is from the 99 county sheriffs, the 3 state universities, 131 police departments and the Iowa Department of Public Safety.

Officers of the Iowa Department of Public Safety are in the Division of State Patrol, the Division of Criminal Investigation, the Division of Narcotics Enforcement and the Fire Marshal Division.
