**SENATE PASSES PUBLIC HEALTH DISASTER FUNDING BILL – SF 2153**

**Public Health Disaster**

The Senate passed SF 2153 (Public Health Disaster Funding Bill) on March 17. The Bill permits the Department of Public Health, in conjunction with the Governor, to provide financial assistance to local governments in the event of a public health emergency or disaster. Funding would be from unencumbered funds in the Department of Public Health and allows the Governor to issue an Executive Order that provides additional funding from the General Fund if funding from the Department of Public Health is insufficient.

**Fiscal Impact**

The fiscal impact of SF 2153 cannot be determined, as the costs would depend upon the type and severity of the emergency.

**HOUSE PASSES CHILD ENDANGERMENT BILL – SF 2166**

**Child Endangerment**

The House passed SF 2166 (Child Endangerment Bill) on March 15. The Bill provides a sentencing option for offenders who commit child endangerment resulting in the death of a child or minor.

**Proposed Sentence**

The sentence imposed under SF 2166 is a Class B felony with a maximum sentence of 50 years; however, the sentence is not subject to a mandatory minimum term of confinement. Under this sentencing option, it would not be necessary to prove malice aforethought. The average time served in prison for an offender convicted of a Class B felony crime against a person is 11.3 years.

**Correctional Impact**

There is no correctional impact over the next five years. An offender sentenced under SF 2166 would serve less time in prison (11.3 years) than an individual convicted of murder in the first degree (life in prison) or murder in the second degree (35.0 years).
